The Tyranny of Writing Constanze Weth, Kasper Juffermans, 2018-01-25 This book examines the powerful role of writing in society The invention of writing independently at various places and times in history always stood at the cradle of powerful civilizations It is impossible to imagine modern life without writing As individuals and social groups we hold high expectations of its potential for societal and personal development Globally huge resources have been and are being invested in promoting literacy worldwide So what could possibly be tyrannical about writing The title is inspired by Ferdinand de Saussure's argument against writing as an object of linguistic research and what he called la tyrannie de la lettre His critique denounced writing as an imperfect distorted image of speech that obscures our view of language and its structure The chapters of the book written by experts in language and literacy studies go beyond this and explore tyrannical aspects of writing in society through history and around the world from Medieval Novgorod the European Renaissance and 19th century France and Germany over colonial Sudan to postcolonial Sri Lanka and Senegal and present day Hong Kong and Central China to the Netherlands and Spain The metaphor of tyranny of writing serves as a heuristic for exploring ideologies of language and literacy in culture and society and tensions and contradictions between the written and the spoken word

Militant Buddhism Peter Lehr, 2018-12-30 Against the backdrop of the ongoing Rohingya crisis this book takes a close and detailed look at the rise of militant Buddhism in Sri Lanka Burma and Thailand and especially at the issues of why and how around it We are well aware of Christian fundamentalism militant Judaism and Islamist Salafism Jihadism Extremist and violent Buddhism however features only rarely in book length studies on religion and political violence Somehow the very idea of Buddhist monks as the archetypical world renouncers exhorting frenzied mobs to commit acts of violence against perceived enemies of the religion seems to be outright ludicrous Recent events in Myanmar Burma but also in Thailand and Sri Lanka however indicate that a militant strand of Theravada Buddhism is on the rise How can this rise be explained and what role do

The Virtual Rob

Shields, 2005-06-27. This book looks at the origins and the many contemporary meanings of the virtual. Rob Shields shows how the construction of virtual worlds has a long history. He examines the many forms of faith and hysteria that have surrounded computer technologies in recent years. Moving beyond the technologies themselves, he shows how the virtual plays a role in our daily lives at every level. The virtual is also an essential concept needed to manage innovation and risk. It is real but not actual, ideal but not abstract. The virtual, he argues, has become one of the key organizing principles of contemporary society in the public realms of politics, business, and consumption as well as in our private lives.

The Kazakh Spring

Diana T. Kudaibergen, 2024-05-23. How can a de-institutionalised protest movement disrupt a solidified repressive and extremely resilient authoritarian regime? Using the context of the Kazakh Spring protests, 2019 ongoing, Diana T. Kudaibergen focuses on how the interplay between a repressive regime and democratisation struggles define and shape each other. Combining original interview data, digital ethnography, and contentious politics studies, she argues that the new generation of activists, including Instagram political influencers and renowned public intellectuals, have been able to delegitimise and counter one of the most resilient authoritarian regimes and inspire mass protests that none of the formalised opposition ever imagined possible in Kazakhstan. The Kazakh Spring is the first book to detail the emergence of this political field of opportunities that allowed the possibility to rethink the political limits in Kazakhstan, essentially toppling the long-term dictator in unprecedented mass protests of the Bloody January 2022.

Startup Secrets from the Ramayana

Prachi Garg, 2020-01-10. Ram was the next-door guy for any advice on business administration. A gold medalist from a premium management institute in the country, if there was any business-related problem in Ayodhya, Ram had an answer for it. Ayodhya was his proclaimed kingdom in business, in the grip of his palms, thanks to his loyal customers, family, and associates. It was a dream turning to reality. Until ambitions started overstretching, boundaries started melting, and favours became overpromising. Ram

could not have imagined up until the big wave hit him that he would be so instantly betrayed and uprooted by those who he thought to be the closest Startup Secrets from the Ramayana is the story of Ram's struggle of setting up his business empire from scratch in a span of fourteen years. It took grit moving out of his comfort zone and re-establishing himself with a new identity removed from the hangover of the past. The stories are inspired from the Ramayana to capture the celebrated wisdom of the god.

The Company We Keep Divya Khanna, 2023-01-16 There are many challenges facing business corporations today: the pandemic we have barely moved on from, economic recession, rapid changes in consumer behaviour and technological and competitive disruptions. These challenges stick out like the visible tip of an iceberg while culture, the biggest challenge, is like the slow moving gigantic mass that lurks deep under the surface. We cannot deal sufficiently with superficial problems if we do not understand the depths that drive them. Culture eats strategy for breakfast is a widely accepted saying in the business world, often attributed to Peter Drucker. This is as true for corporate India as it is for its consumers. Yet we spend more time and money studying our consumers and their cultures than we do ourselves. The Company We Keep is a market research based exploration of Indian corporate culture. It looks beyond the glamour and jargon of the business world to individual stories that share real personal insights into the aspirations, vulnerabilities, pressures and possibilities of corporate careers and lives. These are urgent conversations we need to keep having as we reflect, review and decide where we can go from here.
