General Information on Gold in Georgia, 1980 **The Georgia Gold Rush** David Williams, 2023-02-08 The definitive story of Georgia's role in the first U.S. gold rush In the 1820s a series of gold strikes from Virginia to Alabama caused such excitement that thousands of miners poured into the region This southern gold rush the first in U.S. history reached Georgia with the discovery of the Dahlonega Gold Belt in 1829 The Georgia gold fields however lay in and around Cherokee territory In 1830 the State of Georgia extended its authority over the area and two years later the land was raffled off in a lottery Although they resisted this land grab through the courts the Cherokees were eventually driven west along the Trail of Tears into what is today northeastern Oklahoma The gold rush era survived the Cherokees in Georgia by only a few years The early 1840s saw a dramatic decline in the fortunes of the southern gold region When word of a new gold strike in California reached the miners they wasted no time in following the banished Indians westward In fact many Georgia twenty niners became some of the first California forty niners Georgia's gold rush is now almost two centuries past but the gold fever continues Many residents still pan for gold and every October during Gold Rush Days hundreds of latter day prospectors relive the excitement of Georgia's great antebellum gold rush as they throng to the small mountain town of Dahlonega
