Growth And Cohesion In The European Union The Impact Of Macroeconomic Policy:

Growth and Cohesion in the European Union William Mitchell, J. Muysken, Tom van Veen, 2006-01-01 This book is a critical review of current fiscal and monetary policy in Europe and presents results of both empirical research and a discussion of the theoretical framework behind the policy of the ECB and the Stability and Growth Pact The Political Economy of the European Social Model Philip Whyman, Mark Baimbridge, Andrew Mullen, 2012-05-31 This book seeks to analyse the development of the European Union EU which was founded upon the principle of the free movement of capital goods services and people in 1957 Its central thesis is that from a practical and theoretical point of view such a basis is fundamentally at odds with the creation of an interventionist regime that the construction of a social Europe would require The authors argue convincingly that economically the EU does not currently possess the budget or the economic tools to pursue such a strategy politically close to none of the institutions of the EU have backed such a policy practically conservative and neo liberal forces among member states and the institutions of the EU have repeatedly thwarted any moves in this direction In reality the Single Internal Market Economic and Monetary Union enlargement the Lisbon Agenda and European Constitution projects all prioritise supply side measures and expanding the scope of the market rather than the boosting of demand and other economic intervention Consequently constructing a social Europe in the face of this would appear problematic Hence in both theory and practice the idea that there can be a social Europe vis vis neoliberalisation is a contradiction in terms This controversial book will be an educating and refreshing read for advanced students and academics involved with European politics the European Union European Economics and Economic institutions *Report on the State of the European Union* J. Fitoussi, J. Le Cacheux, 2009-12-18 The Report on the State of the European Union examines the progress of European integration and focuses on economic aspects of the process This third volume in the series explores the EU in light of the current crisis Rethinking Economic and Monetary Union in Europe Philip B. Whyman, 2018-01-17 In the wake of the Greek crisis the future of the EU is the subject of a great deal of debate This book critically evaluates the current new monetarist model of Economic and Monetary Union in Europe presenting an alternative post Keynesian progressive model aimed at addressing the current problems of trade imbalance and asymmetric macroeconomic policy infrastructure that are augmenting tensions within the Eurozone The book's approach is based upon the development of a common rather than a single currency approach and utilises post Keynesian policy solutions in order to create a form of EMU which will promote full employment rather than austerity Italy and Germany as Prototypes of the Peripheral and Core Countries in the European Monetary Union Nicola Acocella, 2011-11-07 This book looks at Italy and Germany as prototypes of the peripheral and core countries in the European Monetary Union EMU and examines their respective faults It also analyses the context of the European Union EU institutions their origin the forces that drove away from a more balanced or federalist one and shortcomings This offers the opportunity to suggest some changes to EU structures particularly in the light of the

COVID 19 pandemic and its aftermath Both Germany Italy and other EU countries have violated European rules However despite this the negative performance of the EMU has to be connected to its deflationary and unbalanced institutions These were driven away from the federalist route that they seemed to be initially following by a Franco German axis and by a decisive German switch towards a tough monetary regime **The European Monetary Union** Nicola Acocella,2020-08-27 The European Union is at a crossroads This book analyzes the historical roots of the EU s monetary and financial institutions in order to better understand its struggle to maintain an economic and monetary union as well as the ongoing problems facing the Euro The institutions of the EU are based on the operation of free markets a common monetary policy and the European Central Bank These founding policies have created many of the imbalances at the root of the ongoing European recession Reemerging threats of populism and localism are poised to further disintegrate the European construction and may spark fierce opposition between countries Acocella engages with these risks suggesting detailed actions for reform within the EU and its institutions that may steer it away from further conflict allowing it to better serve its member states and citizens

The EU Economic and Social Model in the Global Crisis Dagmar Schiek,2016-02-11 This book addresses the viability of the EU economic and social model within and after the global economic crisis It identifies four key issues which warrant further discussion 1 the asymmetry of the legal and policy framework of the euro and potential recalibration 2 substantive tensions between the EU economic constitution and its normative aim of social justice and impacts on national policy 3 the role of civil society including the two sides of industry in overcoming these tensions and 4 the EU s global aspirations towards the creation of a viable socio economic model Its chapters offer two perspectives on each of the four main issues In drawing these debates together the book provides a broad understanding as well as starting points for future research Bringing together different disciplinary approaches ranging from legal studies to political economy sociology and macroeconomics it is a valuable contribution to the debate on the European social model and introduces new insights by focusing on legal and political tensions the impact of the financial crisis and other economic contexts as well as global dimensions The Euro Crisis P. Arestis,M. Sawyer,2012-04-05 A detailed and informed analysis of the current crisis facing the eurozone examining the root causes and exploring the possible outcomes and uncertain future of the European Union and its currency Chapters include case studies of Portugal Ireland Spain and Greece as well as broader comparative perspectives

Crisis in the Eurozone M. Baimbridge,P. Whyman,2014-12-04 This book explores the background of the eurozone crisis outlining a number of potential solutions It attempts to discover if the problems could have been anticipated and examines how well have the fiscal EMU rules been adhered to and how appropriate they are Urbanization and Migration as Factors Affecting Global Economic Development Ushakov, Denis,2014-11-30 International migration and urbanization are potential solutions for stabilizing the global economy and bolstering local and regional economies However if unregulated they can also put market stability at risk and cause new social problems in both developed and developing countries Urbanization and

