Homeless Policies Strategies And Lives On The Street:

Homeless Gerald Daly, 2013-04-15 The causes of homelessness are disputed by both Right and Left But few would argue that life on the streets is anything other than dangerous and debilitating Unemployment deinstitutionalisation abuse in the home are among the stories the homeless tell Voluntary organisations point to the failure of emergency shelters and food banks the cut backs in social programmes and the severe shortage of affordable housing On the international scale the changing global system has placed new demands on the economies of Europe and north America which have impacted on resources employment and even political will This book is the first comprehensive international study of homelessness The author argues that the category of the homeless must itself be broadened to encompass those chronically without shelter to those in immediate risk of dispossession if homelessness is to be tackled effectively before and after it happens by public policy voluntary organisations and the individuals themselves *Finding Home: Policy Options for Addressing Homelessness in Canada*, 2009

Coming Up from the Streets Tessa Swithinbank, 2014-10-14 The success story of The Big Issue is both inspirational and paradoxical rather than a charity it is a flourishing commercial enterprise but one that genuinely benefits those involved The magazine is sold by homeless and vulnerable people and in return they achieve financial independence and status and self reliance The story of the paper's development has a practical angle it should offer help and insights to NGOs and governments involved with the homeless or to those businesses wishing to set up enterprises for the common good

Working with Young Homeless People Phil Robinson, 2008-06-15 This accessible guide provides information and advice on how to understand the needs of these young people and how to ensure they are supported effectively It combines the latest research and practice to establish what works best when helping young homeless people and provides insights into their world through diary excerpts and interviews **The Experience of Emerging Adulthood Among Street-Involved Youth**

Doug Magnuson, Mikael Jansson, Cecilia Benoit, 2021 This volume utilizes the emergent adulthood framework to further our understanding of marginalized youth in contemporary societies Using longitudinal data the authors outline the fundamental characteristics of emerging adulthood through the lens of stories of street involved youth Poverty and Austerity amid Prosperity Gregg M. Olsen, 2021-10-25 Drawing from a cross national perspective and a range of comparative vantage points Poverty and Austerity amid Prosperity provides a comprehensive introduction to the study of poverty

Beyond Homelessness Steven Bouma-Prediger, Brain J. Walsh, 2008-06-03 This book is a brilliant use of metaphor that makes clear why the world leaves us feeling so uneasy **Walls and Bridges** Anthony J. Cortese, 2012-02-01 Winner of the 2004 Critics Choice Award presented by the American Educational Studies Association This useful classroom resource for professors wishing to incorporate notions of justice into their courses examines a variety of America's most challenging social issues education poverty homelessness crime and health care interwoven with racial and ethnic themes Anthony J Cortese illustrates how the tension between moral relativism on the one hand and universal ethics on the other makes concrete policy

discussion difficult He illustrates how through a synthesis of justice law and power a social ethics approach to public policy could resolve various intergroup conflicts and social problems Included at the end of each chapter are What You Can Do exercises and activities that encourage students to apply what they have learned to their own lives *Towards Collective Liberation* Chris Crass,2013-05-01 *Towards Collective Liberation* Anti Racist Organizing Feminist Praxis and Movement Building Strategy is for activists engaging with dynamic questions of how to create and support effective movements for visionary systemic change Chris Crass s collection of essays and interviews presents us with powerful lessons for transformative organizing through offering a firsthand look at the challenges and the opportunities of anti racist work in white communities feminist work with men and bringing women of color feminism into the heart of social movements Drawing on two decades of personal activist experience and case studies of anti racist social justice organizations Crass insightfully explores ways of transforming divisions of race class and gender into catalysts for powerful vision strategy and movement building in the United States today Over the last two decades activists in the United States have been experimenting with new politics and organizational approaches that stem from a fusion of radical political traditions and liberation struggles Drawing inspiration from women of color feminism justice struggles in communities of color anarchist and socialist movements the broad upsurges of the 1960s and 70s and social movements in the Global South a new generation of activists has sought to understand the past while building a movement for today s world *Towards Collective Liberation* contributes to this project by examining two primary dynamic trends in these efforts the anarchist movement of the 1990s and 2000s through which tens of thousands of activists were introduced to radical politics direct action organizing democratic decision making and the profound challenges of taking on systems of oppression privilege and power in society at large and in the movement itself and white anti racist organizing efforts from the 2000s to the present as part of a larger strategy to build broad based effective multiracial movements in the United States Crass s collection begins with an overview of the anarchist tradition as it relates to contemporary activism and an in depth look at Food Not Bombs one of the leading anarchist groups in the revitalized radical Left in the 1990s The second and third sections of the book combine stories and lessons from Crass s experiences of working as an anti racist and feminist organizer combining insights from the Civil Rights Movement women of color feminism and anarchism to address questions of leadership organization building and revolutionary strategy In section four Crass discusses how contemporary organizations have responded to the need for white activists to lead anti racist efforts in white communities and how these efforts have contributed to multiracial alliances in building a broad based movement for collective liberation Offering rich case studies of successful organizing and grounded thoughtful key lessons for movement building *Toward Collective Liberation* is a must read for anyone working for a better world **Cities in a Globalizing World** Un-Habitat,2012-06-25 The world has entered the urban millennium Nearly half the world s people are now city dwellers and the rapid increase in urban population is expected to continue mainly in

developing countries This historic transition is being further propelled by the powerful forces of globalization The central challenge for the international community is clear to make both urbanization and globalization work for all people instead of leaving billions behind or on the margins Cities in a Globalizing World Global Report on Human Settlements is a comprehensive review of conditions in the world s cities and the prospects for making them better safer places to live in an age of globalization I hope that it will provide all stakeholders foremost among them the urban poor themselves with reliable and timely information with which to set our policies right and get the machinery of urban life moving in a constructive direction From the Foreword by Kofi Annan Secretary General United Nations Cities in a Globalizing World presents a comprehensive review of the world s cities and analyses the positive and negative impacts on human settlements of the global trends towards social and economic integration and the rapid changes in information and communication technologies In this Global Report the United Nations Centre for Human Settlements Habitat draws on specially commissioned and contributed background papers from more than 80 leading international specialists The report focuses on recent trends in human settlements and their implications for poverty inequity and social polarization It develops advance knowledge for urban planning and management policies in support and promotion of inclusive cities and good urban governance This major and influential report is the most authoritative and up to date assessment of human settlements conditions and trends Written in clear non technical language and supported by informative graphics case studies and extensive statistical data it should be an essential tool and reference for academics researchers planners public authorities and civil society organizations around the world
