Saunders, 2016-12-21 *The Rhetorical Power of Children's Literature* is an edited volume with contributions from established and new scholars of rhetoric offering case studies that analyze a full array of genres in children's literature from picture books to young adult novels Collectively this volume's contributions interrogate how children's literature is a powerful yet under examined space of rhetorical discourse that influences one of the most vulnerable segments of our population This

book is singularly unique given that it will be the first collection of essays on children's literature from the distinct perspective of the field of Communication. Beyond topical novelty, the contributors utilize a range of scholarly methods to analyze instances of the rhetoric of children's literature. Consequently, essays in this volume may be read for both their specific topical content and as exemplars for multiple methodological approaches to the study of the rhetoric of children's literature. Collectively, the contributors set out to contribute to our knowledge of how instances of children's literature operate as rhetorical discourses. The volume is organized by case studies approached through critical rhetorical lenses that analyze specific instances of children's literature from two distinct stages of children's developmental reading experiences, including pre-early literacy and fluent reading. Structurally, the book includes eight content chapters divided evenly with four chapters analyzing books for young children and four chapters analyzing books targeting audiences from late childhood to adolescence. An overview of each content chapter accompanies this proposal.

Fantasy

Literature Mark A. Fabrizio, 2016-10-11 Fantasy literature, often derided as superficial and escapist, is one of the most popular and enduring genres of fiction worldwide. It is also perhaps surprisingly thought-provoking, structurally complex, and relevant to contemporary society, as the essays in this volume attest. The scholars, teachers, and authors represented here offer their perspectives on this engaging genre. Within these pages, a reader will find a wealth of ideas to help teachers use these texts in the classroom, challenging students to read fantasy with a critical eye. They employ interdisciplinary philosophical and religious lenses, as well as Marxist and feminist critical theory, to help students unlock texts. The books discussed include epic fantasy by such authors as Tolkien and Le Guin; children's fantasy by Beatrix Potter and Saint-Exupéry; modern fantasy by Rowling and Martin; and even fairy tales and comic books. The contributors offer provocations, questioning the texts and pushing the boundaries of meaning within the fantasy genre. And in doing so, they challenge readers themselves to ponder these tales more deeply. But through each of these chapters runs a profound love of the genre and a respect for those who produce such beautiful and moving stories. Furthermore, as with all the books in this series, this volume is informed by the tenets of critical pedagogy and is focused on re-envisioning fantasy literature through the lens of social justice and empowerment. Prepare to be challenged and inspired as you read these explorations of a much-loved genre.
