church and assesses their implications for wider society. It examines both the theoretical structures of society, the nature of secularity, government, globalisation, pluralism, and so forth, and the myriad specific issues involved in daily life, everything from sport to work place relations to economics. Public theology is also very importantly a discipline that is practiced by the ordinary Christian as well as the academic and it is done in public with all the scrutiny that entails and in such a way that it communicates to non-Christians although it remains a theological endeavour. In a real sense it is theology for the world from the Word by the people of God. The volume has a variety of contributors and includes an article on the role of public theology in Islam.

The Making of Syriac Jerusalem Catalin-Stefan Popa, 2023-05-31. This book discusses hagiographic, historiographical, hymnological, and theological sources that contributed to the formation of the sacred picture of the physical as well as metaphysical Jerusalem in the literature of two Eastern Christian denominations, East and West Syrians. Popa analyses the question of Syrian beliefs about the Holy City, their interaction with holy places, and how they travelled in the Holy Land. He also explores how they imagined and reflected the theology of this itinerary through literature in Late Antiquity and the Middle Ages, set alongside a well-defined local tradition that was at times at odds with Jerusalem. Even though the image of Jerusalem as a land of sacred spaces is unanimously accepted in the history of Christianity, there were also various competing positions and attitudes. This often promoted the attempt at mitigating and replacing Jerusalem's sacred centrality to the Christian experience with local sacred heritage, which is also explored in this study. Popa argues that despite this rhetoric of artificial boundaries, the general picture epitomises a fluid and animated intersection of Syriac Christians with the Holy City, especially in the medieval era and the subsequent period through a standardised process of pilgrimage well integrated in the custom of advanced Christian life and monastic canon. *The Making of Syriac Jerusalem* is suitable for students and scholars working on the history, literature, and theology of Syriac Christianity in the late antique and medieval periods.

Religious Communities and Civil Society in Europe Rupert Graf Strachwitz, 2020-06-08. The seemingly vitalizing impact of religiosity on civil society is a research topic that has been extensively looked into, not only in the USA but increasingly also in a European context. What is missing is an evaluation of the role of institutionalized religious communities and of circumstances that facilitate or impede their status as civil society organisations. This anthology in 2 volumes aims at closing this gap by providing case studies regarding political, legal, and historical aspects in various European countries. Vol 2 provides some theoretical aspects, a report on the final conference, and case studies from Germany, France, United Kingdom, Italy, Poland, and the Ukraine, as well as a special chapter on Brazil and a Note on Religious Political Ideology.
