Transforming Preschool Storytime Betsy Diamant-Cohen, Melanie A. Hetrick, 2013-06-18 According to recent research the best way to make new connections in a child's brain is by building on something already known. A child who loves a book will listen to it repeatedly maintaining interest. Using a selected book in a number of consecutive preschool storytimes but presenting it differently each time can help children learn new skill sets. This book presents a new approach to storytime one that employs repetition with variety to create an experience which helps children connect and engage with the story on a higher level. Diamant-Cohen recently awarded the 2013 ASCLA Leadership and Professional Achievement Award and Hetrick offer a year's worth of activities specifically designed to address multiple intelligences through a repetition-based process. Incorporating recent theories on developmental learning this book includes Scripts for 8 different books with enough activities to repeat each one for six weeks along with lists of optional alternative books. Planning aids such as outlines of storytime sessions a fill in the blanks planning sheet questions for evaluation and tips for enhanced storytimes using props and crafts. Detailed but straightforward explanations of theory and research that will help readers communicate effectively with parents caregivers and other stakeholders. From setup to execution here's everything you need to create and implement a successful elevated storytime.

Leigh, Catherine A. O'Brien, 2020 Much has been written about deaf identities however no single book has focused specifically on how different academic disciplines conceptualize deaf identities in one fell swoop This book *Deaf Identities Exploring New Frontiers* does exactly that It is a unique compilation of multidisciplinary perspectives on the lens of deaf identities written by scholars representing a variety of disciplines including anthropology counseling education literary criticism practical religion philosophy psychology sociology social work and Deaf Studies Nowhere else can one find careful scrutiny of the meaning of deaf identities within for example the disciplines of philosophy and religion Where else can one find a sense of identity in passing as a deaf person instead of almost passing as a hearing person Where else can one examine mutating identities in progressing from Spiderman to the Incredible Hulk The book focuses on how the contributors perceive what deaf identities represent how these identities develop and the societal influences that shape these identities Intersectionality examination of medical educational and family systems linguistic deprivation the role of oppressive influences what the deaf body is about strategies to facilitate positive deaf identity development and how ethical values are interpreted are among the multiple topics examined in the search to better understand how deaf identities come into being In presenting their deaf identity paradigms contributors have endeavored to intertwine both scholarly and personal perspectives in their efforts to personalize academic content The result is a book that reinforces the multiple ways in which deaf identities are manifested
