This book is a valuable source for oncologists and all other physicians dealing with cancer survivors. It provides detailed information on the evidence-based benefits and forms of intervention with contributions by a highly prestigious and well-recognized panel of experts. Chapters deal with all features of survivorship, outlining the role of the oncologist and other caregivers and discussing survivorship care in different countries and different settings. The book addresses new challenges and complex issues broader than medical issues faced by patients who are cured, highlighting that cancer is no longer a death sentence. It provides evidence-based management guidance and addresses issues such as symptom management, palliative care, screening for recurrence, rehabilitation, fertility issues, among others. This is an indispensable resource for oncologists, oncology nurses, and other professionals dealing with cancer patients, as well as patient advocacy groups and cancer leagues.

Essentials of Cancer Survivorship Lidia Schapira, 2021-11-09. The growing number of cancer survivors presents a new challenge to generalists and specialists involved in their care. Prior cancer treatments may compound known comorbidities or contribute to future health risks. The ultimate success of cancer treatments ultimately depends on the meticulous management of post-cancer care, and this requires a clinical workforce that is engaged and ready. Cancer survivorship has now become recognized as an independent field of research and clinical practice. This new concise guide is intended for cancer clinicians, as well as generalists and specialists who meet cancer survivors in their practices for routine check-ups or specialized consultations. With an expanding population known to have complex medical, psychosocial, and emotional needs, we hope this book sparks interest and provides answers for those involved in their care.

The Cancer Survivor's Guide Michael Feuerstein, Patricia Findley, 2006. A self-management program for cancer survivors offers counsel on how to take charge of one's physical, mental, and emotional challenges in a step-by-step reference that makes recommendations for navigating the health care system, obtaining affordable medication, and managing stress.

Handbook of Long Term Care of The Childhood Cancer Survivor Grace A. Mucci, Lilibeth R. Torno, 2015-07-20. This authoritative reference examines in depth the myriad challenges facing pediatric cancer survivors and proposes a robust framework for structured follow-up of these patients through adulthood. Approaches to long-term follow-up include both established models of care and targeted models of lifelong surveillance of late effects by bodily systems and neurological outcomes. Sections devoted to quality of life and re-entry after treatment focus on key concerns such as health risk behaviors, school and career issues, psychological challenges, and care disparities. And a robust resources section adds extra usefulness to the expert coverage. Among the Handbook's topics: Developmental considerations in the transition from child and adolescent to adult survivorship; Long-term follow-up roadmaps by disease and treatment; Neuropsychological

involved in the patient's management and how to develop a directed survivorship program in your practice. Divided into three sections, the book covers what everyone needs to know about survivorship, how to implement effective and enduring care, and how to work with patients utilizing The LEARN System (Living Education Activity Rest Nutrition) that Dr. Fleishman developed. The Manual also includes easy-to-use forms that patients may complete even before the initial consultation and post-treatment survivorship care plans for primary care providers. Whether used independently or in conjunction with Dr. Fleishman's patient-focused companion book, *Learn to Live Through Cancer*, the *Manual of Cancer Treatment Recovery* enables the oncology care team to anticipate patient and family needs even before they arise. The Manual will help you to: Organize recovery plans during treatment to improve quality of life; Develop an innovative system to minimize loss of vital energy, lean body mass, and distress before they happen; Develop a survivorship program for your practice; Coordinate oncology care with specialists and primary care providers; Integrate end-of-life issues into the care trajectory; Improve patient care during and after treatment; Nurture your patient's recovery preventively and systematically.
