Governance in Post-Conflict Societies Derick W. Brinkerhoff, 2007-01-24 This volume explores questions of rebuilding governance in post conflict societies from an interdisciplinary perspective focusing on three interconnected gaps that arise in fragile states deficits in legitimacy effectiveness and security

Governance, Natural Resources and Post-Conflict Peacebuilding Carl Bruch, Carroll Muffett, Sandra Nichols, 2016-04-07 When the guns are silenced those who have survived armed conflict need food water shelter the means to earn a living and the promise of safety and a return to civil order Meeting these needs while sustaining peace requires more than simply having governmental structures in place it requires good governance Natural resources are essential to sustaining people and peace in post conflict countries but governance failures often jeopardize such efforts This book examines the theory practice and often surprising realities of post conflict governance natural resource management and peacebuilding in fifty conflict affected countries and territories It includes thirty nine chapters written by more than seventy researchers diplomats military personnel and practitioners from governmental intergovernmental and nongovernmental organizations The book highlights the mutually reinforcing relationship between natural resource management and good governance Natural resource management is crucial to rebuilding governance and the rule of law combating corruption improving transparency and accountability engaging disenfranchised populations and building confidence after conflict At the same time good governance is essential for ensuring that natural resource management can meet immediate needs for post conflict stability and development while simultaneously laying the foundation for a sustainable peace Drawing on analyses of the close

relationship between governance and natural resource management the book explores lessons from past conflicts and ongoing reconstruction efforts illustrates how those lessons may be applied to the formulation and implementation of more effective governance initiatives and presents an emerging theoretical and practical framework for policy makers researchers practitioners and students Governance Natural Resources and Post Conflict Peacebuilding is part of a global initiative to identify and analyze lessons in post conflict peacebuilding and natural resource management The project has generated six books of case studies and analyses with contributions from practitioners policy makers and researchers Other books in this series address high value resources land water livelihoods and assessing and restoring natural resources **Unveiling**

Dynamics, Legitimacy, and Governance in Contemporary States Ryszard Ficek, 2024-04-25 This book delves into the complex dynamics of legitimizing power in fragile states With five comprehensive chapters it analyzes the geopolitical domestic and international dimensions of fragile states The unique contribution lies in unraveling specific forms of legitimization linked to various types of state fragility providing a nuanced understanding The book distinguishes between temporary crises and chronic fragility crucial for shaping effective international support strategies It addresses the challenges and consequences of weak legitimacy on global security highlighting its impact on aid interventions and systemic stability The author's analysis emphasizes the diverse nature of political regimes in fragile states incorporating considerations of hybrid regimes Additionally it explores the dynamics of authoritarian enclaves at the sub state level revealing their potential national influence By scrutinizing the decline of trust in democratic systems the book addresses contemporary challenges making it a vital resource for understanding and navigating the complexities of fragile states political landscapes **Post-Conflict Studies** Chip Gagnon, Keith Brown, 2014-07-11 This book examines how the violence of conflict is transformed in the post conflict period Post conflict studies seek to illuminate theorise and narrate the processes by which societies transition from periods of overt and violent conflict to periods of relative stability and peace Most of the research carried out on post conflict societies has taken place within disciplinary bounds In contrast this volume breaches those boundaries though each author is grounded in a particular discipline the chapters have been written in a spirit of interdisciplinarity The focus of the volume is how the violence of conflict is transformed in the post conflict period into processes that the editors have categorised as criminalisation medicalisation and missionisation Comprised of essays written by a diverse group of scholars and activists from anthropology political science international relations law education religion and military history each section of the book looks at the concept of post conflict in a way that problematises its common usage and highlights the importance of strongly interdisciplinary research into post conflict societies This book will be of interest to students of war and conflict studies peace studies security studies and IR in general **Guide to Rebuilding**

Governance in Stability Operations Derick W. Brinkerhoff, Ronald W. Johnson, Richard Hill, 2009 This guide is designed to further U S military understanding of the critical nation state building role that U S forces play during stability operations It

focuses on the military's role in rebuilding and establishing a functional effective and legitimate nation state one that can assure security and stability for its citizens defend its borders deliver services effectively for its populace and is responsible and accountable to its citizens It provides a comprehensive approach to planning and implementing a program to rebuild governance by U S peacekeeping forces during stability operations Recognizing that the extent of U S Government and military involvement is determined by the mandate the mission the level of resources and most importantly the host country context this guide provides options and trade offs for U S forces in executing these operations

