Housing First Ending Homelessness Transforming Systems And Changing Lives:

Housing First Deborah Padgett, Benjamin F. Henwood, Sam J. Tsemberis, 2016 This book provides a unique portrayal of Housing First as a paradigm shift in homeless services Since 1992 this approach has spread nationally and internationally changing systems and reversing the usual continuum of care The success of Housing First has few parallels in social and human services *Housing First*, 2016 **Ending Homelessness?** Allen, Mike, Benjaminsen, Lars, 2020-02-26

Homelessness is on the increase in most European states and remains at stubbornly high levels across developed nations This is despite increased policy attention economic provision and the implementation of strategies that have promised to stop homelessness in its tracks rather than simply manage the crisis Providing an in depth exploration of the experiences of Ireland Denmark and Finland in their various initiatives designed to end homelessness this book presents an authoritative comparative account of policies and strategies that have worked along with an exposition of those that have not Making an invaluable and timely contribution to the current debate it provides essential policy lessons for the multiple jurisdictions seeking to successfully bring homelessness to an end **Reshaping the World** Ernesto Castañeda, 2021-03-16 This volume

provides information and analyses to better grasp the social implications of geographical borders as well as the individuals who travel between them and those who live in border regions Sociologists anthropologists philosophers linguists and scholars of international relations and public health are just some of the authors contributing to *Rethinking Borders* The diversity in the authors disciplines and the topics they focus on exemplify the intricacies of borders and their manifold effects This openness to so many schools of thought stands in contrast to the solidification of stricter borders across the globe The contributions range from case studies of migrants sense of belonging and safety to theoretical discussions about migration and globalization from empirical studies about immigrant practices and exclusionary laws to ethical concerns about the benefits of inclusion It is timely that this collective work is published in the middle of a pandemic that has affected every single part of the world Unprecedented border closures and stringent travel restrictions have not been enough to contain the virus entirely As COVID 19 shows diseases ideas and xenophobic and racist discourses know no borders Plans that transcend borders are vital when dealing with global threats such as climate change and pandemics *Homelessness and Social Work*

Carole Zufferey, 2016-11-25 Drawing on intersectional theorising *Homelessness and Social Work* highlights the diversities and complexities of homelessness and social work research policy and practice It invites social work students practitioners policy makers and academics to re examine the subject by exploring how homelessness and social work are constituted through intersecting and unequal power relations The causes of homelessness are frequently associated with individualist explanations without examining the broader political and intersecting social inequalities that shape how social problems such as homelessness are constructed and responded to by social workers In reflecting on factors such as Indigeneity race ethnicity gender class age sexuality ability and other markers of identity the author seeks to construct a new intersectional

framework for understanding social work and homelessness provide a critical analysis of social work responses to homelessness challenge how homelessness is represented in social work research social policy and social work practice and incorporate the stories of people experiencing homelessness The book will be of interest to undergraduate and higher research degree students in the fields of intersectionality homelessness sociology public policy and social work *Late-Life Homelessness* Amanda Grenier, 2022-01-15 Around the world and across a range of contexts homelessness among older people is on the rise In spite of growing media attention and new academic research on the issue older people often remain unrecognized as a subpopulation in public policy programs and homeless strategies As such they occupy a paradoxical position of being hypervisible while remaining overlooked *Late Life Homelessness* is the first Canadian book to address this often neglected issue Basing her analysis on a four year ethnographic study of late life homelessness in Montreal Canada Amanda Grenier uses a critical gerontological perspective to explore life at the intersection of aging and homelessness She draws attention to disadvantage over time and how the condition of being unhoused disrupts a person's ability to age in place resulting in experiences of unequal aging Weaving together findings from policy documents stakeholder insights and observations and interviews with older people this book demonstrates how structures organizational practices and relationships related to homelessness and aging come to shape late life Situated in the context of an aging population rising inequality and declining social commitments *Late Life Homelessness* stresses the moral imperative of responding justly to the needs of older people as a means of mitigating the unequal aging of unhoused elders **Politics in the American States** Thad Kousser, Jamila Michener, Caroline Tolbert, 2024-11-07 *Politics in the American States* Twelfth Edition brings together the high caliber research expected from this trusted text with comprehensive and comparative analysis of the fifty states Fully updated for all major developments in the study of state level politics the editors and chapter contributors keep pace with the transformation of American states and their study **Homelessness and Street Crime** Pete Schauer, 2017-07-15 Hundreds of thousands of Americans are without a home sleeping on streets or in temporary shelters Nearly one fifth of homeless Americans suffer from an untreated mental illness Due in part to reductions in state and city budgets many who need assistance are left to live on the street One natural byproduct of a life on the street is criminal behavior as adaptation to illegal acts becomes a matter of survival Could ending homelessness reduce crime What are ways in which that could be achieved and whose responsibility is it Are the homeless being unfairly blamed for street crime This volume offers a close examination of the issue from a variety of viewpoints Beyond Shelters James Hughes, 2018-10-02 Newspapers television and films cast homeless shelters as places of desperation sadness and sickness However over the last 25 years homeless shelters have changed dramatically Shelters have become more professional and sophisticated in addressing homelessness in their communities They now do much more than provide a bed and a meal for the night they offer different methods of intervention different types of services and different forms of connection to the communities they serve This book offers

essays by experienced shelter managers who address the future of the homeless shelter in Canada This diverse collection also includes a chapter by Dr Sam Tsemberis the father of the successful Housing First Model There are contributions by leaders in the homelessness field from across Canada who have been at the forefront of developing unique services for women youth Indigenous people and families The days of shelters serving to merely warehouse homeless people out of sight and mind are being replaced by specialized approaches that are reducing homelessness in Canada The contributors have years of experience understanding the causes of and solutions to homelessness and the role that shelters can play in achieving their ultimate goal the elimination of all forms of homelessness in Canada **Ending Midlife Bias** Nancy S.

