Gospel Writing A Canonical Perspective

Gospel Writing A Canonical Perspective:

Gospel Writing Francis Watson, 2013-05-26 That there are four canonical versions of the one gospel story is often seen as a problem for Christian faith where gospels multiply so too do apparent contradictions that may seem to undermine their truth claims In *Gospel Writing* Francis Watson argues that differences and tensions between canonical gospels represent opportunities for theological reflection not problems for apologetics Watson presents the formation of the fourfold gospel as the defining moment in the reception of early gospel literature and also of Jesus himself as the subject matter of that literature As the canonical division sets four gospel texts alongside one another the canon also creates a new complex textual entity more than the sum of its parts A canonical gospel can no longer be regarded as a definitive self sufficient account of its subject matter It must play its part within an intricate fourfold polyphony and its meaning and significance are thereby transformed In elaborating these claims Watson proposes nothing less than a new paradigm for gospel studies one that engages fully with the available noncanonical material so as to illuminate the historical and theological significance of the canonical

An Apostolic Gospel Francis Watson, 2020-12-17 The so called *Epistula Apostolorum* is an early gospel like text in which the eleven apostles recount a question and answer session with the risen Jesus on Easter morning intended to equip them for the worldwide mission to which they are now called The *Epistula* draws selectively from the Gospels of John and Matthew while disagreeing with its sources at a number of points and claiming definitive status for its own rendering of the apostolic gospel This book is based on a new translation of this important but neglected text drawing on the Coptic Ethiopic and Latin manuscript evidence and with variants noted in an English language critical apparatus Extensive additional notes are provided to clarify issues of text translation and exegesis The central chapters explore major theological themes such as incarnation resurrection and eschatology in the light of related texts within and beyond the New Testament

Writing the Gospels Catherine Sider Hamilton, Joel Willitts, 2019-02-21 In this book prominent biblical scholars engage with Francis Watson's most striking arguments on the creation of the gospels Their contributions focus in particular on his argument for a fourfold gospel rather than four separate gospels his argument against Q but for an early sayings collection and on the larger landscape of Jesus studies gospel reception and interpretation The contributors ask whether and in what ways Watson's reorientation of gospel studies is successful and explore its implications for research Leading scholars including Jens Schröter Margaret Mitchell Richard Bauckham and many others provide a close critical and creative engagement with Watson's work More than merely a critical review of Watson's writing this book carries forward his work with fresh treatments and provides an essential volume for students and scholars seeking to understand the landscape of gospel studies and to explore new directions within it

What Is a Gospel? Francis Watson, 2022-04-28 When Christians speak of the gospels they're usually referring to Matthew Mark Luke and John Other ancient writings about the life of Jesus are generally considered noncanonical or heretical But what if these other gospel writings including the Gospel of Thomas the Gospel of Judas and the

Protevangelium of James aren't fundamentally different from the four canonical gospels. In this follow up to *Gospel Writing A Canonical Perspective* noted biblical scholar Francis Watson makes the case that viewing early gospel literature as a unified genre sharing significant similarities in sources, content and goals allows us to discern important interrelated aspects that are lost amid the usual categories. Watson's critical approach enables modern readers of the Bible to break free of fraught scholarly assumptions in order to better understand early Christian identity formation and beliefs.

Writing the Gospels

Catherine Sider Hamilton, Joel Willitts, 2019-02-21 In this book prominent biblical scholars engage with Francis Watson's most striking arguments on the creation of the gospels. Their contributions focus in particular on his argument for a fourfold gospel rather than four separate gospels, his argument against Q but for an early sayings collection and on the larger landscape of Jesus studies, gospel reception and interpretation. The contributors ask whether and in what ways Watson's reorientation of gospel studies is successful and explore its implications for research. Leading scholars including Jens Schröter, Margaret Mitchell, Richard Bauckham and many others provide a close critical and creative engagement with Watson's work. More than merely a critical review of Watson's writing, this book carries forward his work with fresh treatments and provides an essential volume for students and scholars seeking to understand the landscape of gospel studies and to explore new directions within it.

The Cambridge Companion to the Gospels Stephen C. Barton, Todd Brewer, 2021-08-19 Authoritative chapters chart new developments of gospels interpretation in four main areas: background, content, interpretation and impact.

From Canonical Criticism to Ecumenical Exegesis? Peter-Ben Smit, 2015-07-14 This study explores and compares the role of the canon in the work of Brevard S. Childs, James A. Sanders, Peter Stuhlmacher, Joseph Ratzinger, Benedict XVI and the Amsterdam School of exegesis, thus offering a broad overview of approaches and perspectives within the spectrum covered by canonical criticism. In doing so, both the theory of canonical criticism offered by each of the five is analysed and a sample of an actual exegesis is discussed. Observing that the interplay between text, reader and community of interpretation is key to all of these approaches, the study proceeds to create a dialogue between canonical criticism and ecumenical hermeneutics, which leads to a proposal for an approach to exegesis that integrates elements of canonical hermeneutics, ecumenical hermeneutics and intercultural perspectives.

