Margaret Drabble Joanne V. Creighton, 2019-10-01 Margaret Drabble is a writer who plays a lively role in both popular and literary culture Widely read and studied throughout the world her novels attract both the general reader and the literary critic Originally published in 1985 Joanne Creighton examines this phenomenon and places particular emphasis on her Englishness her role as a woman writing credibly about modern women and her ability to mediate between the traditional and the modern She argues that the resonances of Drabble's work grow out of her strong sense of the powers and resources of existing literary traditions coupled with her intelligent portrayal of the familiar problems of people in modern society and that is precisely this mediating position which makes Drabble an important voice in contemporary fiction and links her with other writers of her generation Challenging those critics who see Drabble as a fiction traditionalist Creighton finds her work open ended inquiring equivocal and unquestionably contemporary in spirit

electoral districts of competing educational jurisdictions In particular the city s large number of holy sites and restricted religious compounds create enclaves that continually threaten to undermine the Israeli state s authority and control over the city This lack of congruity between political control and the actual spatial organization and everyday use of the city leaves many areas of occupied East Jerusalem in a kind of twilight zone where citizenship property rights and the enforcement of the rule of law are ambiguously applied Michael Dumper plots a history of Jerusalem that examines this intersecting and multileveled matrix and in so doing is able to portray the constraints on Israeli control over the city and the resilience of Palestinian enclaves after forty five years of Israeli occupation Adding to this complex mix is the role of numerous external influences religious political financial and cultural so that the city is also a crucible for broader contestation While the Palestinians may not return to their previous preeminence in the city neither will Israel be able to assert a total and irreversible dominance His conclusion is that the city will not only have to be shared but that the sharing will be based upon these many borders and the interplay between history geography and religion
