Shields, 2015-03-23 A look into the agricultural and culinary history of the American South and the challenges of its reclaiming farming and cooking traditions Southern food is America's quintessential cuisine From creamy grits to simmering pots of beans and greens we think we know how these classic foods should taste Yet the southern food we eat today tastes almost nothing like the dishes our ancestors enjoyed because the varied crops and livestock that originally defined this cuisine have largely disappeared Now a growing movement of chefs and farmers is seeking to change that by recovering the rich flavor and diversity of southern food At the center of that movement is historian David S Shields who has spent over a decade researching early American agricultural and cooking practices In *Southern Provisions* he reveals how the true ingredients of southern cooking have been all but forgotten and how the lessons of its current restoration and recultivation can be applied to other regional foodways Shields's turf is the southern Lowcountry from the peanut patches of Wilmington North Carolina to the sugarcane fields of the Georgia Sea Islands and the citrus groves of Amelia Island Florida He takes us on a historical excursion to this region drawing connections among plants farms growers seed brokers vendors cooks and consumers over time Shields begins by looking at how professional chefs during the nineteenth century set standards of taste that elevated southern cooking to the level of cuisine He then turns to the role of food markets in creating demand for ingredients and enabling conversation between producers and preparers Next his focus shifts to the field showing how the key ingredients rice sugarcane sorghum benne cottonseed peanuts and citrus emerged and went on to play a significant role in commerce and consumption Shields concludes with a look at the challenges of reclaiming both farming and cooking traditions From Carolina Gold rice to white flint corn the ingredients of authentic southern cooking are returning to fields and dinner plates and with Shields as our guide we can satisfy our hunger both for the most flavorful regional dishes and their history Praise for *Southern Provisions* People are always asking me what the most important book written about southern food is You are holding it in your hands Sean Brock executive chef Husk An impassioned history of the relationship between professional cooking markets and planting in the American South which argues that true regionality is to be found not in dishes but in ingredients *Times Literary Supplement*
