The Islamic State Yonah Alexander, Dean Alexander, 2015-09-08 The so called Islamic State IS that has swept into power in parts of Syria and Iraq presents an imminent danger to the global community with its capacity as an effective ideologically motivated and bloodthirsty fighting force coupled with its expanding territorial reach on the ground and online The IS has taken on a quasi state form that mixes modernity with ancient rites and aggressively promotes sectarian violence and religious extremism with a decidedly apocalyptic bent Too it has introduced to the Middle East a new level of extremism and brutality marked by volatile fluidity with far reaching dangerously destabilizing effects on state and non state actors regionally and globally This book offers insights into the nature of the IS and what the international community can do to combat it In order to achieve this objective the origins intentions leadership capabilities and operations of the IS are explored The Islamic State s multifaceted efforts and effects in the region and beyond are described Also national regional and global strategies that are being pursued to address the new threat are examined To this end a range of recommendations are offered on specific steps that governmental intergovernmental and non governmental bodies can take to counter the IS menace Lastly additional insights are presented relevant to combating the IS and undermining its potential future capabilities

Christian Ethics Non-violent Resistance Approach to Boko Haram Anthony Okechukwu Nnadi PhD STD, 2024-04-10 The book takes a practical look at the complexity of the nature of violence terrorism in Nigeria in the light of the Catholic social teaching on non violent resistance With the critical analyses of some policies strategies used to address the problem of Boko Haram terrorism in Nigeria the book explores a range of questions Does severe punishment work effectively as deterrence against possible involvement in terrorism Does applying lex talionis reduce or exacerbate recidivism What are the right mechanisms to stop terrorism violence in Nigeria This book is convinced that nothing is resolved through violence and that violence

begets violence alluding that responding to terror with terror is a retaliatory method that is self defeating On the whole it has been noted that the principle or law of retaliation Lex Talionis alone cannot stop armed insurgency in Nigeria thus the book suggests non violent resistance as the best way to address terrorism and violent conflicts Non violent resistance does not mean condoning violent attacks against innocent civilians Based on the Christian ethical principles of the dignity of the human person and justice this book explicitly declares that the killing of innocent civilians is absolutely immoral The book explores the use of the term Islamic terrorism and the Islamic ethics of justice peace and nonviolence and underlines that the Islamic core moral principles in no way support terrorism While stating that terrorism is morally wrong this book states that the causes of terrorism must be addressed with justice and fairness On this basis the book insists on critically investigating the following religious extremism corruption bigotry in politics and religion the glaring sense of apathy among the political elite to the suffering of the oppressed and the mismanagement and abuse of political positions or the nation s resources for selfish interest There must be a rethink aimed at finding the best way to build an ethical society a framework for justice and peace
