Good Practices In Health Financing Good Practices In Health Financing:

Good Practices in Health Financing Pablo Gottret, George Schieber, Hugh R. Waters, 2008-06-20 For humanitarian reasons and the concern for households economic and health security the health sector is at the center of global development policy Developing countries and the international community are scaling up health systems to meet the Millennium Development Goals MDGs and are improving financial protection by securing long term support for these gains Yet money alone cannot buy health gains or prevent impoverishment due to catastrophic medical bills well structured results based financing reforms are needed Unfortunately global evidence of successful health financing policies that can guide the reform effort is very limited and therefore the policy debate is often driven by ideological one size fits all solutions **Good Practices in Health Financing Lessons from Reforms in Low and Middle Income Countries** attempts to begin to fill the void by systematically assessing health financing reforms in nine low and middle income countries that have managed to expand their health financing systems to both improve health status and protect against catastrophic medical expenses The participating countries are Chile Colombia Costa Rica Estonia the Kyrgyz Republic Sri Lanka Thailand Tunisia and Vietnam The study seeks to identify common enabling factors of their good performance While the findings for each country are important collectively they send a clear message to the global community that more attention is needed to define good practice and then to evaluate and disseminate the global evidence base

Health Financing in Ghana George Schieber, Cheryl Cashin, Karima Saleh, Rouselle Lavado, 2012-08-30 This volume analyzes Ghana's National Health Insurance Scheme and highlights the range of policy options needed to assure its financially sustainable transition to universal coverage

Health Financing in Indonesia, 2009-01-01 In 2004 the Indonesian government made a commitment to provide its entire population with health insurance coverage through a mandatory public health insurance scheme It has moved boldly already provides coverage to an estimated 76.4 million poor and near poor funded through the public budget Nevertheless over half the population still lacks health insurance coverage and the full fiscal impacts of the government's program for the poor have not been fully assessed or felt In addition significant deficiencies in the efficiency and equity of the current health system unless addressed will exacerbate cost pressures and could preclude the effective implementation of universal coverage

Ue and the desired result of improvements in population health outcomes and financial protection For Indonesia to achieve UC systems performance must be improved and key policy choices with respect to the configuration of the health financing system must be made Indonesia's health system performs well with respect to some health outcomes and financial protection but there is potential for significant improvement High level political decisions are necessary on key elements of the health financing reform package The key transitional questions to get there include the benefits that can be afforded and their impacts on health outcomes and financial protection how the more than 50 percent of those currently without coverage will be insured how to pay medical care providers to assure access efficiency and quality developing a streamlined and efficient

administrative structure how to address the current supply constraints to assure availability of promised services how to raise revenues to finance the system including the program for the poor as well as currently uninsured groups that may require government subsidization such as the more than 60 million informal sector workers the 85 percent of workers in firms of less than five employees and the 70 percent of the population living in rural areas

Global Health Justice and Governance Dr. Prah Ruger, 2018-05-03 In a world beset by serious and unconscionable health disparities by dangerous contagions that can circle our globalized planet in hours and by a bewildering confusion of health actors and systems humankind needs a new vision a new architecture new coordination among renewed systems to ensure central health capabilities for all Global Health Justice and Governance lays out the critical problems facing the world today and offers a new theory of justice and governance as a way to resolve these seemingly intractable issues A fundamental responsibility of society is to ensure human flourishing The central role that health plays in flourishing places a unique claim on our public institutions and resources to ensure central health capabilities to reduce premature death and avoid preventable morbidities Faced with staggering inequalities imperiling epidemics and inadequate systems the world desperately needs a new global health architecture Global Health Justice and Governance lays

out this vision *Private Voluntary Health Insurance* Greg Brunner, World Bank, 2012-05-14 Despite substantial progress towards peace economic growth and better governance since 2003 Liberia remains one of the poorest countries in the world The objective of this study is twofold First it is to provide a basic diagnostic of both consumption based poverty and human development especially education and health in the country using the 2007 CWIQ Core Welfare Indicators Questionnaire survey Second it is to assess the likely impact on the poor of the recent economic crisis and especially the increase in rice prices and to document the targeting performance of various measures Alternatives to Privatization David A.

