Homeschooling The Child With Asperger Syndrome:

Choosing Home Martha Kennedy Hartnett, 2004 Martha Kennedy Hartnett is the mother of a child with Asperger's Syndrome who made the courageous choice to homeschool. Emerging from the author's personal experience, this book is a step-by-step account of successful home education. Choosing Home will take you into the homes of Asperger families as they journey from survival of the playground bully to making it work at home. Hartnett embraces those pertinent questions raised by parents: Will I be limiting my child's emotional and social development? How will I know if my teaching is good enough? What if I can't cope? These questions and many more are answered in this touching and insightful narrative. This is a book of hope and encouragement to all parents with an interest in homeschooling.

Unschooling To University Judy L. Arnall, 2018-09-21 School is one option for education; homeschooling is the second and unschooling is the third. Many parents are frustrated by the school system perhaps because of bullying, crowded classrooms, and outdated dull online courses. Disengaged learners that have no say in their coerced curriculum tend to act out, tune out, or drop out. Education must change and unschooling is the fastest growing alternative method of learning. Two decades ago students registered with their local school based on their house address. Now with the internet, students are borderless. Learning can occur anywhere, anytime, anyway, and from anyone, including self-taught. Self-directing their education, unschoolers learn through Play, Projects, Reading, Volunteering, Video games, Sports, Mentorship, Travel, Life. This book explores the path of 30 unschooled children who self-directed all or part of their education and were accepted by universities, colleges, and other postsecondary schools. Most have already graduated. What children need most are close relationships: parents, teachers, siblings, relatives, coaches, and mentors within a wider community, not just within an institutional school. Educational content is everywhere. Caring relationships are not. Families that embrace unschooling do not have to choose between a quality education and a relaxed, connected family lifestyle. They can have both.

Asperger Syndrome in Adolescence Liane Holliday Willey, 2003-01-01 Reflecting the views of parents, professionals, and those with AS themselves, this book tackles issues that are pertinent to all teenagers, such as sexuality, depression, and friendship, as well as topics like disclosure and therapeutic alternatives that are more specific to those with AS. This book is an essential survival guide to adolescence.

The Encyclopedia of Autism Spectrum Disorders Carol Turkington, Ruth Anan, 2007 Autism is a baffling brain disorder that profoundly affects children's communication and social skills. This work provides a reference guide to this disease. It includes approximately 500 entries that address the different types of autism, causes, and treatments; institutions; associations; leading scientists; and research, social impact, and more.

Homeschooling for the Rest of Us Sonya Haskins, 2010-01-01 Homeschooling parents are under great pressure. Besides trying to balance teaching responsibilities and family life, they often face unrealistic expectations from relatives, churches, other homeschoolers, and society at large. Even parents considering homeschooling sense the need to be perfect. Sonya Haskins doesn't want any more families to give up on homeschooling. In this book, she shares affirming stories and practical ideas from dozens of everyday families who successfully deal with cluttered schedules, academic struggles, sibling squabbles, and other real-life issues. Instead of learning a one-size-fits-all approach, readers will discover how to evaluate their own family's strengths and weaknesses and set their own goals for success.
