**Economics of the Family** Martin Browning, Pierre-André Chiappori, Yoram Weiss, 2014-06-05 The family is a complex decision unit in which partners with potentially different objectives make consumption work and fertility decisions Couples marry and divorce partly based on their ability to coordinate these activities which in turn depends on how well they are matched This book provides a comprehensive modern and self contained account of the research in the growing area of family economics The first half of the book develops several alternative models of family decision making Particular attention is paid to the collective model and its testable implications The second half discusses household formation and dissolution and who marries whom Matching models with and without frictions are analyzed and the important role of within family transfers is explained The implications for marriage divorce and fertility are discussed The book is intended for graduate students in economics and for researchers in other fields interested in the economic approach to the family [The New Palgrave Dictionary of Economics](#), 2016-05-18 The award winning The New Palgrave Dictionary of Economics 2nd edition is now available as a dynamic online resource Consisting of over 1 900 articles written by leading figures in the field including Nobel prize winners this is the definitive scholarly reference work for a new generation of economists Regularly updated This product is a subscription based product

**Regional Analysis and Policy** Harry Coccossis, Yannis Psycharis, 2008-08-02 Regional development is attracting the attention of policy makers and scientists again as regions urban centers and rural areas experience substantial pressures particularly in Europe as a consequence of globalization and geopolitical changes which lead to changes in spatial structures and dynamics This book is based on the contributions of Greek regional science research presented at the 2006 Congress of the European Regional Science Association at Volos Greece The contributions selected to be presented in this book address these changes offering a fresh look into regional development They provide an overview of regional development concerns from Greek regional scientists but the issues discussed pervade Greek particularities and stimulate thinking about regional science regional development and regional policy in the early twenty first century

**Demography and the Economy** John B. Shoven, 2011 Demographics is a vital field of study for understanding social and economic change and it has attracted attention in recent years as concerns have grown over the aging populations of developed nations Demographic studies help make sense of key aspects of the economy offering insight into trends in fertility mortality immigration and labor force participation as well as age gender and race specific trends in health and disability Demography and the Economy explores the connections between demography and economics paying special attention to what demographic trends can reveal about the sustainability of traditional social security programs and the larger implications for economic growth The volume brings together some of the leading scholars working at the border between the two disciplines and it provides an eclectic overview of both fields Contributors also offer deeper analysis of a variety of issues such as the impact of greater wealth on choices about marriage and childbearing and the effects of aging

populations on housing prices Social Security and Medicare      Bargaining over Time Allocation Miriam Beblo,2012-12-06 In this book time use behavior within households is modeled as the outcome of a bargaining process between family members who bargain over household resource allocation and the intrafamily distribution of welfare In view of trends such as rising female employment along with falling fertility rates and increasing divorce rates a strategic aspect of female employment is analyzed in a dynamic family bargaining framework The division of housework between spouses and the observed leisure differential between women and men are investigated within non cooperative bargaining settings The models developed are tested empirically using data from the German Socio Economic Panel and the German Time Budget Survey      **Foundations**

**Marriage and the Family** Marvin B. Sussman,Suzanne K. Steinmetz,Gary W. Peterson,2013-06-29 To know where we are going as scholars educators and practitioners in the field of marriage and family life we first need to know where we have been A perusal of early texts on marriage and family life provides some thought provoking insights into the accuracy of the saying what goes around comes around It is interesting to note who has been considered to be in a position to provide information on marriage and family life Included in the eclectic collection of texts we reviewed were ministers whose focus

was on spirituality doctors who emphasized medical aspects of child and adult health and public health professionals and home economists concerned with fighting disease who emphasized cleanliness order fighting germs and eliminating rodents and insects There are also philosophers who drew from ancient texts when discussing family life and a count who assembled a group of German intellectual elites to address various topics An insightful essay of this type is by Marta Karlweis 1926 in which she notes There is no other fetish that society holds to so firmly as the conception woman with all its usual associations of infantilism and dependence The child requires protection is a minor and consequently a serf but above all it possesses no spiritual existence Neither doctorates or other distinctions nor the right to vote have as yet been able to dispel this sweet idea of the childishness of woman which man cherishes p

#### **Economics of the Undead** Glen Whitman,James

Dow,2014-07-17 Whether preparing us for economic recovery after the zombie apocalypse analyzing vampire investment strategies or illuminating the market forces that affect vampire human romances Economics of the Undead Zombies Vampires and the Dismal Science gives both seasoned economists and layman readers something to sink their teeth into Undead characters have terrified popular audiences for centuries but when analyzed closely their behaviors and stories however farfetched mirror our own in surprising ways The essays collected in this book are as humorous as they are thoughtful as culturally relevant as they are economically sound and provide an accessible link between a popular culture phenomenon and the key concepts necessary to building one's understanding of economic systems big and small It is the first book to apply and combine economics and our society's fascination with the undead and is an invaluable resource for those looking to learn economic fundamentals in a fun and innovative way Contributions by Kyle William Bishop Eleanor Brown Ian Chadd Darwynn Deyo Steven Horwitz Daniel Farhat Jean Baptiste Fleury Enrique Guerra Pujol Brian Hollar Sebastien Lecou Joseph Mandarino Alain Marciano Fabien Medvecky David T Mitchell Michael O Hara M Christine Phillips A Lynn Phillips G Michael Phillips Lorna Piatti Farnell Robert Prga Hollis Robbins Sarah Skwire Ilya Somin David Tufte Mary Jo Tufte and Charlotte Weil
