Earle, Kendra McMahon, 2019-04-30 Teaching Science and Technology in the Early Years 3-7 celebrates young children's amazing capabilities as scientists, designers and technologists. Research based yet practical and accessible, it demonstrates how scientific designing and making activities are natural to young children and have the potential for contributing to all aspects of their learning. By identifying the scientific and technological concepts, skills and activities being developed, the book enables the reader to make more focused diagnostic observations of young children and plan for how they can help move them forward in their learning. This third edition has been thoroughly updated and features fresh insights into young children's learning from neuroscience and new materialist perspectives, a UK wide perspective on Early Years curricula and how they support the inclusion of science and technology as an entitlement for young children, new case studies of successful evidence based Early Years practice alongside new examples of practical planning for learning and advice on documenting children's learning stories, an updated chapter on assessing and documenting children's learning drawing upon findings from the Teacher Assessment in Primary Science TAPS project at Bath Spa University. Based on the latest research and first hand experience, this practical and accessible book is essential reading for Early Years and Primary students on undergraduate PGCE and Masters level courses. Playful Teaching and Learning Glenda Walsh, Dorothy McMillan, Carol

McGuinness, 2017-03-13 Every early years practitioner should be able to captivate and maintain the interest of young children in their setting through the provision of a playful learning experience. Covering age ranges 3-8 years, this textbook explores the importance of infusing playfulness throughout the entire early years day and includes chapters that establish the core principles underpinning playful teaching and learning. Help students and practitioners understand how playfulness can be applied to all aspects of the early years curriculum including mathematics, literacy, outdoor environments, science, technology and ICT. Explore core issues in early years provision including observing, planning, assessment and how they relate to playful learning. Emphasise the role and qualities of the playful professional. This is a fantastic resource for any student or practitioner looking to enrich the lives of young children through meaningful playful learning experiences. **Learning**

Through Drama in the Primary Years David Farmer, 2012-08 Learning Through Drama contains drama strategies and lesson plans for use with primary school children across the curriculum. The book provides guidance to teachers who have never taught drama before but are considering using it in a subject area such as science or history and offers new approaches to those familiar with common drama techniques such as hot seating and teacher in role. The book includes 36 drama strategies and over 250 cross curricular activities including practical ideas for inspiring speaking, listening and writing. This book is a beautifully laid out, easy to use resource full of imaginative and practical ideas to help learning become much more memorable and inspirational. Hilary Lewis, Drama Consultant. Even the well practiced and creative drama teacher will find something in this book that serves as a refresher, reminder or quite simply a new idea. A must have publication for those serious about the teaching of drama in primary school settings. Teaching Drama magazine Playing and Learning Outdoors
