Hatred The Psychological Descent Into Violence:

Hatred Willard Gaylin, 2003 A renowned psychoanalyst offers a clear eyed thought provoking examination of humankind's most destructive emotion and the seductive power it has to tear our world apart ***A World Ignited*** Martin Tolchin, Susan J. Tolchin, 2007-10-30 *A World Ignited* is about the surge of anger that has swept the world in the last decade its myriad causes its toll in lives and human misery The authors conclude this important and timely book in an upbeat manner with a look at the politics of hope and what can be done to halt and even reverse this cacophony of hate ***A Phenomenology of Love and Hate*** Peter Hadreas, 2016-03-23 Using phenomenology to uncover the implicit logic in personal love sexual love and hatred Peter Hadreas provides new insights into the uniqueness of the beloved and offers fresh explanations for some of the worst outbreaks of violence and hatred in modern times Topics discussed include the value and subjectivity of personal love nudity and the temporality of sexual love the connection between personal sexual love and the incest taboo the development of group focused hatred from individual focused hatred and prejudicial discrimination The work encompasses analysis of philosophers and writers from ancient times through to the present day and examines such episodes as the Oklahoma City Federal Building bombing and the Columbine High School massacre ***Islamist Terrorism and Militancy in Indonesia*** Kumar Ramakrishna, 2014-10-19 Drawing upon insights from the natural and social sciences this book puts forth a provocative new argument that the violent Islamist threat in Indonesia today derives its stubborn resilience from being in essence a complex adaptive and self organizing system or what some specialists might even call a super organism The book challenges the popular assumption that ideology is the root cause that explains why Indonesian Islamists radicalize into violent extremism In addition it addresses why despite years of intense security force pressure seemingly disparate militant cells keep popping up like the proverbial hydra and in the apparent absence of a centralized coordinating body nevertheless appear to display an organic interconnectivity with one another Going beyond standard ideological mantras the book argues that fresh interdisciplinary thinking is needed to cope with the constantly mutating violent Islamist challenge in Indonesia and puts forth a comprehensive strategy for doing so It will be of interest to academics and students of terrorism religion and violence in the Southeast Asian region ***The Hate Handbook*** Martin Oppenheimer, 2005-01-01 In clear conversational and shockingly frank prose Martin Oppenheimer explores the causes of hatred and bigotry *The Hate Handbook* is a unique and brilliant effort by a well known sociologist of social movements to communicate to all who are interested why it is that people hate and kill one another and despite massive tragedy why it is that they continue to do so today ***Hate Crimes*** Donald Altschiller, 2015-09-15 Hate crime is a disturbing phenomenon that is the subject of constant debate discussion and legislation This book helps readers understand the complex issue and see how the government and activists are proactively combating hate crime With the first two editions widely praised by reviewers *Hate Crimes A Reference Handbook* Third Edition remains the most comprehensive reference source on bias motivated violence committed in the United States The

book contains vital history on hate crime legislation provides a detailed chronology of recent events and offers the most up to date information on its prevalence and the affected religious racial and other targeted communities such as Jewish Americans and Sikh Americans Dozens of expert contributors such as Kenneth L Marcus president and general counsel of the Louis D Brandeis Center for Human Rights Under Law present a balanced range of perspectives on the growing phenomenon enabling readers to fully comprehend the widespread problem and develop their own informed opinion Written in an accessible style suited to high school and undergraduate level students as well as general readers this book provides an essential current and easy to read ready reference on the timely and evolving issue of hate crime in the United States The material provides an introductory overview of the topic of hate crime as well as insightful discussion of specific subjects such as U S Supreme Court decisions and federal and state legislation regarding hate crimes the incidence of hate crimes committed on America s college campuses and governmental and citizen efforts to combat this disturbing phenomenon

The Absence of Evidence and Its Consequences in Travesties of Justice Raphael Israeli,2019-01-29 This book is built on the assumption that very often what seems to be evidence turns out to be fake news while libels and stereotypes that have no foundation in reality are accepted as evidence thus potentially causing travesties of justice Examples are drawn here from several prominent and renowned case studies including OJ Simpson s trial and the fiasco of American intervention in Iraq to search for the traces of weapons of mass destruction which were not found The book also explores the history of anti Semitism which is replete with false accusations where evidence was lacking and Jews were nevertheless convicted It also shows how the Arab Israeli conflict also demonstrates how unfounded accusations can be sustained by lies proving that beliefs and prejudices are sometime stronger than hard facts Radical Pathways Kumar K. Ramakrishna,2009-03-20 This book explores two of the most crucial areas of the war on terror 1 why some Muslims turn to violent jihad and 2 that process in the world s most populous Muslim nation Indonesia The recent history of terrorism in Indonesia has brought this country into the world spotlight the Bali night club bombing by Islamists in 2002 was one of the worst terrorist attacks in history The recent violence following the executions of three of the Bali bombers together with a number of thwarted bomb plots demonstrate the continuing danger posed by radicalized violent Islamists in the country Written by one of Southeast Asia s leading counter terrorism experts *Radical Pathways* offers innovative new perspectives on the sources of violent Muslim radicalization and what should be done to counter it Warlords Rising Troy S. Thomas,Stephen D. Kiser,William D. Casebeer,2005-01-01 As non state armed groups gain greater access to resources and networks through global interconnectivity they have come to dominate the terrain of illegal trade in drugs guns and humans *Warlords Rising* arms those confronting the mounting non state challenge by delivering an innovative interdisciplinary framework of analysis designed to improve understanding of non state adversaries in order to affect their development and performance **The Intractable Dispute** Raphael Israeli,2019-02-21 The Middle East conflict which has been raging for a century and seems to

have no end in sight is not over territory or other assets but is historically anchored in the Islamic tradition which has become the preponderant faith of the Arabs Being a qualitative factor of an either or import from the Muslim point of view which is today best expressed by Iran the Muslim Brothers Hamas Hezbollah and other radical Muslim movements it is not given to negotiation and compromise as any other political conflict but is governed by absolutes and one sided perspectives Arab nationalism Islam and Zionism are the main political and religious movements taking center stage in this conflict The intractable nature of the conflict has so far defied all negotiations agreements and peace treaties All the proposed peaceful settlements have thus far remained brittle while the fundamental issues of stereotyping suspicion hatred and condescendence have remained in place unshaken This book confronts two contradictory ideologies and attempts to bridge them over

In Good Faith Scott A. Shay, 2018-09-04 Prominent atheists claim the Bible is a racist text Yet Dr Martin Luther King Jr read it daily Then again so did many ardent segregationists Some atheists claim religion serves to oppress the masses Yet the classic text of the French Revolution What is the Third Estate was written by a priest On the other hand the revolutionaries ended up banning religion What do we make of religion s confusing role in history And what of religion s relationship to science Some scientists claim that we have no free will Others argue that advances in neurobiology and physics disprove determinism As for whispering to the universe an absurd habit say the skeptics Yet prayer is a transformative practice for millions This book explores the most common atheist critiques of the Bible and religion incorporating Jewish Christian and Muslim voices The result is a fresh modern re evaluation of religion and of atheism Scott A Shay is a Co Founder and Chairman of Signature Bank and a longstanding Jewish community activist Shay started a Hebrew school an adult educational program and chaired several Jewish educational programs He is the author of *Getting our Groove Back How to Energize American Jewry* and has been thinking about religion reason and modernity since wondering why his parents sent him to Hebrew school
