HOW WE SEE GOD AND WHY IT MATTERS Robert J. Landy, 2001-01-01 This is a book about seeing the ultimate mystery as represented by the figure of God It is not about religion per se although it makes reference to many of the great religious traditions of the world and their gods Rather it is about the presence of the spiritual world and its inhabitants The author s aim is to attempt to answer the question How do we see God through engaging with the images created by a group of children from a number of different cultures and spiritual backgrounds Through a two year period the author travelled the world interviewing more than 500 children asking them to draw a picture of God to act and speak as God and to tell a story about God This text is a documentation of that journey into the lives and spiritual beliefs of children

Throughout the book a broad selection of pictures and stories by the children is reproduced and paraphrased The author offers his own commentaries not as an analyst in a psychological sense or critic in a literary one but as a God seeker trusting in the power of the image to reveal meaning This unique book will be of primary interest to professionals in the field of psychology especially child and family therapists as well as art and drama therapy sociology and theology The book will also have appeal to parents and children who are looking for ways to understand their belief systems in relationship to others

Tornado God Peter J. Thuesen, 2020 One of the earliest sources of humanity's religious impulse was severe weather which ancient peoples attributed to the wrath of storm gods Enlightenment thinkers derided such beliefs as superstition but in America scientific and theological hubris came face to face with the tornado nature's most violent windstorm In this groundbreaking history Peter J Thuesen traces the primal connections between weather and religion in the United States He shows that tornadoes and other storms have repeatedly drawn Americans into the profoundest of religious mysteries and confronted them with the question of their own destiny how much is self determined and how much is beyond human understanding or control

Association,1917 **A Good View of God** Brent Ray Taylor,2015-12-17 It began with a rambling conversation written in my memory like electric script on an etch a sketch that nobody bothered to shake clean We were unaware theologians looking for trouble walking the streets and talking about the origination of the universe Schoolboys wearing Levis and P F Flyers while Mungo Jerry sang In the Summertime on a street that looked like every white bread neighborhood between Santa Monica and Albany in 1970 The world hadn t shrunk yet it was still unfathomably huge our neighborhood small although everything we wanted was a short walk outside our door bikes woods and water and girls In the midst of that lush evening when the entire world was at our beck and call when we didn t know what hurt yet we looked into the heavens There were rockets in space jets in the blue and Chinese fire drills in the streets and we had a gleam in our eyes with nothing yet to regret In the midst of a conversational lull someone shattered the glass wall separating my church friends and my school friends with a question Do you believe in God These were my school buddies and we didn t go to church together It was the first authentic conversation I had about transcendence about a Creator about what happens when we die A meandering conversation unfiltered by adult oversight transparent and wide eyed started with someone noticing the stars sparkling on the horizon through the soft evening shadows beautiful worth noticing Hey look at the stars The sun isn t down yet and we can see them We walked along for a while without speaking looking at this beauty which we couldn t name waiting for more signs We didn t solve the metaphysical questions of the universe that evening but it began a conversation that I ve since carried with me everywhere I go It s not an Einsteinian quest for a theory of everything but rather a question about the intersection of space time with the dirt we kick up walking around on earth Do the planes of the Heavens intersect with the plains of Oklahoma Calcutta and Jerusalem I ve been walking along trying to name the beauty of that evening ever since This book is just another attempt to name those moments brilliant points of illumination the caressing beauty of heaven touching earth and to feel the mysterious wonder of places with more dimensions than I can understand And sometimes if I m really calm I see it as clearly as twinkling stars competing against the sun of a midsummer s evening **Catalog of Copyright Entries.
