Rousseau Among the Moderns Julia Simon, 2015-06-26 Renowned for his influence as a political philosopher a writer and an autobiographer Jean Jacques Rousseau is known also for his lifelong interest in music He composed operas and other musical pieces invented a system of numbered musical notation engaged in public debates about music and wrote at length about musical theory Critical analysis of Rousseau s work in music has been principally the domain of musicologists rarely involving the work of scholars of political theory or literary studies In Rousseau Among the Moderns Julia Simon puts forth fresh interpretations of *The Social Contract* *the Discourse on the Origin of Inequality* and *the Confessions* as well as other texts She links Rousseau s understanding of key concepts in music such as tuning harmony melody and form to the crucial problem of the individual s relationship to the social order The choice of music as the privileged aesthetic object enables Rousseau to gain insight into the role of the aesthetic realm in relation to the social and political body in ways often associated with later thinkers Simon argues that much of Rousseau s modernism resides in the unique role that he assigns to music in forging communal relations

Political Expression and Conflict Transformation in Divided Societies Daniel Kirkpatrick, 2019-09-04 This book considers how the social construction of crime and the criminalising of political expression impact upon different stages in a violent political conflict The freedom to express our political opinions is regarded as an essential human right throughout most of the world and yet in defence of our security governments often place various restrictions on it This book directly considers what these restrictions are in the context of deeply divided societies to understand how they impact upon intergroup relations in four different contexts nonviolent movements counter insurgency peace negotiations and post settlement peacebuilding Drawing on an extensive body of original interviews and archival material the volume analyses this relationship through an in depth consideration of Northern Ireland and South Africa followed by a wider analysis of Turkey Sri Lanka Belgium and Canada The overarching argument is that the implications of criminalising political expression depend on both its target and the wider social reality it contributes towards This book will be of much interest to students of conflict resolution transitional justice law and International Relations

Euphony, harmony and dissonance in the international legal order = Eufonia, harmonia i dysonans w międzynarodowym porządku prawnym = Euphonie, harmonie et dissonance dans l'ordre juridique international : Liber amicorum Władysław Czapliński Krystyna Kowalik-Bańczyk, Karolina Wierczyńska, Andrzej Jakubowski, 2024-12-21

This book is a collection of essays dedicated to Professor Władysław Czapliński on the occasion of his 70th birthday. For over 30 years Professor Władysław Czapliński has been professionally associated with the Institute of Law Studies of the Polish Academy of Sciences where he served as Director from 2004 to 2016 and where his most important works were written. It aims to capture the breadth of his interests and the depth of his scholarship. The essays within, written in English, French and Polish, are contributions from his colleagues, friends and former students. Many authors raise general, classic questions of international law: the foundations of the contemporary international legal order (Stephan Hobe and María Isabel Torres Cazorla), *jus cogens* (Maurizio Arcari and Beatrice Bonafant), customary international law (Chun-chen Chen), the general principles of law (Artur Kozłowski and Monica Lugato), the fragmentation of international law (Ewelina Czaplińska-Wacinkiewicz), neutrality (Michał Kowalski), force and its use in international law (Dino Kritsiotis), formal sources of the protection of international human rights (Roman Kwieciec), the art of interpreting treaties (Anna Wyrozumska), recognition (Brad R. Roth), non-contractual liability of the State (Maja Serić) and compensation schemes in international law (Pavel Turma). Other authors, in turn, raise the issue of international justice. Wojciech Sadowski refers to a general problem of separate opinions whilst other texts deal with the functioning and case law of the International Court of Justice (ICJ), the European Court of Human Rights (ECtHR) and the International Criminal Court (ICC): *locus standi* before the ICJ (Patrycja Grzebyk), interim measures implemented by the ICJ (Peter Hilpold), obligations of States in the context of the crime of genocide in the case law of the ICJ (Karolina Wierczyńska) and Szymon Zarba, the international responsibility of States under the European Convention on Human Rights (Michał Balcerzak), the right to cultural heritage in the case law of the ECtHR (Andrzej Jakubowski), the possibility of denouncing the ECHR (Ireneusz Kamiński), interim measures adopted by the ECtHR (Bernard Uka), and the application of international law by the ICC (Peter Kovács). A range of essays address specific issues of international law that align with the Jubilate's research interests: the status of the International Labour Organization (Shotaro Hamamoto), the UN Security Council and climate change (Bartłomiej Krzan), the protection of personal data in international law (Nikolay Marin), disharmony in the international protection of the human rights of older LGBT people (Barbara Mikołajczyk), the right to migrate (Roman Wieruszewski) and the veto power in the United Nations (Salvatore Zappalà). Some authors discuss issues related to maintaining peace or reactions to the use of force in international relations: collective security (Louis Balmond), the Uniting for Peace resolution (Agata Kleczkowska), international trade (Jerzy Menkes and Marcin Menkes), unilateral measures (Cezary Mik), the regionalization of disarmament initiatives (Anne Millet Devalle) and the use of nuclear weapons (Vilenas Vadapalas). A separate theme illustrating Władysław's interests is Polish-German relations (Dagmar Richter, Jan Barcz and Stefan Oeter) as well as issues of EU law that intersect with traditional international law: the EU's contribution to the development of international humanitarian law in the context of Russia's full-scale aggression against Ukraine (Dagmara Kornobis Romanowska), the EU's smart sanctions against Russia (Krystyna Kowalik-Bańczyk), the concepts of supremacy, primacy and the rule of law in EU law (Jerzy Kranz), EU criminal

