

# REPORT CARD COMMENTS

## For Gross Motor Skills

- I am impressed with [Student's Name]'s agility in activities like jumping and dodging. A little more effort in balancing and sliding skills can improve your physical abilities further.
- I see [Student's Name] having a tough time with activities like throwing and kicking a ball. However, giving her/him ample opportunities to practice these skills can help her/him get better.
- [Student's Name]'s performance in gross motor skills is satisfactory. To get even better, she/he can perform complex movements like crab walks and ninja kicks at home to build core muscles and improve balance.
- [Student's Name]'s dodging skills could use improvement, especially during games. Practice agility drills like side-stepping and quick direction changes to enhance this ability of yours."
- [Student's Name] has a strong kick compared to her/his peers. This is quite evident when she/he plays soccer. However, her/his kicking accuracy seems a bit inconsistent. Aiming for specific targets during practice sessions can improve her/his ability to kick with greater precision.

*Parents' Education as Autism Therapists* Michael Keenan,Ken P. Kerr,Karola Dillenburger,2000 Clear focused and practical this book is a useful introduction to ABA for parents and professionals working with children with autism Successful child rearing is an essential skill for any parent For most of us this skill is handed down from our own parents and society in general In real terms this means that rather than relying on any formal instruction to help us we bring up our children using skills based largely upon common sense and a willingness to do our best These methods are by and large successful in everyday situations However when it comes to more difficult aspects of developing skills in our children we need something more dependable than good will Applied Behaviour Analysis ABA the systematic implementation of scientifically proven behavioural principles offers just that Aimed at enhancing people s lives in ways that they or their carers feel are important it includes a variety of methods and techniques which can be used to promote decrease or maintain skills for daily living ABA has been used to help children with autism for many years in many countries In Northern Ireland the PEAT group offers parents the education necessary to become their own child s therapists using ABA In this book these parents and the professionals involved in their training share their knowledge experience and successes

**The Everything Book for Child Care & Preschool, Ages 3 - 5**

Gunzenhauser,2010-05-18 Get prepared to teach in a child care or preschool setting with The Everything Book for Child Care and Preschool This 160 page resource offers more than 100 time saving reproducible forms such as checklists planning sheets formal documents parent newsletters student evaluation forms and decorative stationery to lighten the workloads of educators *Resources in Education* ,1998 **Primary School People** Jean Mills,2002-01-04 Beginning to teach in a primary school means establishing a whole new set of relationships with your class of course but also with the other adults who work in the school These include teachers and teaching assistants support staff of various kinds from the visiting educational psychologist to the essential school secretary and parents both as helpers in the school and as the major influences on their children s lives outside school This book is designed to give students and newly qualified teachers a taste of what they can expect and to help them to get the most out of these relationships both for themselves and for their children Throughout it draws upon the experiences of new teachers often in their own words but it also uses the voices of other primary school people to show students the view from the other side Throughout the text is supported by points for discussion questionnaires and check lists to help new teachers to define and analyse their own situation Tests in Print Oscar Krisen Buros,2006 **The Dyscalculia Assessment** Jane Emerson,Patricia Babbie,2014-12-08 The Dyscalculia Assessment is a tool for investigating pupils numeracy abilities It is designed to inform a personalised teaching programme for individuals or small groups of pupils who have difficulties with numbers The assessment was devised at Emerson House a specialist centre in London supporting pupils with difficulties in numeracy and literacy The bestselling first edition of the book written by Jane Emerson and Patricia Babbie was the winner of the ERA Best Special Educational Needs Resource 2011 This fully revised and updated second edition features a brand new design making the step by step assessment even easier to navigate and use wither by SENCOs or those with no specific special needs training The suggested script for each stage of the investigation that runs alongside the photocopiable assessment sheets make this book an extremely user friendly accessible teaching and learning resource This book also includes an introduction to dyscalculia and co occurring conditions guidance on how to conduct the assessment including tips on behaviours to look out for information on the equipment you need and how to use it instructions on how to interpret the results of each stage of the assessment and how to produce a personalised teaching plan games and activities to engage the pupils and reinforce numeracy skills The Dyscalculia Assessment is ideal for use with primary school children but can easily be adapted for older students and is invaluable for SENCOs TAs educational psychologists and mainstream teachers keen to support students with numeracy difficulties in their class *Information Collection* Paula Short,Kenneth Brinson, Jnr,Rick Short,2013-10-18 This book describes the various strategies and procedures for collecting analyzing and organizing information to improve education **Preschool Assessment** Marla R. Brassard,Ann E. Boehm,2011-06-08 Comprehensive and user friendly this ideal professional reference and graduate text provides a developmentally informed framework for assessing 3 to 6 year olds in accordance with current

best practices and IDEA 2004 guidelines The authors are leading clinician researchers who take the reader step by step through selecting appropriate measures integrating data from a variety of sources and using the results to plan and evaluate effective interventions and learning experiences Coverage encompasses screening and assessment of cognitive linguistic emotional and behavioral difficulties including mental retardation and autism Case studies illustrate key facets of assessing diverse children and families appendices offer concise reviews of over 100 instruments
