Home Blizzard Sir Douglas Mawson:

The home of the blizzard, by sir douglas mawson Sir Douglas Mawson, 1938 *The Home of the Blizzard* Douglas Mawson, 2013-03-06 In *The Home of the Blizzard* Sir Douglas Mawson records his historic expedition to explore uncharted land in Antarctica. Pitted against formidable natural forces, he and his team faced unrelenting winds with speeds of up to two hundred miles per hour, as well as freezing temperatures and day-long blizzards. They traversed the previously unexplored King George V Land directly south of Australia and collected geological samples and magnetic readings. After accident and illness led to the death of his two teammates, a starving and frostbitten Mawson finished one hundred miles of the return journey alone. Mawson kept a detailed journal of his expedition, reprinted here in the popular abridged version from 1930. He puts the reader at the cold, windy scene with vivid descriptions of the men and their sled dogs persevering over rough terrain. Mawson's thoughts upon losing his colleague Lt Belgrave Ninnis in a deep snow-covered crevasse in a glacier, or while dangling from his own sled in another crevasse while alone and near death, convey the dual excitement and danger that accompany his unique expedition. Readers will be swept up in Sir Douglas Mawson's amazing and historic adventures. The over 300 accompanying photographs taken during the Antarctic trip paint a vivid picture of that harsh and extraordinary land.

The Home of the Blizzard Douglas Mawson, 1915 *The Home of the Blizzard, Being the Story of the Australasian Antarctic Expedition, 1911-1914*, by Sir Douglas Mawson, ... [J.K. Davis, F. Wild, G.F. Ainsworth, S. É. Jones and A.L. Mc Lean.]. Douglas Mawson, 1915 **Illustrated Sporting & Dramatic News**, 1914 **The Home of the Blizzard** Sir Douglas Mawson, 1998

Account of the Australasian Antarctic Expedition 1911-1914 **Frank Hurley: A Photographer's Life** Alasdair McGregor, 2019-02-01 Photographer, filmmaker, writer, adventurer. Controversial, passionate, audacious. Frank Hurley was an extraordinary Australian, possibly most famous for his Antarctic photographs captured alongside expeditioners Sir Douglas Mawson and Sir Ernest Shackleton. From the early twentieth century until his death in 1962, Hurley created a stunning visual archive that chronicled the major events of the twentieth century and Australia's achievements both home and overseas. This book and the Hurley Collection in the National Library of Australia make clear this outstanding contribution and the lengths to which the man would go in order to convey the gravity of events. For Hurley, image-making and exploration went hand in hand, and he sought out experiences as a pioneer documentary filmmaker, official photographer in two world wars, early aviator and adventure and story seeker in both the natural environment and in rapidly disappearing non-western worlds. In this readable, definitive and wonderfully illustrated reissued biography, Alasdair McGregor describes Hurley's life and character in all its richness **Photography, Early Cinema and Colonial Modernity** Robert

Dixon, 2013-11-15 *Photography, Early Cinema and Colonial Modernity* is not a biography of Frank Hurley; the man it is instead

an examination of the social life of the many marvellous and meaningful things he made as a professional photographer and film maker The focus of this volume surrounds the media events that encompassed these various creations what Hurley called his synchronized lecture entertainments These media events were at once national and international they involved Hurley in an entire culture industry that was constantly in movement along global lines of travel and communication This raises complex questions both about the authorship of Hurley s photographic and filmic texts which were often produced and presented by other people and about their ontology as they were often in a state of reassemblage in response to changing market opportunities This unique study re imagines from inside the quiet and stillness of the archive the prior social life enjoyed by Hurley s creations amidst the complicated topography of the early twentieth century s rapidly internationalizing mass media landscape As a way to conceive of that space and of the social life of the people and things within it this study uses the concept of colonial modernity Antarctica D. W. H. Walton,2013 A dramatically illustrated book by leading international scientists which describes Antarctica s central role in global scientific research **Antarctica** David W. H. Walton,2013-03-28 Antarctica is the coldest and driest continent on Earth a place for adventure and a key area for global science Research conducted there has received increasing international attention due to concerns over destruction of the ozone layer and the problem of global warming and melting ice shelves This dramatically illustrated new book brings together an international group of leading Antarctic scientists to explain why the Antarctic is so central to understanding the history and potential fate of our planet It introduces the beauty of the world s greatest wilderness its remarkable attributes and the global importance of the international science done there Spanning topics from marine biology to space science this book is an accessible overview for anyone interested in the Antarctic and its science and governance It provides a valuable summary for those involved in polar management and is an inspiration for the next generation of Antarctic researchers
