**Investigative Interviewing** Ray Bull, 2014-02-10 This edited volume reviews the latest research on investigative interviewing in order to provide insights on the psychological processes of the person being interviewed as well as to offer guidelines for conducting credible and useful interviews Critical and controversial areas are highlighted eg false confessions child interviewing in order to bring clarity to how these interrogations are to be conducted Chapters focus on these areas to provide comprehensive views of theoretical evidence based background as well as practical considerations of interrogation settings and procedures The contributors are internationally respected scholars in the field of psychology and law with particular expertise in the interviews that are critical to legal proceedings And attention is given to the criminal justice system in international perspective

**FORENSIC INTERVIEWING IN CRIMINAL COURT MATTERS** Marc Nesca, J. Thomas Dalby, 2013-06-01 Forensic mental health assessment has essentially become synonymous with forensic psychological assessment This necessary shift toward

empirically grounded procedures has had the unfortunate by product of diminishing the importance of the clinical interview in favor of procedures biased in the direction of rigid structure and statistical formulas In contrast the authors approach to forensic mental health places the individual front and center in the assessment process The need to treat the interviewee as an individual rather than a member of some statistically defined group is the recurring theme of this book As much as possible the text is focused on the interview proper Issues related to the broader topic of forensic assessment are discussed as necessary to provide context Although the issues discussed apply equally in civil and family court settings the focus is on the criminal justice system This is not a how to book but rather focuses primarily on the interview process and on general areas of inquiry The text is organized into three sections 1 general issues 2 specific applications and 3 special populations Section 1 provides a conceptual foundation for the book by comparing and contrasting clinical and forensic interview strategies Further it introduces the concept of idiographic model construction central to the authors approach to interviewing and also addresses the thorny issues of malingering and response bias The section closes with a discussion of practical considerations and technical issues applicable to forensic interviews In section 2 the focus is narrowed to three criminal justice settings retrospective insanity offenses here and now adjudicative competency assessments and forward looking predisposition assessments The final section further narrows its focus with chapters on interviewing sexual violent and adolescent offenders as well as a chapter on third party sources of information in forensic mental health evaluations The book will serve as a valuable resource for a variety of mental health professionals as well as criminal justice administrators

*Managing Clinical Risk* Caroline Logan,Lorraine Johnstone,2012 The book is concerned particularly with the assessment and management of risk by practitioners in forensic psychiatric and correctional settings although its findings are likely to be of interest to those working in community settings also especially with forensic clients

**Capturing Talk: The Institutional Practices Surrounding the Transcription of Spoken Language** Martha Komter,Helen Fraser,Emma Richardson,Felicity Deamer,Kate Haworth,Debbie Loakes,2024-05-22 Across a range of institutional settings practitioners and professionals are eliciting and capturing spoken talk from clients Sarangi 1998 transcribing that talk and later repurposing the transcripts in place of the original interaction This Research Topic seeks both to shed light on this often overlooked institutional process and to encourage further linguistic input into this area of professional practice Transcription is almost always an institutional practice Park Bucholtz 2009 providing a written record of spoken interaction to be used by another party at a later date in another setting or context There are a number of underappreciated features and consequences of this transformational process which we hope this Research Topic will expose and examine