McDonald, Greg Ruiters, 2012-04-23 There is a vast literature for and against privatizing public services Those who are against privatization are often confronted with the objection that they present no alternative This book takes up that challenge by establishing theoretical models for what does and does not constitute an alternative to privatization and what might make them successful backed up by a comprehensive set of empirical data on public services initiatives in over 40 countries This is the first such global survey of its kind providing a rigorous and robust platform for evaluating different alternatives and allowing for comparisons across regions and sectors The book helps to conceptualize and evaluate what has become an important and widespread movement for better public services in the global South The contributors explore historical existing and proposed non commercialized alternatives for primary health water sanitation and electricity The objectives of the research have been to develop conceptual and methodological frameworks for identifying and analyzing alternatives to privatization and testing these models against actually existing alternatives on the ground in Asia Africa and Latin America Information of this type is urgently required for practitioners and analysts both of whom are seeking reliable knowledge on what kind of public models work how transferable they are from one place to another and what their main strengths and weaknesses are The Economics of Public Health Care Reform in Advanced and Emerging Economies

Mr. David Coady, Mr. Benedict J. Clements, Mr. Sanjeev Gupta, 2012-06-01 Using cross country analysis and case studies this book provides new insights and potential policy responses for the key fiscal policy challenges that both advanced and emerging economies will be facing **Causal Mechanisms in the Global Development of Social Policies** Johanna Kuhlmann, Frank Nullmeier, 2022-05-28 This open access edited volume introduces the concept of causal mechanisms to explore new ways of explaining the global dynamics of social policy and shows that a mechanism based approach provides several advantages over established approaches for studying social policy The introductory chapter outlines the mechanism based approach which stands out by modularisation and a clear focus on actors The mechanism based approach then guides the twelve chapters on social policy developments in different Asian African European and Latin American countries Based on these findings the concluding chapter provides a structured compilation of causal mechanisms and outlines how a mechanism based approach can further strengthen research on the global development of social policies especially in a comparative perspective The edited volume is highly relevant for social policy scholars from a variety of disciplines as well as

for scholars interested in strengthening explanation in the social sciences **The State of the World's Children 2008** UNICEF.,2007 The 2008 report examines the state of child survival and primary health care for children with a strong emphasis on trends in child mortality *Resilient Health Systems* Federico Lega,Giada Carola Castellini,2022-02-23 Since February 2020 the COVID 19 pandemic has strained health systems worldwide This book explores the factors determining the ability of health systems to cope with and recover from a crisis and therefore their level of resilience **Financing Health Care in East Asia and the Pacific** John C. Langenbrunner,Jack Langenbrunner,Aparnaa Somanathan,2011-06-16 East Asian and Pacific countries are growing rapidly They need high quality well funded health systems to underpin their population growth and assure continued productivity and economic growth But countries will need to spend wisely using modern techniques of insurance and strategic contracting with providers **Healthcare System Management** S. D. Gupta,2022-09-13 The book discusses concepts and theories of general management and their specific applications related to public health and health care Each chapter highlights the ideas and usefulness of different approaches in the context of health management It addresses problems in different areas of healthcare systems management It offers solutions in improving the performance efficiency and effectiveness of health programs and systems Some of the topics covered in the book include health systems and policy epidemiology biostatistics population dynamics health economics and finance logistics and supply chain health research health communication quality management in health and legal and ethical issues in health The book serves as an indispensable resource for the faculties and students of health management or public health globally as well as healthcare professionals and researchers **Foreign Operations, Export Financing, and Related Programs Appropriations for 2006** United States. Congress. House. Committee on Appropriations. Subcommittee on Foreign Operations, Export Financing, and Related Programs,2005 **Health Financing Reform in Ukraine** Caryn Bredenkamp,Elina Dale,Olena Doroshenko,2022-07-18 In 2015 the government of Ukraine initiated transformative reforms of its health system with the goals of improving the health outcomes of the population and providing financial protection from excessive out of pocket health care payments This was to be implemented through modernizing and integrating the service delivery system introducing changes to provider payment arrangements that incentivize efficiency and improving the quality of care It culminated in the passage of a new health financing law the Law on Financial Guarantees for Health Care Services 2017 which established a health benefit package called the Program of Medical Guarantees PMG and also created the National Health Services of Ukraine NHSU to serve as strategic purchaser for this program A joint World Health Organization World Bank review of the early reforms was published in 2019 that took stock of reform progress since 2017 Two years later implementation of the health financing reforms has progressed substantially and it is time to again review where things stand and what the future directions should be There have been many important accomplishments over the past two years both in terms of institutional reform and expansion in access to care The COVID 19 pandemic precipitated

adjustments to existing health financing levels and arrangements At the same time the pandemic delayed implementation of some aspects of the health financing reforms such as the anticipated transition to case based payments This report provides a comprehensive description and assessment of the development and implementation of policies associated with the PMG reform from the start of the reform in 2017 through mid 2021 It examines 1 how the PMG is financed 2 strategic purchasing of the different components of PMG benefit package and 3 the governance arrangements of the PMG This includes changes in the packages their contracting arrangements how they are paid their complementary enabling reforms and the extent to which the population is benefiting from them The report also positions these developments within broader contextual discussions of the financing and organization of health care in Ukraine in order to make the key features of the financing reforms and their importance accessible to domestic and international audiences Adjustment by the health sector to cope with the COVID 19 pandemic is a common thread Each section concludes with a set of key recommendations
