*Europe Active's Essentials for Fitness Instructors* EuropeActive, 2015-01-30. EuropeActive's Essentials for Fitness Instructors contains the most comprehensive information and materials to guide fitness instructors towards best practices in helping clients achieve their fitness and health goals. Endorsed by EuropeActive, the fitness and health industry's standard setting authority in Europe, this manual is essential for all aspiring and qualified fitness instructors. This resource includes fundamentals and best practices of concepts, procedures, duties, and responsibilities that individual and group fitness instructors perform on the job, covering the knowledge, skills, and abilities needed for level 3 classification in the European Qualifications Framework (EQF), the baseline standards for registered fitness instructors in Europe. It provides mechanical and physiological information with hands-on techniques and practical examples to ensure that all fitness instructors deliver enjoyable and effective exercise sessions. Authored by renowned experts from all over Europe, EuropeActive's Essentials for Fitness Instructors supports fitness instructors in promoting healthy lifestyle management and exercise adherence. Current and future fitness instructors will learn ideal ways to do the following:

- Build rapport and motivate participants.
- Identify participants' motives and goals.
- Prepare appropriate choreography and use music.
- Provide effective and safe instruction.
- Display and provide feedback on technique and give advice on intensity progressions and adaptations.
- Deliver excellent customer service and be a positive role model for participants in a clean and safe environment.

The book begins by addressing customer service and communication. By first detailing the principles of customer service, the importance of communication in teaching, and how to provide and receive feedback, fitness instructors can receive the information that follows with the proper mind set. The book then delves into the core of physiology of individual fitness training, giving instructors a solid base from which to work with clients. Chapters on cardiorespiratory exercise and resistance exercise explain the science and training methods specific to each type of workout, including optimal warm-ups and cool-downs, adaptations, and matters of safety. A chapter on principles of training, including progression, dose-response relationship, specificity, overload, and reversibility, ties all of these concepts together. The second half of the book deals with effective group instruction, specifying how to incorporate the science of training with the art of class leadership. Preparing for delivering and even ending a class come with particular strategies that will boost retention and results, and three chapters on music and choreography take the guesswork out of structuring a routine. Finally, a chapter on stress management offers an overview of the effects of stress on health, symptoms to watch for, and relaxation techniques. The book concludes with an appendix of the

EuropeActive EQF level 3 standards for reference Aspiring and qualified fitness instructors have a duty of care to keep up with the latest health and fitness standards EuropeActive's Essentials for Fitness Instructors ensures instructors are properly serving their industry and their clients For those who promote physical activity and healthier lifestyles there is no other title with more authority in Europe Methods of Group Exercise Instruction Carol K. Armbruster, Mary M. Yoke, 2014-01-30

Formats modalities and trends in group exercise are constantly evolving Methods of Group Exercise Instruction Third Edition With Online Video explores the most common group exercise modalities enhancing readers marketability by giving them the skills to lead dynamic safe and effective classes This text highlights the commonalities of a variety of group exercise formats through training principles correction and progression techniques and safety tips to enhance the skills of both group exercise leaders and program directors Methods of Group Exercise Instruction Third Edition moves from theory to practice in a logical progression Rather than simply providing routines this book helps instructors develop the core skills needed for creating routines use proper cueing and adapt their teaching to new modalities Teaching techniques convey appropriate training for each muscle group and methods for warm up cardiorespiratory training muscular conditioning neuromotor training and flexibility In addition starter routines modification strategies and instructor assessment criteria are presented for seven class formats kickboxing step training stationary indoor cycling sport conditioning and boot camp water exercise yoga and mat based Pilates The text also touches on alternative modalities including dance based classes fusion and mind body training Thoroughly revised and reorganized based on industry standards the third edition of Methods of Group Exercise Instruction offers expanded content to help readers become better instructors Updates to the third edition include the following Online video totaling over 100 minutes demonstrates key content in the text New chapters cover social aspects of group exercise coaching based instructional models and neuromotor and functional training Callout boxes highlight important topics research findings technique and safety checks and practice drills which facilitate quick learning Short assignments at the close of each chapter encourage readers to look beyond the text to gain practical experience Evaluation forms and evaluation key points allow instructors to gauge their teaching success and adapt the key criteria of a successful class to each exercise modality The three part structure of this book is retained from the previous edition but the content is reorganized to better reflect industry standards and guidelines Part I provides a general overview of group exercise the evolution and advantages of group exercise the strategies for creating group cohesion in a class the core concepts in class design and the use of music choreography and cueing methods in designing and leading a class Part II offers guidelines for leading the four major segments of a group exercise class warm up cardiorespiratory training muscular conditioning and exibility training and includes a new chapter on neuromotor and functional training These basic concepts pertain to all modalities covered in part III which focuses on practical teaching skills Basic moves choreography and training systems are covered for each type of class Sample routines and class formats for each modality offer a confident starting point for novice

instructors and fresh material for veterans The final chapter discusses customized or hybrid classes such as lifestyle physical activity based classes equipment based cardio classes and mind and body classes When used as a course text *Methods of Group Exercise Instruction Third Edition* includes instructor ancillaries which offer suggestions for effective use of the book and online video lesson plan outlines a sample week by week syllabus lab activities and test questions The third edition also features a newly added image bank containing all the figures and photos from the text to use in presentations