Non-Western Encounters with Democratization Christopher K. Lamont, Jan van der Harst, 2016-03-09 Non Western Encounters with Democratization offers diverse perspectives on democracy and transition spanning the Middle East and North Africa to East Asia This unique collection of essays drawn from contextually rich case studies presents readers with a variety of non western encounters with democracy and provides important insights into the dramatic political and social transformations in these regions over the past decades The book offers a deeper understanding of democratization and challenges the image of western democracy as a universal model to which non western societies aspire Taking the events of the Arab Spring as the starting point international contributors look at why the uprisings that rapidly spread across North Africa and the Middle East had a strong resonance in East Asia but failed to inspire similar revolts Through direct engagement with non western experiences of political transition the book demonstrates a unique coherence across two regions relatively under explored in democratization literature

Governance in Conflict Blanka Bellak, Jaba Devdariani, Benedikt Harzl, Lara Spieker, 2017 This edited volume provides new insight into the interplay between governance and conflict The articles in this volume deal with this problematic dimension from a variety of perspectives covering different actors and topics as well as a vast array of geographical locations and entities that include both states and de facto or unrecognized states such as Transnistria Scholars and practitioners have contributed to this work to bridge the gap between academia and practice The volume blends scholarly research with examples of practical application to approach the conundrums of governance in and during conflict in a comprehensive way

Women and Political Violence Miranda Alison, 2009-01-21 This book directly challenges the stereotype that women are inherently peaceable by examining female combatants involvement in ethno national conflicts Drawing upon empirical case studies of Sri Lanka and Northern Ireland this study explores the ways in which women have traditionally been depicted Whereas women have predominantly been seen as victims of conflict this book acknowledges the reality of women as active combatants Indeed female soldiers irregulars are features of most modern conflicts and particularly in ethno nationalist violence until now largely ignored by mainstream scholarship Original interview material from the author's extensive fieldwork addresses why and how some women choose to become violently engaged in nationalist conflicts It also highlights the personal political costs and benefits incurred by such women This book provides a valuable insight into female combatants and is a significant contribution to the literature This book will be of great interest to students

of political violence ethnic conflict gender studies and international relations in general International Encyclopedia of Civil Society Helmut K. Anheier, Stefan Toepler, 2009-11-24 Recently the topic of civil society has generated a wave of interest and a wealth of new information Until now no publication has attempted to organize and consolidate this knowledge The International Encyclopedia of Civil Society fills this gap establishing a common set of understandings and terminology and an analytical starting point for future research Global in scope and authoritative in content the Encyclopedia offers succinct summaries of core concepts and theories definitions of terms biographical entries on important figures and organizational profiles In addition it serves as a reliable and up to date guide to additional sources of information In sum the Encyclopedia provides an overview of the contours of civil society social capital philanthropy and nonprofits across cultures and historical periods For researchers in nonprofit and civil society studies political science economics management and social enterprise this is the most systematic appraisal of a rapidly growing field **Reconstructing Afghanistan** William Maley, Susanne Schmeidl, 2014-11-27 This book identifies some of the main lessons for civil military interactions that can be derived from the experiences of Provincial Reconstruction Teams PRTs in Afghanistan The book has three main themes Firstly the volume analyses why the ways in which civil and military actors interact in theatres of operations such as Afghanistan matter for both those categories of actors and for the ordinary people who their interactions serve Second the book highlights that these interactions are invariably complex The third theme which arises specifically from the PRT experience in Afghanistan is that such teams vary significantly in their roles resourcing and operational environments Consequently to appraise the value of the PRT experience it is necessary to unpack the experiences of different PRTs which the use of case studies allows one to do The volume comprises an introduction identifying some key questions to which the PRT experience gives rise and case studies of the experiences of the United States United Kingdom New Zealand Canada The Netherlands Australia Germany and France chapters dealing with the roles played by NGOs and the UN system and a discussion from an Afghan perspective of the implications of civilian casualties It is the combination of the diverse cases discussed in this book with a focus on the broad challenges of optimising civil military interactions that makes this book distinctive This book will be of much interest to students of the Afghan War civil military relations statebuilding Central Asian politics and IR in general Strategic Narratives, Public Opinion and War Beatrice De Graaf, George Dimitriu, Jens Ringsmose, 2015-02-11 This volume explores the way governments endeavoured to build and maintain public support for the war in Afghanistan combining new insights on the effects of strategic narratives with an exhaustive series of case studies In contemporary wars with public opinion impacting heavily on outcomes strategic narratives provide a grid for interpreting the why what and how of the conflict This book asks how public support for the deployment of military troops to Afghanistan was garnered sustained or lost in thirteen contributing nations Public attitudes in the US Canada Australia and Europe towards the use of military force were greatly shaped by the cohesiveness and content of the strategic narratives employed by national policy makers Assessing the ability