law Monika Szwarc and the preliminary ruling procedure of the Court of Justice Krzysztof Wójcicki Preclassical Conflict of Laws Nikitas Hatzimihail, 2021-07-22 Showcases a novel method for approaching private international law combining theoretical insight textual analysis and historical context *The Joy of Life* Margaret Werth, 2002-11-05 Werth weaves together complex analyses of these paintings and others by Manet Gauguin Seurat Cezanne and less well known artists with a consideration of their critical reception literary parallels and the social and cultural milieu She moves from artistic concerns with tradition and avant gardism decoration and social art composition and figuration to contemporary debates over human origins and social organization BOOK JACKET **Becoming God** Patrick Lee Miller, 2011-01-20 A lucid presentation of the first and most influential attempts to weave together philosophical thought on God reason and happiness

Virtue, Happiness, Knowledge David O. Brink, Susan Sauvé Meyer, Christopher Shields, 2018-06-21 Fifteen leading philosophers explore a set of themes from the pioneering work of Gail Fine and Terence Irwin in ancient philosophy but also in later periods and in systematic philosophy The contributors discuss knowledge rhetoric freedom and practical reason virtue and the good life ethics and politics in Plato and Aristotle and beyond The editors offer an introduction charting the scholarly contributions of Fine and Irwin and assessing their individual and joint impact together with a complete bibliography of their writings *Heidegger and the Greeks* Drew A. Hyland, John Panteleimon Manoussakis, 2006-08-10 Martin Heidegger's sustained reflection on Greek thought has been increasingly recognized as a decisive feature of his own philosophical development At the same time this important philosophical meeting has generated considerable controversy and disagreement concerning the radical originality of Heidegger's view of the Greeks and their place in his groundbreaking thinking In *Heidegger and the Greeks* an international group of distinguished philosophers sheds light on the issues raised by Heidegger's encounter and engagement with the Greeks The careful and nuanced essays brought together here shed light on how core philosophical concepts such as phenomenology existentialism hermeneutics and ethics are understood today For readers at all levels this volume is an invitation to continue the important dialogue with Greek thinking that was started and stimulated by Heidegger Contributors are Claudia Baracchi Walter A Brogan G 1 4nter Figal Gregory Fried Francisco J Gonzalez Drew A Hyland John Panteleimon Manoussakis William J Richardson John Sallis Dennis J Schmidt and Peter Warnek