The Fourfold Gospel Francis Watson, 2016-04-12 This groundbreaking approach to the study of the fourfold gospel offers a challenging alternative to prevailing assumptions about the creation of the gospels and their portraits of Jesus. How and why does it matter that we have these four gospels? Why were they placed alongside one another as four parallel yet diverse retellings of the same story? Francis Watson, widely regarded as one of the foremost New Testament scholars of our time, explains that the four gospels were chosen to give a portrait of Jesus. He explores the significance of the fourfold gospel's plural form for those who constructed it and for later Christian communities, showing that in its plurality it bears definitive witness to what God has done in Jesus Christ. Watson focuses on reading the gospels as a group rather than in isolation and explains that the fourfold gospel is greater than and other than the sum of its

Wimmer, 2020-11-23 The so called Canon Tables of the Christian Gospels are an absolutely remarkable feature of the early late antique and medieval Christian manuscript cultures of East and West the invention of which is commonly attributed to Eusebius and dated to first decades of the fourth century AD Intended to host a technical device for structuring organizing and navigating the Four Gospels united in a single codex and in doing so building upon and bringing to completion previous endeavours the Canon Tables were apparently from the beginning a highly complex combination of text numbers and images that became an integral and fixed part of all the manuscripts containing the Four Gospels as Sacred Scripture of the Christians and can be seen as exemplary for the formation development and spreading of a specific Christian manuscript culture across East and West AD 300 and 800 In the footsteps of Carl Nordenfalk's masterly publication of 1938 and few following contributions this book offers an updated overview on the topic of Canon Tables in a comparative perspective and with a precise look at their context of origin their visual appearance their meaning function and their usage in different times domains and cultures [Why the Church?](#) Dr. Robert W. Wall, 2015-03-17 Given the way many in the West have read the New Testament in the last century the church might be regarded as an afterthought at best But at the worst it can be viewed as an unnecessary perhaps even problematic institutionalization of genuine faith especially in our post denominational context These perspectives fly in the face of the robust ecclesiological concerns and commitments of the New Testament

documents when read as witnesses from to and for congregations of God's people For Wall the problem is spiritual because fewer go to find God in church Why the church Because this peculiar fellowship of saints whose loving communion is with the risen One has been appointed by the triune God as God's herald With its sacred vocation every demonstration of the church's oneness holiness catholicity and apostolicity each eschatological mark enabled and brought to maturity by God's grace is the concrete means to address our theological crisis This book will contribute to New Testament studies but also serve related discussions in theology and church history Reframing New Testament Theology is a series that fulfills the need for brief substantive yet highly accessible introductions to central questions and themes raised by New Testament study **Canon**

Lieu, Martinus C. de Boer, 2018-07-19 The contribution of the Johannine literature to the development of Christian theology and particularly to Christology is uncontested although careful distinction between the implications of its language especially that of sonship in a first century Jewish context and in the subsequent theological controversies of the early Church has been particularly important if not always easily sustained Recent study has shaken off the weight of subsequent Christian appropriation of Johannine language which has sometimes made readers immune to the ambiguities and challenging tensions in its thought The Oxford Handbook of Johannine Studies begins with chapters concentrating on discussions of the background and context of the Johannine literature leading to the different ways of reading the text and thence to the primary theological themes within them before concluding with some discussion of the reception of the Johannine literature in the early church Inevitably given their different genres and levels of complexity some chapters pay most if not all attention to the Gospel whereas others are more able to give a more substantial place to the letters All the contributors have themselves made significant contributions to their topic They have sought to give a balanced introduction to the relevant scholarship and debate but they have also been able to present the issues from their own perspective The Handbook will help those less familiar with the Johannine literature to get a sense of the major areas of debate and why the field continues to be one of vibrant and exciting study and that those who are already part of the conversation will find new insights to enliven their own on going engagement with these writings **Introducing Biblical Hermeneutics** Craig G. The Liturgy of Creation Michael LeFebvre, 2019-08-06 How were holidays chosen and taught in biblical Israel and what did they have to do with the creation narrative Michael LeFebvre considers the calendars of the Pentateuch arguing that dates were added to Old Testament narratives not as journalistic details but to teach sacred rhythms of labor and worship LeFebvre then applies this insight to the creation week finding that the days of creation also serve a liturgical purpose

Remembrance of Things Past? Michael J. Thate, 2013 In this book Michael J Thate offers an experiment in reception criticism in its consideration of the formation and reception of the historical Jesus discourse He also attempts to historicize Leben Jesu Forschung within debates and narratives of secularization These two foci guide the book through its two parts First Thate explicates Schweitzer's dominant archival function in Leben Jesu Forschung while aiming to make fragile the grand architect's receptive hegemony Then he combines critical memory theory and other theoretical readings of the material in an attempt to refocus the study of the historical Jesus as early Christian memory politics in the service of identity explication He attempts to problematize Schweitzer's legacy of a tidy systematic approach in which much of historical Jesus scholarship continues to operate
