Samier, 2014-02-03 During the last couple of decades there has been an expansion in a number of related and overlapping fields producing evidence of covert activities, toxic cultures, destructive leadership styles, micropolitics, ethical problems in organisations and administration, abusive power and authority and many other topics of dysfunctional management and leadership studies that frequently make reference to secretive and deceptive behaviour. In this book Eugenie A. Samier draws on a range of disciplines including education, psychology, administration and management studies and organizational theory to provide a comprehensive examination of the ways in which organisational leaders and administrators carry out their roles in a secretive or deceptive manner.