of countries to craft a successful strategic narrative the book addresses the following key areas 1 how governments employ strategic narratives to gain public support 2 how strategic narratives develop during the course of the conflict 3 how these narratives are disseminated framed and perceived through various media outlets 4 how domestic audiences respond to strategic narratives 5 how this interplay is conditioned by both events on the ground in Afghanistan and by structural elements of the domestic political systems This book will be of much interest to students of international intervention foreign policy political communication international security strategic studies and IR in general *US Foreign Policy and Iran* Donette Murray, 2009-09-11 *US Foreign Policy and Iran* is a study of US foreign policy decision making in relation to Iran and its implications for Middle Eastern relations It offers a new assessment of US Iranian relations by exploring the rationale effectiveness and consequences of American policy towards Iran from the aftermath of the 1979 Iranian Revolution to the present day As a key country in a turbulent region and the recipient of some of the most inconsistent treatment meted out during or after the Cold War Iran has been both one of America's closest allies and an axis of evil or rogue state targeted by covert action and contained by sanctions diplomatic isolation and the threat of overt action Moreover since the attacks of 11 September 2001 Iran has played a significant role in the war on terror while also incurring American wrath for its links to international terror and its alleged pursuit of a nuclear weapons programme *US Foreign Policy and Iran* will be of interest to students of US foreign policy Iran Middle Eastern Politics and international security in general Donette Murray is a Senior Lecturer in the Department of Defence and International Affairs at the Royal Military Academy Sandhurst She was awarded a PhD in International History by the University of Ulster in 1997 **US Hegemony and International Legitimacy** Lavina Rajendram Lee, 2010-02-05 This book examines US hegemony and international legitimacy in the post Cold War era focusing on its leadership in the two wars on Iraq The preference for unilateral action in foreign policy under the Bush Administration culminating in the use of force against Iraq in 2003 has unquestionably created a crisis in the legitimacy of US global leadership Of central concern is the ability of the United States to act without regard for the values and interests of its allies or for international law on the use of force raising the question does international legitimacy truly matter in an international system dominated by a lone superpower *US Hegemony and International Legitimacy* explores the relationship between international legitimacy and hegemonic power through an in depth examination of two case studies the Gulf Crisis of 1990-91 and the Iraq Crisis of 2002-03 and examines the extent to which normative beliefs about legitimate behaviour influenced the decisions of states to follow or reject US leadership The findings of the book demonstrate that subordinate states play a crucial role in consenting to US leadership and endorsing it as legitimate and have a significant impact on the ability of a hegemonic state to maintain order with least cost Understanding of the importance of legitimacy will be vital to any attempt to rehabilitate the global leadership credentials of the United States under the Obama Administration This book will be of much interest to students of US foreign policy IR theory and security studies Lavina Rajendram Lee is a lecturer in the

Department of Modern History Politics and International Relations at Macquarie University Australia and has a PhD in International Relations from the University of Sydney

Information Strategy and Warfare John Arquilla, Douglas A. Borer, 2007-08-08 This volume develops information strategy as a construct equal in importance to military strategy as an influential tool of statecraft John Arquilla and Douglas A Borer explore three principal themes the rise of the information domain and information strategy as an equal partner alongside traditional military strategy the need to consider the organizational implications of information strategy the realm of what has been called information operations IO the building blocks of information strategy has been too narrowly depicted and must be both broadened and deepened Information Strategy and Warfare will be essential reading for students and practitioners of information strategy as well as scholars of security studies and military strategy in general