Jecker,2020 As average lifespans stretch to new lengths how are human values impacted Should our values change over the course of our ever increasing lifespans Nancy S Jecker introduces a new concept the life stage relativity of values which holds that at different life stages different ethical concerns should take center stage For Jecker the privileging of midlife values raises fundamental problems of fairness and reveals large gaps in ethical principles and theories Jecker introduces a new philosophical framework that reflects the life stage relativity of values and shows its relevance to practice and policy

Too Poor to Die Amy Shea,2025-09-09 Death is the great equalizer but not all deaths are created equal In recent years there has been an increased interest and advocacy concerning end of life and after death care An increasing number of individuals and organizations from health care to the funeral and death care industries are working to promote and encourage people to consider their end of life wishes Yet there are limits to who these efforts reach and who can access such resources These conversations come from a place of good intentions but also from a place of privilege Too Poor to Die The Hidden Realities of Dying in the Margins a collection of closely connected essays takes the reader on a journey into what happens to those who die while experiencing homelessness or who end up indigent or unclaimed at the end of life Too Poor to Die bears witness to the disparities in death and dying faced by some of society s most vulnerable and marginalized and asks the reader to consider their own end of life and disposition plans within the larger context of how privilege and access plays a role in what we want versus what we get in death *Sunbelt Blues* Andrew Ross,2021-10-26 An eye opening

investigation of America s rural and suburban housing crisis told through a searing portrait of precarious living in Disney World s backyard Today a minimum wage earner can afford a one bedroom apartment in only 145 out of 3 143 counties in America One of the very worst places in the United States to look for affordable housing is Osceola County Florida Once the main approach to Disney World where vacationers found lodging on their way to the Magic Kingdom the fifteen mile Route 192 corridor in Osceola has become a site of shocking contrasts At one end global investors snatch up foreclosed properties and park their capital in extravagant vacation homes for affluent visitors eliminating the county s affordable housing in the process At the other underpaid tourist industry workers displaced families and disabled and elderly people subsisting on government checks cram themselves into dilapidated roach infested motels or move into tent camps in the woods Through

visceral frontline reporting from the motels and encampments dotting central Florida renowned social analyst Andrew Ross exposes the overlooked housing crisis sweeping America's suburbs and rural areas where residents suffer ongoing trauma poverty and nihilism As millions of renters face down evictions and foreclosures in the midst of the COVID 19 recession Andrew Ross reveals how ineffective government planning property market speculation and poverty wages have combined to create this catastrophe Urgent and incisive Sunbelt Blues offers original insight into what is quickly becoming a full blown national emergency

Utopian Thinking and Social Work Chris Horsell, 2025-02-03 This book highlights the importance of employing imaginative sensibilities to thinking and action in social work and social policy practice Exploring the question of how ideas about utopia and utopian method can be used in social work practice and policy practice to address social inequalities it shows that central to this critique is the argument that contemporary social policy responses and subsequent social work interventions to a range of policy problems e.g homelessness poverty family violence need to acknowledge the failure of dominant neoliberal discourses in addressing these issues The COVID 19 pandemic has highlighted and in many ways exacerbated existing inequalities and the post pandemic future provides opportunities to put utopian ideas into action Showing how utopian thinking can challenge fundamental assumptions regarding welfare dependency and unitary identities in policy settings this book will be of interest to all scholars students and professionals working in social work and social policy

Welfare Conditionality Beth Watts, Suzanne Fitzpatrick, 2018-05-15 Welfare conditionality has become an idea of global significance in recent years A hot topic in North America Australia and across Europe it has been linked to austerity politics and the rise of foodbanks and destitution In the Global South where publicly funded welfare protection systems are often absent conditional approaches have become a key tool employed by organisations pursuing human development goals The essence of welfare conditionality lies in requirements for people to behave in prescribed ways in order to access cash

benefits or other welfare support These conditions are typically enforced through benefit sanctions of various kinds reflecting a new vision of welfare focused more on promoting pro social behaviour than on protecting people against classic social risks like unemployment This new book in Routledge s Key Ideas series charts the rise of behavioural conditionality in welfare systems across the globe its appeal to politicians of Right and Left and its application to a growing range of social problems Crucially it explores why in the context of widespread use of conditional approaches as well as apparently strong public support both the efficacy and the ethics of welfare conditionality remain so controversial As such Welfare Conditionality is essential reading for students researchers and commentators in social and public policy as well as those designing and implementing welfare policies
