**Governing Home Care** Viola Desideria Burau, Hildegard Theobald, Robert H. Blank, 2007-01-01 Offering a comparative and thematic cross country analysis of the governance of home care this book systematically maps out governing arrangements in relation to formal care services informal care care workers and users of care across nine countries *The Oxford Handbook of Family Policy Over the Life Course* Mary Daly, Birgit Pfau-Effinger, Neil Gilbert, Douglas J. Besharov, 2023 Drawing on a multidisciplinary group of experts from many countries this Handbook is intended to be a reference work that provides students and scholars in policy related disciplines a wide ranging perspective on the diverse ways that family policies respond to modern issues and trends over the life course The Handbook is divided into two main parts The first part offers a panoramic introduction to the setting and issues which contemporary family policies have been designed to address The second part and main body of the volume is organized around four benchmark periods that encompass the main stages of the family life cycle and social policies that are called into play during these stages *The Oxford Handbook of the Welfare State* Francis G. Castles, Stephan Leibfried, Jane Lewis, Herbert Obinger, Christopher Pierson, 2012-09-06 The Oxford Handbook of the Welfare State is the authoritative and definitive guide to the contemporary welfare state In a volume consisting of nearly fifty newly written chapters a broad range of the world s leading scholars offer a comprehensive account of everything one needs to know about the modern welfare state The book is divided into eight sections It opens with three chapters that evaluate the philosophical case for and against the welfare state Surveys of the welfare state s history and of the approaches taken to its study are followed by four extended sections running to some thirty five chapters in all which offer a comprehensive and in depth survey of our current state of knowledge across the whole range of issues that the welfare state embraces The first of these sections looks at inputs and actors including the roles of parties unions and employers the impact of gender and religion patterns of migration and a changing public opinion the role of international organisations and the impact of globalisation The next two sections cover policy inputs in areas such as pensions health care disability care of the elderly unemployment and labour market activation and their outcomes in terms of inequality and poverty macroeconomic performance and retrenchment The seventh section consists of seven chapters which survey welfare state experience around the globe and not just within the OECD Two final chapters consider questions about the global future of the welfare state The individual chapters of the Handbook are written in an informed but accessible way by leading researchers in their respective fields giving the reader an excellent and truly up to date knowledge of the area under discussion Taken together they constitute a comprehensive compendium of all that is best in contemporary welfare state research and a unique guide to what is happening now in this most crucial and contested area of social and political development **Beyond Welfare State Models** Pauli Kettunen, Klaus Petersen, 2011 Welfare state models have for decades been the gold standard of welfare state research Beyond Welfare State Models escapes the straightjacket of conventional

welfare state models and challenges the existing literature in two ways Firstly the contributors argue that the standard typologies have omitted important aspects of welfare state development Secondly the work develops and underlines the importance of a more fluid transnational conceptualisation As this book shows welfare states are not created in national isolation but are heavily influenced by transnational economic political and cultural interdependencies The authors illustrate these important points of criticism with their studies on the transnational history of social policy religion and the welfare state Nordic cooperation within the fields of social policy and marriage law and the transnational contexts of national family policies This fascinating work contributes to the understanding of the current changes of welfare states by discussing the relationship between globalized capitalism and social political regulations and by arguing that transnational transformations importantly take place within and between nation states

Local Welfare Policy Making in European Cities Dagmar Kutsar, Marjo Kuronen, 2015-04-24 This book focuses on how EU welfare policies are implemented at the local level in 11 European cities and how local policy making addresses women s care responsibilities The book studies the complex combination of and the relationships between local political

processes policies institutions structural conditions and outputs as well as outcomes for the women's labour market integration. It demonstrates how cultural settings and multi-level governance patterns form the playground for local policy makers to formulate their welfare policies concerning service provision. The book further demonstrates how local production systems and the situation of the local labour market influence the prospects that women have in working and caring. EU welfare policy promotes the labour market integration of women as well as gender equality. The provision of adequate care services is vital in supporting women's employment. Within comparative welfare research the focus has been on the national welfare systems and policies even if care services are overwhelmingly provided by local authorities that in many EU member states enjoy considerable autonomy. This book fills the gap in understanding local welfare policy making from a comparative perspective.

*Legalized Families in the Era of Bordered Globalization* Daphna Hacker, 2017-08-18. Providing a panoramic and interdisciplinary perspective, this book explores the interrelations between globalization, borders, families and the law. It considers the role of international, multi-national and religious laws in shaping the lives of the millions of families that are affected by the opportunities and challenges created by globalization and the ongoing resilience of national borders and cultural boundaries. Examining familial life span stages: establishing spousal relations, raising children and being cared for in old age. Hacker demonstrates the fruitfulness in studying families beyond the borders of national family law and highlights the relevance of immigration and citizenship law, public and private international law and other branches of law. This book provides a rich empirical description of families in our era. It is relevant not only to legal scholars and practitioners but also to scholars and students within the sociology of the family, globalization studies, border studies, immigration studies and gender studies.

**Party Politics and Social Welfare** Martin Seeleib-Kaiser, Silke van Dyk, Martin Roggenkamp, 2008. Christian and Social Democratic parties have been the driving force behind welfare state developments post WWII. This valuable book investigates whether continued party differences have contributed significantly to the design of social welfare in three conservative welfare states: Austria, Germany and the Netherlands since the mid 1970s. Rather than assuming continued differences or convergence between parties, the primary focus is to empirically analyze party positions with regard to employment and

labour market policies social security and family policies as well as the implemented policies themselves The analysis demonstrates how changed interpretative patterns have led to a programmatic convergence amongst Christian Democrats and Social Democrats largely resulting in a liberal communitarian approach to the development of social welfare policies Providing a comprehensive approach to welfare state analysis and scrutinizing the policy domains of employment social security and family policies this book will be of great interest to political scientists and sociologists interested in welfare state developments It will also appeal to lecturers and postgraduate students in comparative social policy
