

An aerial photograph of a German town during the Christmas season. The scene is covered in a thick layer of snow. In the upper left, a tall, brightly lit Christmas tree stands out against the dark sky. In the background, a large church with a prominent spire is visible. The town's buildings, with their snow-laden roofs and some glowing windows, are spread across the landscape. The overall atmosphere is festive and serene.

The Social and Religious Designs of J.S. Bach's Brandenburg Concertos Michael Marissen, 1999-07-21 This new investigation of the Brandenburg Concertos explores musical social and religious implications of Bach s treatment of

eighteenth century musical hierarchies By reference to contemporary music theory to alternate notions of the meaning of concerto and to various eighteenth century conventions of form and instrumentation the book argues that the Brandenburg Concertos are better understood not as an arbitrary collection of unrelated examples of pure instrumental music but rather as a carefully compiled and meaningfully organized set It shows how Bach s concertos challenge as opposed to reflect existing musical and social hierarchies Careful consideration of Lutheran theology and Bach s documented understanding of it reveals however that his music should not be understood to call for progressive political action One important message of Lutheranism and in this interpretation of Bach s concertos is that in the next world the heavenly one the hierarchies of the present world will no longer be necessary Bach s music more likely instructs its listeners how to think about and spiritually cope with contemporary hierarchies than how to act upon them In this sense contrary to currently accepted views Bach s concertos share with his extensive output of vocal music for the Lutheran liturgy an essentially religious character **A**
