Homosexuality A Subjective And Objective Investigation:

Homosexuality Charles Berg, 2021-12-26 First published in Britain in 1958 the original blurb read To those whose sex life is based on heterosexual relationships the homosexual is a grotesque shadowy creature a person spoken of with scorn If you are not one of us it is impossible to realise our feelings when this occurs It is incredible to us that a well educated girl could make the following remark What do they look like I wonder if I've ever seen one These words written by a lesbian and taken from one of the personal histories of homosexual men and women which open this book might be taken as its theme In our statistically minded age we are apt to forget that behind the word homosexual there is always a person Widespread misconceptions about homosexuality are particularly startling when one considers the disturbing prevalence The purpose of this book is to bring into public light the knowledge of the manifestations of the problem so that they may be openly examined The book is divided into two parts Part One presents a collection of revealing autobiographies diaries letters and intimate observations in which the homosexuals speak for themselves Part Two offers an examination of the cause and cure of homosexuality by important figures from all major schools of thought It includes contributions by Sigmund Freud C G Jung George W Henry Magnus Hirschfield Wilhelm Stekel and Sandor Ferenczi In editing this volume Dr Berg has bridged a significant gap in the scientific approach to sexual behaviour By bringing to life the feelings fears attitudes and anxieties of the human being behind the statistics of homosexual incidence as well as the causes it should become indispensable to the movement for intelligent sex education This book is a re issue originally published in 1958 The language used is a reflection of its era and no offence is meant by the Publishers to any reader by this re publication Homosexuality and Literature:

1890-1930 Jeffrey Meyers, 2016-10-06 Although artists are nowadays able to be openly gay and to address homosexuality explicitly in their work this book argues that it was the harsh climate of 1890 1930 that produced the most outstanding explorations of homosexuality To support his argument Meyers illuminates the character and creative process of a range of authors of the period including Wilde Gide Proust E M Forster and T E Lawrence and analyses the sexual problems that were sublimated and transcended in their art **Homotopia?** Jonathan Kemp, 2015 There is not one corner of the earth where the alleged crime of sodomy has not had shrines and votaries Marquis de Sade Philosophy in the Bedroom Maybe the target nowadays is not to discover what we are but to refuse what we are We have to promote new forms of subjectivity through the refusal of this kind of individuality Michel Foucault The Subject and Power Do opposites attract Is desire lack These assumptions have become so much a part of the ways in which we conceive desire that they are rarely questioned Yet what do they say about how homosexuality a desire for the same is viewed in our culture This book takes as its starting point the absence of a suitable theory of homosexual desire a theory not predicated on such heterological assumptions It is an investigation into how such assumptions acquired meaning within homosexual discourse and as such is offered as an interruption within the hegemony of desire As such homosexual desire constitutes the biggest challenge to Western binaric

thinking in that it dissolves the sacred distinctions between Same Other Desire Identification subject object male female Homotopia composed in 1997 but not published until now investigates the development of a homosexual discourse at the end of the nineteenth century and the beginning of the twentieth century and reveals how that discourse worked within heterosexualized models of desire Andre Gide's Corydon Edward Carpenter's The Intermediate Sex and John Addington Symonds's A Problem in Modern Ethics are all pseudo scientific texts written by non medical men of letters and were in their time highly influential on the emerging homosexual discourse The fourth text the twenty odd pages of Marcel Proust's novel A la recherche de temps perdu usually referred to as La Recherche is the most problematic in that it appeared under the guise of fiction But Proust originally planned this essay within a novel to be published separately In it he offers a pseudo scientific theory of male male love These four texts were published between the years 1891 and 1924 an historical moment when the concept of a distinct homosexual identity took shape within a medicalized discourse centered on essential identity traits and characteristics and they all work within the rubric of science contributing to a discourse which saw the human race divided into two distinct categories heterosexuals and homosexuals How did this division come about and what were its effects How was this discourse sustained and how were the meanings it produced received For men whose erotic interest was exclusively in other men what did it mean to see oneself and one's desires as the outcome of biology rather than moral lapse

What Is Queer Food? John Birdsall, 2025-06-03 A celebrated culinary writer's expansive audacious excavation of the roots of modern queer identity and food culture The food on our plates has long been designed twisted and elevated by queer hands Piecing together a dazzling mosaic of queer lives spaces and meals beloved food writer John Birdsall unfolds the complex story of how through times of fear and persecution queer people used food to express joy and build community and ended up changing the shape of the table for everyone Tracing the evolution of queer food from the early decades of the twentieth century through the LGBTQ civil rights movement of post Stonewall liberation and the devastation of AIDS Birdsall fills the gaps between past and present He channels the twin forces of criticism and cultural history to propel readers into the kitchens restaurants swirling party houses and buzzing interior lives of James Baldwin Alice B. Toklas Truman Capote Esther Eng and others who left an indelible mark on the culinary world from the margins Queer food as Birdsall brilliantly reveals is quiche and Champagne elegance at Sunday brunch and joyous lesbian potlucks in the bunker world of Cold War homophobic purges It's paper chicken for the gender rebel divas of Chinese opera in San Francisco Richard Olney's ecstatic *salade composite* and Rainbow Ice Box Cake from Ernest Matthew Mickler's *White Trash Cooking* It's the intention surrounding a meal the circumstances behind it the people gathered around the table With cinematic verve and delicious prose *What Is Queer Food* is a monumental work a testament to food's essential link to modern queerness that reveals how like fashion or pop music cooking and eating have become a crucial language of LGBTQ identity By reframing our understanding of both food and queerness it opens the door for courageous reckoning and boundless conversation **A**

J. West, The subject of homosexuality and especially male homosexuality has received a great deal of publicity in England and America The furor began with Kinsey's famous reports on sexual behavior which brought out the fact that a far higher proportion of the population than was commonly supposed deviated from accepted standards of normality and morality Taking courage from the apparent safety of large numbers the sexually unorthodox and their sympathizers began to challenge the criteria of normality and to question

whether sexual habits that were widespread and so deeply entrenched could justifiably be written off as immoral D J West's *Homosexuality* dissects the myths and paranoia surrounding this topic by examining the nature and roots of homosexuality The politico legal controversy has tended to overshadow the more fundamental psychological questions concerning the nature and causes of homosexuality In this field no striking discoveries have resulted from the increased public interest Nevertheless a body of factual data has accumulated and a number of theories are available The author's main purpose is to summarize as clearly as possible what is known to draw what practical conclusions may be possible and to point out where we are still groping and ignorant This book deals mainly with male homosexuality because in men the condition causes more clear cut social problems and has been studied more intensely by psychiatrists Unfortunately though strongly held opinions abound hard facts about homosexuality and its possible causes are difficult to obtain Even now serious medical and sociological investigations in this subject are scandalously few considering the importance of the questions in human terms Until a large section of the public is prepared to face the facts squarely and rationally and to support adequate research our knowledge will remain rudimentary This book clears away the debris of myth and misunderstanding in a vital area of social concern D J West is professor at the University of Cambridge He is the editor of *Sociolegal Control of Homosexuality* A Multi Nation Comparison with Richard Green and author of *The Other Man* A Study of the Social Legal and Clinical Aspects of Homosexuality
