Routledge Handbook of Sport, Gender and Sexuality Jennifer Hargreaves, Eric Anderson, 2014-03-05 The Routledge Handbook of Sport Gender and Sexuality brings together important new work from 68 leading international scholars that collectively demonstrates the intrinsic interconnectedness of sport, gender and sexuality. It introduces what is in essence a sophisticated sub-area of sport sociology covering the field comprehensively as well as signalling ideas for future research and analysis. Wide-ranging across different historical periods, different sports and different local and global contexts, the book incorporates personal, ideological and political narratives, varied conceptual, methodological and theoretical approaches and examples of complexities and nuanced ways of understanding the gendered and sexualized dynamics of sport. It examines structural and cultural forms of gender segregation, homophobia, heteronormativity and transphobia as well as the ideological struggles and changes that have led to nuanced ways of thinking about the sport, gender and sexuality nexus. This is a landmark work of reference that will be a key resource for students and researchers working in sport studies, gender studies, sexuality studies or sociology.

Emotional, Physical and Sexual Abuse Giovanni Corona, Emmanuele A. Jannini, Mario Maggi, 2014-08-12 This book describes different kinds of psychological, physical and sexual maltreatment and explains their possible consequences, especially as regards quality of life, psychopathology and sexual life. The focus is specifically on the victims of abuse who are among the more frail and vulnerable members of society. The book examines the impacts of maltreatment of both children and social minorities such as homosexuals and gender dysphoric individuals or those affected by disabilities and describes skills that are of value in supporting victims of maltreatment and preventing discrimination. The work will be useful to sexual medicine specialists, medical doctors, psychologists and psychiatrists as well as graduate students in these disciplines. By fostering a better understanding of discrimination triggers and effects, it will help clinicians to provide improved support through the tailoring of therapies to the needs of maltreated individuals.
