

The background of the entire image is a repeating pattern of various school and office supplies. These include books of different sizes and colors (brown, red, blue, yellow), pens, pencils, erasers, paper clips, and sheets of paper. The items are scattered across the white background, creating a dense, textured effect.

Hongkong Blue Book for the Year ... Hong Kong, 1912 **Charter Schools and Their Enemies** Thomas Sowell, 2020-07-14 Winner of the 2021 Hayek Book Prize A leading conservative intellectual defends charter schools against the teachers unions politicians and liberal educators who threaten to dismantle their success The black white educational achievement gap so much discussed for so many years has already been closed by black students attending New York City s charter schools This might be expected to be welcome news But it has been very unwelcome news in traditional public schools whose students are transferring to charter schools A backlash against charter schools has been led by teachers unions politicians and others not only in New York but across the country If those attacks succeed the biggest losers will be minority youngsters for whom a quality education is their biggest chance for a better life **Rethinking Homework** Cathy Vatterott, 2009 Is homework an essential component of rigorous schooling or a harmful practice that alienates and

discourages a significant number of students The debate over homework has gone on for decades but schools and families have changed in many ways and as author Cathy Vatterott notes There s a growing suspicion that something is wrong with homework Rethinking Homework Best Practices That Support Diverse Needs examines the role homework has played in the culture of schooling over the years how such factors as family life the media and the balance movement have affected the homework controversy and what research and educators common sense tells us about the effects of homework on student learning The best way to address the pro and anti homework controversy is not to eliminate homework Instead the author urges educators to replace the old paradigm characterized by longstanding cultural beliefs moralistic views the puritan work ethic and behaviorist philosophy with a new paradigm based on the following elements Designing quality homework tasks Differentiating homework tasks Deemphasizing grading of homework Improving homework completion and Implementing homework strategies and support programs Numerous examples from teachers and schools that have revised their practices and policies for homework illustrate the new paradigm in action The end product is homework that works for all students at all levels
