Handbook of Language & Ethnic Identity Joshua A. Fishman, Ofelia García, 2010 **Handbook of Language and Ethnic Identity** Joshua A. Fishman, 1999-04 Since the ethnic revival of the last twenty years there has been a substantial and interdisciplinary change in our understanding of the link between these fundamental aspects of our identity **Handbook of Language & Ethnic Identity** Joshua A. Fishman, 1999 *Handbook of Language and Ethnic Identity* Emeritus at Yeshiva University Joshua A. Fishman Distinguished University Research Professor of Social Sciences, 1999-03-08 This volume presents a comprehensive introduction to the connection between language and ethnicity Since the ethnic revival of the last twenty years there has been a substantial and interdisciplinary change in our understanding of the connection between these fundamental aspects of our identity The distinguished sociolinguist Joshua Fishman has commissioned over 25 previously unpublished papers on every facet of the subject The volume is divided into two sections the first examining disciplinary perspectives on the subject the second uses the prism of geography looking at the subject in the context of Africa Scandinavia Germany and the rest of Western Europe North America and elsewhere The volume is truly interdisciplinary and the contributors are all distinguished figures in their fields Each chapter is followed by thought provoking questions and essential bibliography and Fishman pulls together the various views that have been expressed and shows how they differ and how they are alike The volume is useful as a scholarly reference a resource for the lay reader and can also be used as a text in ethnicity courses **Handbook of Language & Ethnic Identity** Joshua A. Fishman, Ofelia García, Oxford University Press, 2010 This volume presents a comprehensive introduction to the connection between language and ethnicity

Bilingualism and Identity Mercedes Niño-Murcia, Jason Rothman, 2008 Sociolinguists have been pursuing connections between language and identity for several decades But how are language and identity related in bilingualism and multilingualism Mobilizing the most current methodology this collection presents new research on language identity and bilingualism in three regions where Spanish coexists with other languages The cases are Spanish English contact in the United States Spanish indigenous language contact in Latin America and Spanish regional language contact in Spain This is the first comparativist book to examine language and identity construction among bi or multilingual speakers while keeping one of the languages constant The sociolinguistic standing of Spanish varies among the three regions depending whether or not it is a language of prestige Comparisons therefore afford a strong constructivist perspective on how linguistic ideologies affect bi multilingual identity formation Language, Ethnic Identity and the State William Safran, J.A. Laponce, 2014-02-04 This new study powerfully asserts the pivotal importance of the interplay between language and ethnicity which is often underestimated as a component for political stability These leading scholars present five key case studies of South Africa Algeria Canada Latvia and Senegal All five countries are multilingual nations where language has been a central political issue that has challenged their unity and stability These studies are underpinned by two general comparative and theoretical

discussions which analyse how scholars consider social class and economic factors to be the primary sources for political cohesion or of malcontent with the system and the new avenues opened by a focus on issues of language. This book will be of great interest to all students and scholars of linguistics, language politics and sociology. This is a special issue of the leading journal *Nationalism and Ethnic Politics*. *The Language, Ethnicity and Race Reader* Roxy Harris, Ben Rampton, 2003. This Reader collects in one volume the key readings on language, ethnicity and race. Using linguistic and cultural analysis it explores changing ideas of race and the ways in which these ideas shape human communication. Language Revitalisation in Gaelic Scotland Dunmore Stuart S. Dunmore, 2019-07-17. Situated within the interrelated disciplines of sociolinguistics and sociology of language, this book explores the language use and attitudinal perceptions of a sample of 130 adults who received Gaelic medium education (GME) at primary school during the first years of that system's availability in Scotland. As the first students to have attended GME are now in their late 20s and 30s, this volume offers a timely examination of the long-term outcomes of the system in its earliest years and of the future prospects for Gaelic language maintenance and revitalisation in Scotland. The book presents in-depth discussion and analysis of narratives in order to demonstrate former Gaelic medium students' present-day relationships to the languages they speak, offering fascinating insights into the possible reasons, historical, ideological and personal, for these relationships. This book presents the first open assessment of the outcomes of Gaelic medium education in Scotland and offers suggestions for individuals and policymakers seeking to revitalise languages internationally. **Handbook on Endangered South Asian and Southeast Asian Languages** Niladri Sekhar Dash, S. Arulmozi, N. Ramesh, 2025-07-04. The handbook delves into the linguistic features of Southeast Asian and South Asian endangered languages, providing detailed descriptions and analyses. Each chapter covers a range of topics including linguistic properties, extralinguistic aspects and issues related to preserving and promoting endangered languages. The book also includes an ethnolinguistic profile for each language, discussing its official status, state of endangerment, demography and usage. It discusses the methodological issues related to collecting and analyzing linguistic data. Furthermore, the book describes the unique linguistic features of each language, covering phonology, morphology, morphosyntax and other linguistic aspects. By doing so, the book highlights how new linguistic features and findings can reflect on the community. Given the context of UNESCO's declaration of the International Decade of Indigenous Languages 2022-2032, this book offers valuable insights for students, researchers, policymakers, government agencies, educators and linguists. It is an informative volume for scholars working on various endangered languages worldwide. *The Handbook of Bilingualism and Multilingualism* Tej K. Bhatia, William C. Ritchie, 2014-09-15. Honored as a 2013 Choice Outstanding Academic Title. Comprising state-of-the-art research, this substantially expanded and revised Handbook discusses the latest global and interdisciplinary issues across bilingualism and multilingualism.
