will support the organization at every level They detail a series of action oriented steps through which the SuperLeader provides an opportunity for followers to express and develop their own leadership skills and in the process become highly motivated dynamic contributors The New SuperLeadership critically reviews traditional leadership styles vividly illustrating the drawbacks of each the Strong Man whose reliance on fear based compliance smothers initiative the Transactor who promotes a narrow what's in it for me mentality and the Visionary Hero whose powerful personality inspires commitment but inadvertently discourages independent thinking By bringing out the leader in every employee SuperLeadership enables leaders to avoid these pitfalls and develop an enthusiastic innovative and energized workforce The New SuperLeadership is a radically new way of looking at leadership offering a leadership paradigm ideally suited to the realities of the modern workplace It reveals that the only way to succeed today is to tap into the innate leadership potential that lies within every employee
