Homo Americanus Child Of The Postmodern Age:

Homo Americanus Tomislav Sunic, 2007 In this book Dr Tomislav Sunic describes the origins and dynamics of America's founding myths Quoting and translating from many long forgotten or suppressed sources from the fields of literature history anthropology and philosophy the book represents an interdisciplinary compendium dealing with the topic of Americanism The genealogy of early Calvinist Puritanism mixed with the techno scientific religion of boundless economic progress and legally veiled in the obscure para Biblical and Jewish inspired sense of political self chosenness created a system that has little in common with its original design Postmodern Americanism with its abstract theories of multiculturalism and its global desire for world improvement turned America into a menacing and self destructive continent that puts not only the survival of America's European heritage at risk but threatens the heritage of other peoples worldwide as well Homo Americanus Tomislav Sunic, 2017-02-01 Suprahumanism Daniel S. Forrest, 2014-08-09 We are at a crucial point in time a moment of transition as important as the emergence of Homo sapiens or the beginning of civilisation after the Neolithic Revolution Paradoxically the triumph of the West also called globalisation means the death of Europe and European man Our destiny hangs between two options either to complete the triumph of the egalitarian conception of the world which will bring about the end of history or to promote a historical regeneration Nietzsche prophesied that the Earth will eventually belong to either the last man or to the superman There are no other alternatives The Nature of Identitarianism Göran Dahl, 2023-07-21 The Nature of Identitarianism explores the background to this new far right movement Since its origins in France in 2003 Identitarianism has become one of the most influential far right ideologies Inspiring groups such as Generation Identity in Europe and the Alt Right in America Identitarianism has spawned a far right constellation that includes white nationalist direct action groups think tanks alternative media organizations and social media celebrities But the ideas that underpin Identitarianism are often poorly understood This book examines the movement's antecedents and intellectual lineage in the thinkers of the Conservative Revolution and the European New Right as well as the influence of far right gurus such as Francis Parker Yockey Jean Thiriart Julius Evola and Aleksandr Dugin The author also investigates how conspiracy thinking antisemitism and islamophobia feature prominently in the identitarian worldview This book will be essential reading for scholars and activists alike with an interest in race relations fascism extremism and social movements **Blood and Faith** Damon T. Berry, 2017-09-26 Beginning with Ronald Reagan's 1980 presidential campaign the term religious right entered the popular lexicon coming to signify a politically and socially conservative form of Christianity that informs American conservatism to this day Less well known are other ideologies that have influenced the far right since well before 1980 including Odinism Creativity and racialized atheism The rising popularity of these extreme groups and their philosophical grounding in racial politics and religious bigotry has caused a shift away from and often hostility toward even racist forms of Christianity among American white nationalists In Blood and Faith Berry deftly explores the causes of this shift rooted largely

in response to racialized anxieties that are by no means exclusive to extremists in America Focusing on the challenges these tensions pose for contemporary white nationalists seeking access to mainstream conservative politics Berry also considers the recent rise of the so called alt right and the unifying issues of anti multiculturalism and anti immigration around which moderate and fringe groups have rallied Blood and Faith is a provocative investigation of the complex evolving role of white nationalism and an urgent reminder of the outsized influence of religion in American political life **The Vice** Julius Evola,2025-08-11 From the early interwar years to the height of the so called Cold War Julius Evola penned over thirty incisive articles dissecting the shared materialist foundations of American liberal capitalism and Soviet communism The Vice gathers these writings into a single volume Ranging from political propaganda and cultural trends to race and the influence of mass media Evola offers a sustained critique of modern civilisation through the lens of the Traditionalist worldview His analysis reveals how both systems despite their apparent opposition stem from the same egalitarian and centralising impulses Though the Soviet regime has long since collapsed its ideological legacy persists in an Americanised Europe under the yoke of the EU In this context Evola s writings remain strikingly relevant to today s cultural and political debates

Modern American Extremism and Domestic Terrorism Barry J. Balleck,2018-06-01 Highlighting a breadth of American individuals and groups that engaged in extremist behavior across history this book provides a succinct concise overview of extremist behavior in the past and examines today s increasingly common incidences of hate and extremism Since the election of Barack Obama in 2008 extremist and hate groups have seen a resurgence on the American political landscape Members of these subgroups within the American population have become concerned that the America that they have always known is fading into oblivion with a majority of individuals in these groups holding fiercely anti immigration views and adhering to the belief that the United States should not admit large numbers of any group that is not white Christian or predominantly European Others believe that the principles and precepts of the U S Constitution have gone by the wayside and that drastic measures are required to protect the underlying tenets that were the essential elements of the Constitution and many of their nation s founding principles How did these individuals come to feel this way is it possible to bring these impassioned extremists back into the fold and if so how This book provides comprehensive illuminating and sometimes disturbing insights into the individuals groups and events that have illustrated extremist behavior in post World War II America Ranging from the anti communist rhetoric and activities of the John Birch Society to the radical socialist ideals of the Black Panthers to the goals of a pure America articulated by white nationalists this book documents the various extremist elements that shaped the second half of the 20th century as well as the first two decades of the 21st century Readers will grasp how events in the histories of individuals and groups as well as perceived injustices have lead to the incidences of hate and extremism in American society The encyclopedic entries of the book are specifically written to accessible to readers without specific knowledge of extremism political science or sociology **Against Democracy and**

Equality Tomislav Sunic, 2011 Dr Sunic examines the principal themes which have concerned the thinkers of the New Right since its inception by Alain de Benoist in 1968 and also discusses the significance of some of the older authors who have been particularly influential on the development of the movement including Oswald Spengler Carl Schmitt and Vilfredo Pareto

Tomislav Sunic, 2017-11-29 Along with his other published works Tomislav Sunic is steadily turning his attention to a wide variety of topics affecting Europe's cultural and political heritage including such sacred and less sacred cows as liberalism the artistic legacy of the Third Reich the religion of multiculturalism the pathology of Communism the works of Spengler and Schmitt as well as the history of a failed multicultural entity known as Yugoslavia *Postmortem Report* invites us to reassess the European past from Antiquity to Modernity through the lenses of a cultural pessimist This collection of essays and translations will appeal to anyone who wishes for an honest surgical approach to these topics freed from the liberal academic agenda It is a vital addition to Sunic's prose *Titans Are in Town* Tomislav Sunic, 2017-06-15 *Titans are in Town* consists of a novella and cultural essays by Dr Tomislav Sunic In the novella and his essays Sunic discusses the state of Europeans in their postmodern wasteland Confronted by endless interracial chaos Europe longs for the return of Titans Based on Friedrich Georg Jünger's seminal 1944 work *Die Titanen* the dormant Titans represent the only salvation for slumbering Europeans The Titans' unexpected return from mid earth will start a resumption of Europe's greatness Sunic's protagonist Held in his novella struggles to maintain his dignity amidst a dystopian landscape in which consumerism alien migrants and a never ending struggle against nobility of character are unceasing Confronted by decay all around him he fervently hopes for the return of Europe's Titans as foretold by the ancient Greeks They will augur an age in which Indo-European values are restored and degeneracy forever extinguished These final days will reassert European mythos as superior to Judeo-Christian values Held is an Everyman for the Current Year and his struggles are reflected in the experiences of today's Europeans Dr Sunic also includes essays concerning the current degradation present within contemporary education Intended for curious students he discusses such topics as literature and politics along with tragedy and mythos in ancient Europe and the modern West *Titans are in Town* also offers a guide on what to read in order to better understand Europe's ancient patrimony of myths and lore Excavating through the rubble of high culture Dr Sunic capably depicts pathways towards real learning for young Europeans