Migration as Factors Affecting Global Economic Development takes a close look at the impact of urbanization and international migration on the global economy Studying the dynamics of these two phenomena in countries across the world as well as the varying successes of regional regulations this publication is a valuable resource for academics interested in further research in urbanization migration and global economic efficiency as well as policymakers involved in regulating international migration and urbanization

Political Economy Perspectives on the Greek Crisis Ioannis Bournakis, Christopher Tsoukis, Dimitris K. Christopoulos, Theodore Palivos, 2017-11-27 This book offers a comprehensive guide to the on going Greek debt crisis It identifies and explains Greece's idiosyncratic weaknesses and highlights the existing rigidities in the EU architecture that make the recovery prospects of the Greek economy challenging Chapters from expert contributors highlight aspects of the performance of the Greek economy with focus on export performance labour market conditions political cycles and regional income disparities The book then goes on to outline the banking system in Greece in the post crisis era and includes analysis that explains how the credit rating score affected Greece's borrowing capacity prior to the start of the insolvency crisis The final part analyses and compares alternative scenarios of fiscal consolidation seeking to identify whether there are alternatives to fiscal austerity and the impact of each one of them This section also clarifies various misconceptions about the significant determinants of international competitiveness Despite the focus of the book the lessons drawn from the chapters are not limited to Greece This volume will be of interest to academics practitioners and policy makers who wish to take a closer look at the Greek debt crisis and learn more about the challenges the Greek economy is currently facing

Europe's Experimental Union Brigid Laffan, Rory O' Donnell, Michael Smith, 2013-01-11 Europe

s Experimental Union challenges conventional writings on European integration by situating the analysis of the EU in the context of changing patterns of political and economic order The authors conclude that the union is not evolving towards a federal superstate but rather is an arena of deep economic integration governed by a prismatic polity characterised by innovation experimentation pragmatism decentralisation and devolution Although it may seem unsettled this book reveals that in fact the experimental nature of the EU enables it to respond to multiple agendas and Europe's diversity in a flexible manner

Lagging Regions in the European Union Paweł Dobrzański, 2024-09-02 Unequal distribution of income is one of the most important socio economic issues The processes of globalisation and integration are accelerating economic growth however at the same time imbalances between regions are growing Reducing inequalities within regions and national economies as well as around the world is important for individual and societal well being and cohesion and for effective state policies This book investigates the problem of left behind regions in the European Union EU It first introduces the reader to the theories of regional imbalances and problems with measuring them It then explores imbalances in the EU using a variety of indicators and describes the EU's regional policy for reducing regional disparities It uses an empirical shift share analysis to assess the productivity of EU regions which are lagging behind The book also provides an empirical analysis of the effectiveness of EU funds in increasing labour productivity performed with DEA methodology This book can be used as a teaching resource for undergraduate and postgraduate students and can serve as reference material for academics and researchers as well as policymakers at the European national and local levels

An Agenda for a Growing Europe André Sapir, Philippe Aghion, Giuseppe Bertola, Martin Hellwig, Jean Pisani-Ferry, Dariusz Rosati, José Viñals, Helen Wallace, Marco Buti, Mario Nava, Peter M. Smith, 2004-03-04 Over the past decade European economic integration has seen considerable institutional success but the economic performance of the EU has been varied While macroeconomic stability has improved and an emphasis on cohesion preserved the EU economic system has not delivered satisfactory growth performance This book is the report of a high level group commissioned by the President of the European Commission to review the EU economic system and propose a blueprint for an economic system capable of delivering faster growth along with stability and cohesion It assesses the EU's economic performance examines the challenges facing the EU in the coming years and presents a series of recommendations The report views Europe's unsatisfactory growth performance during the last decades as a symptom of its failure to transform into an innovation based economy It has now become clear that the context in which economic policies have been developed has changed fundamentally over the past thirty years A system built around the assimilation of existing technologies mass production generating economies of scale and an industrial structure dominated by large firms with stable markets and long term employment patterns no longer delivers in the world of today characterized by economic globalization and strong external competition What is needed now is more opportunity for new entrants greater mobility of employees within and across firms more retraining greater reliance on market financing and higher investment in

both R D and higher education This requires a massive and urgent change in economic policies in Europe **Regional Research Frontiers - Vol. 2** Randall Jackson,Peter Schaeffer,2017-04-17 This is the second volume in a two part series on frontiers in regional research It identifies methodological advances as well as trends and future developments in regional systems modelling and open science Building on recent methodological and modelling advances as well as on extensive policy analysis experience top international regional scientists identify and evaluate emerging new conceptual and methodological trends and directions in regional research Topics such as dynamic interindustry modelling computable general equilibrium models exploratory spatial data analysis geographic information science spatial econometrics and other advanced methods are the central focus of this book The volume provides insights into the latest developments in object orientation open source and workflow systems all in support of open science It will appeal to a wide readership from regional scientists and economists to geographers quantitatively oriented regional planners and other related disciplines It offers a source of relevant information for academic researchers and policy analysts in government and is also suitable for advanced teaching courses on regional and spatial science economics and political science Policy-making in the European Union Helen Wallace,Mark A. Pollack,Alasdair R. Young,2015 The policies of the European Union profoundly affect the lives of people in Europe and around the world The new edition of this highly successful textbook outlines how and why such decisions are made as well as the key challenges faced by policy makers in the current political and economic climate **ECMLG 2019 15th European Conference on Management, Leadership and Governance** Professor Anabela Mesquita,Professor Paulino Silva,2019-11-14
