Handbook For Health Care Ethics Committees:

Handbook for Health Care Ethics Committees Linda Farber Post, Jeffrey Blustein, 2015-06-30 How can dedicated ethics committee members fulfill their complex roles as moral analysts, policy reviewers, and clinical consultants? The Joint Commission (TJC) accredits and certifies more than 19,000 health care organizations in the United States, including hospitals, nursing homes, and home care agencies. Each organization must have a standing health care ethics committee to maintain its status. These interdisciplinary committees are composed of physicians, nurses, attorneys, ethicists, administrators, and interested citizens. Their main function is to review and provide resolutions for specific individual patient care problems. Many of these committees are well-meaning but may lack the information, experience, skills, and formal background in bioethics needed to adequately negotiate the complex ethical issues that arise in clinical and organizational settings. *Handbook for Health Care Ethics Committees* was the first book of its kind to address the myriad responsibilities faced by ethics committees, including education, case consultation, and policy development. Adopting an accessible tone and using a case study format, the authors explore serious issues involving informed consent and refusal, decision making, and decisional capacity, truth telling, the end of life, palliative care, justice, and access to health care services and organizational ethics. The authors have thoroughly updated the content and expanded their focus in the second edition to include ethics committees in other clinical settings, such as long-term care facilities, small community hospitals, rehabilitation centers, and hospices. They have added three new chapters that address reproduction, disability, and the special needs of the elder population, and they provide additional specialized policies and procedures on the book's website. This guide is an essential resource for all health care ethics committee members.

Guidance for Healthcare Ethics Committees

D. Micah Hester,Toby L. Schonfeld,2022-03-10 Every accredited American hospital is required to have a process for handling ethical concerns within the institution For the most part hospitals satisfy this requirement by constituting an institutional healthcare ethics committee HEC However many of these individuals while well intentioned have neither the training in ethics nor the tools at their disposal to address properly the ethical considerations brought to them Yet healthcare providers and patients turn to these committee members for ethical insight This book focuses on HEC member education by providing definitive and comprehensive learning content for members of HECs This second edition is fully updated throughout and adds new chapters that reflect the evolving nature of health care Chapters are written by internationally recognized experts in bioethics and are directed specifically at members of HECs Each chapter includes learning objectives case presentations and discussion questions to facilitate committee conversation

Handbook for Hospital Ethics Committees Judith Wilson

Ross,1986 *Health Care Ethics Committees* Judith Wilson Ross, M.A.,1993-08-29 Approximately 85% of hospitals now have ethics committees But this statistic says little about the efficiency and importance of these committees in their institutions Frequently ethics committees exist more in name than in practice and are left without the guidance and help of their institution Health Care Ethics Committees provides a plethora of advice including possible projects and activities suggestions for making meetings more effective insights into policy making and models for mission statements and goals In addition this book gives leaders a panoramic view of the past present and future of ethics committees in health care
