Featuring a new chapter on how the Internet and social media has radically changed how some predators operate criminal behavior specialists Greg Cooper and Mike King provide expert analysis based on real life cases in addition to moving insights from victims and criminals themselves The authors make the point that the people who commit these crimes aren't much different from the predators of the wild preying on the weak and unsuspecting What makes these individuals more dangerous than their instinctive wildlife counterparts however is that they consciously choose to inflict their will on the more vulnerable members of their own species To protect our loved ones and ourselves requires that we truly educate ourselves about the predators who live in our society and then take appropriate action This excellent in depth study will help readers lead safer lives
