moral and character education masks a high degree of controversy surrounding its meaning and methods The purpose of this handbook is to supplant the prevalent ideological rhetoric of the field with a comprehensive research oriented volume that both describes the extensive changes that have occurred over the last fifteen years and points forward to the future Now in its second edition this book includes the latest applications of developmental and cognitive psychology to moral and character education from preschool to college settings and much more Handbook of Moral Behavior and Development William M. Handbook of Moral Motivation Karin Heinrichs, Fritz Oser, Terence Lovat, 2013-06-12 The Handbook of Moral Motivation offers a contemporary and comprehensive appraisal of the age old question about motivation to do the good and to prevent the bad From a research point of view this question remains open even though we present here a rich collection of new ideas and data Two sources helped the editors to frame the chapters first they looked at an overwhelmingly fruitful research tradition on motivation in general attribution theory performance theory self determination theory etc in relationship to morality The second source refers to the tension between moral judgment feelings beliefs and the real moral act in a twofold manner a as a necessary duty and b as a social but not necessary bond In addition the handbook utilizes the latest research from a wide range of disciplinary perspectives wishing to suggest by this that the answer to the posed question will likely not come from one discipline alone Furthermore our hope is that the implicit criticism that the narrowly constructed research approach of the recent past has contributed to closing off rather than opening up interdisciplinary lines of research becomes in this volume a strong counter discourse The editors and authors of the handbook commend the research contained within in the hope that it will contribute to better understanding of humanity as an inherently moral species
