House Tree Person Assessment Manual

Robert C. Burns

House Tree Person Assessment Manual:

The House-tree-person Technique John N. Buck, 1966 **Kinetic-house-tree-person Drawings (K-H-T-P)** Robert C. Burns, 1987 This book contains the first documentation of combining house tree and person into a single drawing. It helps enrich clinician's test batteries and aids psychologists and physicians in understanding the emotions and self-awareness of their clients. It is richly illustrated and teaches the important skill of using visual metaphors in clinical settings to understand and assist clients. The author covers all aspects of drawing interpretation including size placement stroke or line characteristics and the possible individual characteristics of each element within the house tree and person drawings. The House-tree-person (H-T-P) Manual Supplement: Administration and Interpretation of the H-T-P Test, 1971 **Handbook of Personality Assessment** Irving B. Weiner, Roger L. Greene, 2011-01-31 This comprehensive balanced guide to personality assessment written by two of the foremost experts in the field is sure to become the gold standard of texts on this topic. The Handbook of Personality Assessment covers everything from the basics including a historic overview and detailed discussion of the assessment process and its psychometric foundations to valuable sections on conducting the assessment interview and the nature interpretation and applications of the most popular self-report objective and performance-based projective measures. A concluding section of special topics such as computerized assessment ethical and legal issues and report writing are unique to this text. **A Cross-Cultural Psychological Assessment Manual** Alan Raphael, R. Lauren Miller, Theresa Jones, Charles Golden, 2023-07-11 This user-friendly manual provides a cross-cultural psychological assessment battery including projective methods. Authors outline a new empirically validated reliable system which seeks to update the scoreable and interpretable factors and entwine commonly respected tried and true graphomotor tests thereby maximizing their efficacy in the assessment of significant psychological traits in children and adults. Because of its use as a gender fair culture free language free testing method it will be a valuable asset in all areas of current psychological assessment. The CCPAB test takes approximately 20 to 40 minutes to administer and does not require any administration materials that most practitioners would not have readily available. The CCPAB can be used by evaluators on its own or in conjunction with other psychological and neuropsychological test data as well as by mental health treatment providers seeking a quick and accurate way to assess the psychological functioning of individuals aged six years and older. Multiple appendices contain information on scoring criteria scoring keys and a wealth of sample questions which will also be a useful resource for evaluators. This manual is appropriate for users ranging from graduate level students in training and supervision to even the most skilled assessment psychologists for quick and valid assessment of a wide range of clients. *Handbook of Nonverbal Assessment* R.
