important innovative tools for gathering preserving and sharing information around the globe In light of our increasingly multicultural societies and the expanding digital divide we need new and more inclusive approaches to the collection of cultural heritage This means that critical reflection on both the contents of collections and methods of acquisition is crucial The International Information Center and Archives for the Women's Movement IIAV in Amsterdam provides a case study in how to approach these issues It considered such questions as how to make optimal use of new media and whose histories should be represented in its archives In Traveling Heritage's international and national heritage experts from academic library and archival professions reflect upon these questions offering new perspectives on documenting women's histories

Transnational Feminism in Non-English Speaking Europe, c.1960-1990 Agnes Andeweg, Heidi Kurvinen, 2024-12-27 This edited collection aims to look beyond established narratives of feminist history by focusing on non English speaking European countries Recent scholarship on the history of the women's liberation movement in individual countries has enhanced our understanding of the importance of transnational influences in the history of European feminism and problematised the periodisation of feminisms Additionally the translation of feminist practices and texts have received interest during the past years Despite this work the United States and to a lesser extent the United Kingdom are still the main points of reference in histories of post war feminism This book asks what happens to the picture if we place non English speaking European countries in the centre Using Lucy Delap's concept of mosaic feminism its contributors emphasise the variety of patterns that women's feminist organising showed in different cultural contexts despite similarities in their ideological corner stones

History of the Low Countries J. C. H. Blom, E. Lamberts, 2006-06-01 The history of the smaller European countries is rather neglected in the teaching of European history at university level We are therefore pleased to announce the publication of the first comprehensive history of the Low Countries in English from Roman Times to the present Remaining politically and culturally fragmented with its inhabitants speaking Dutch French Frisian and German the Low Countries offer a fascinating picture of European history en miniature For historical reasons parts of northern France and western Germany also have to be included in the Low Countries a term that must remain both broad and fluid a convenient label for a region which has seldom if ever composed a unified whole In earlier ages it was even more difficult to set parameters again reflecting Europe as a whole when tribes and kingdoms stretched across expanses not limited to the present states of Belgium Luxembourg and the Netherlands Nevertheless its parts did demonstrate many common traits and similar developments that differentiated them from surrounding countries and lent them a distinct character Internationally the region often served both as a mediator for and a buffer to the surrounding great powers France Britain and Germany an important role still played today as Belgium and the Netherlands have increasingly become involved in the broader process of European integration in which they often share the same interest and follow parallel policies This highly illustrated volume serves as an ideal introduction to the rich history of the Low Countries for students and the generally interested reader alike

Protecting Women Ulla Wikander, Alice Kessler-Harris, Jane E.
