Dynamics of Gender Relations Stefanie Ernst, Valerie Dahl, Marta Bucholtz, 2025-05-22 This edited volume brings together for the first time international research approaches from the field of figurational and processual sociology at the intersection of gender studies It assembles current research on the change of gender relations in formal and informal structures By using Norbert Elias's process sociological oeuvre selected gender figurations in the western and non western world are discussed This book is anchored on the one hand in a socio historical understanding of the trajectory of gendered societies over a wide area and range of centuries in the Process of Civilization On the other hand the immediate impulse for this volume is the critical discussion of Eliasian thinking concerning dynamic gender relations in different empirical case studies and process theory It will be crucial reading for sociologists interested in the Elias school as well as sociologists of gender more broadly