Liberal Wars Alan Cromartie, 2015-04-24 This book addresses the relationship between the liberal values of Anglo Saxon cultures and the way that they conduct themselves when they are fighting or preparing to fight wars The United States and the United Kingdom are characterised by a consensus that their social and political arrangements are in a very broad sense liberal Liberalism is not pacifism nor are liberals necessarily respectful of traditional prohibitions that have set out to moderate excessive violence But liberals do seek to understand their violent actions as part of a wider project of defending or expanding liberal freedoms The perceived alternative is to undermine the will to keep on fighting Sustaining a liberal picture of what is going on is an indispensable part of a liberal strategy Contributors with disciplinary backgrounds in history international relations and strategic studies discuss what liberalism means in this particular context and how it might relate to strategy both in the recent past and in the future The chapters consider how liberal states understand the wars they fight the constraints liberal values place on these states the role of public opinion and the appropriate strategies for modern liberal states Topics addressed include civilian bombing the nature of US military culture the British Iraq inquiries the effects of the erosion of Westphalian sovereignty and the rise of new ideas about globalization and the decline in popular involvement This book will be of much interest to students of strategic studies political philosophy foreign policy security studies and IR in general

Mechanistic Realism and US Foreign Policy Johannes Gullestad Rø, 2013-06-26 This book aims to reinvigorate realist international relations theory by developing a catalogue of micro mechanisms able to explain security policy decision making Typically realism discounts the role of individuals and uses states as the unit of analysis By examining instead the mental operations of those who act on behalf of the state a better understanding of security policy formation is attainable The book demonstrates how realism can be translated from a systemic grand theory into a catalogue of psychologically plausible mechanisms applicable to individual decision makers This catalogue here called Mechanistic Realism may be employed to investigate the cognitive precursors to security policy The explanatory power of Mechanistic Realism is demonstrated through a meticulous analysis of what transpired inside the George W Bush administration as its members forged a response to the 2001 terrorist attacks Through

the exploration of individual level data Mechanistic Realism provides a more comprehensive analysis of the US response The book concludes that international relations IR scholars would benefit analytically by assembling the most pertinent mechanisms into an explanatory toolbox rather than developing and applying grand theories Mechanistic Realism is a first step in this direction This book should be of great interest to students of IR foreign policy American politics and security studies in general Clinton's Foreign Policy John Dumbrell,2009-04-02 This volume is a detailed account of President Clinton s foreign policy during 1992 2000 covering the main substantive issues of his administration including Iraq Bosnia and Kosovo The book emphasizes Clinton s adaptation of the elder Bush s New World Order outlook and his relationship to the younger Bush s Americanistic foreign policy In doing so it discusses in detail such key policy areas as foreign economic policy humanitarian interventionism policy towards Russia and China and towards European and other allies defence priorities international terrorism and peacemaking Overall the author judges that Clinton managed to develop an American foreign policy approach that was appropriate for the domestic and international conditions of the post Cold War era This book will be of great interest to students of Clinton s administration US foreign policy international security and IR in general John Dumbrell is Professor of Government at Durham University He specialises in the study of US foreign policy

Justifying America's Wars Nicholas Kerton-Johnson,2010-09-13 This book examines the justifications for and practice of war by the US since 1990 and examines four case studies the Gulf War Kosovo Afghanistan and Iraq The author undertakes an examination of presidential speeches and public documents from this period to determine the focal points on which the respective presidents based their rhetoric for war The work then examines the practice of war in the light of these justifications to determine whether changes in justifications correlate with changes in practice In particular the justificatory discourse finds four key themes that emerge in the presidential discourses which are tracked across the case studies and point to the fundamental driving force in US motivations for going to war The four key themes which emerge from the data are international law or norms human rights national interest and egoist morality similar too but wider than exceptionalism This analysis shows that 9 11 resulted in a radical shift away from an international law and human rights focused justificatory discourse to one which was overwhelmingly dominated by egoist morality justifications and national interest This book will be of much interest to students of US foreign policy humanitarian intervention Security Studies and IR theory

Transitional Justice, Peace and Accountability Jessica Lincoln,2011-03-18 The book looks at the outreach and communication strategies employed by internationalised courts to try to understand the wider impact of international justice This book critically examines the role of outreach within international justice focusing specifically on the role of outreach at the Special Court for Sierra Leone SCSL It contributes to understanding of the relationship between international courts and the affected populations an area currently underexplored and little understood The assumption that justice brings peace underpins much of the thinking and indeed action of international justice yet little is known if this is actually the case

Significant questions surrounding the link between peace and justice remain do trials deter would be war criminals is justice possible for the most heinous crimes can international justice replace local justice This book explores these questions in relation to recent developments in international justice that have both informed and shaped the creation of the hybrid tribunal in Sierra Leone Through empirical analysis Transitional Justice Peace and Accountability answers these questions and provides an insight into individual and community perceptions of international justice This book will be of much interest to students of transitional justice war crimes peace and conflict studies human rights international law and IR in general
