Steer, 2017-02-26 This book seeks to understand how and why we should hold leaders responsible for the collective mass atrocities that are committed in times of conflict It attempts to untangle the debates on modes of liability in international criminal law ICL that have become truly complex over the last twenty years and to provide a way to identify the most appropriate model for leadership liability A unique comparative theory of ICL is offered which clarifies the way in which ICL develops as a patchwork of different domestic criminal law notions This theory forms the basis for the comparison of some influential domestic criminal law systems with a view to understanding the policy and cultural reasons for their differences There is a particular focus on the background of the German law which has influenced the International Criminal Court so much recently This helps to understand and seek a solution to the current impasses in the debates on which model of liability should be applied An entire chapter of the book is devoted to considering why leaders should be held responsible for crimes committed by their subordinates from legal moral and pragmatic perspectives The moral responsibility of leaders is translated into criminal liability and the different domestic models of liability are translated to the international context in such a way as to appeal to advanced students of ICL academics and practitioners who want to understand the complexities of leadership liability in international criminal law today and identify the best way to approach it Cassandra Steer is Executive Director of Women in International Security Canada and Junior Wainwright Fellow at McGill University Canada She holds a Ph D in Law from the University of Amsterdam The Netherlands **Concepto y prueba de los aspectos subjetivos del**

delito en el Derecho penal angloamericano Sánchez-Malaga, Armando, 2020-01-02 La necesidad de vincular la teoría del delito y el proceso penal es el punto de partida de la investigación que se presenta en este libro Su propósito es mostrar cómo el enfoque aplicativo del Derecho penal anglosajón está en condiciones de aportar herramientas de análisis a la discusión sobre el tipo subjetivo en el Derecho penal continental En Reino Unido y Estados Unidos se han desarrollado diversos criterios de inferencia para la determinación de los estados mentales en el proceso judicial Se trata de herramientas que tienen la

capacidad de reducir en el razonamiento judicial el riesgo de generalizaciones y la arbitrariedad. Particularmente importante es la figura de la temeridad y los criterios desarrollados para su inferencia que permiten elaborar un concepto de advertencia del riesgo que resulta útil para el planteamiento de una teoría normativa del dolo. El aporte de la jurisprudencia anglosajona es valorado en este libro también desde una perspectiva crítica al advertirse los riesgos de incorporar al Derecho penal continental reglas de responsabilidad penal objetiva.

The Globalization of Hate Jennifer Schweppe, Mark Austin Walters, 2016. *The Globalisation of Hate: Internationalising Hate Crime* is the first book to examine the impact of globalisation on our understanding of hate speech and hate crime. Bringing together internationally acclaimed scholars with researchers, policy makers and practitioners from across the world, it critically scrutinises the concept of hate crime as a global phenomenon, seeking to examine whether hate crime can or should be conceptualised within an international framework and if so, how this might be achieved. Beginning with the global dynamics of hate, the contributions analyse whether hate crime can be defined globally, whether universal principles can be applied to the phenomenon, how hatred is spread and how it impacts upon our global society. The middle portion of the book moves beyond the broader questions of globalisation to jurisdictional examples of how globalisation impacts upon our understanding of and also our responses to hate crime. The chapters explore in greater detail what is happening around the world and how the international concepts of hate crime are being operationalised locally, drawing out the themes of globalisation and internationalisation that are relevant to hate crime.

as evidenced by a number of jurisdictions from Europe the US Asia and Africa The final part of the book concludes with an examination of the different ways in which hate speech and hate crime is being combatted globally International law internet regulation and the use of restorative practices are evaluated as methods of addressing hate based conflict with the discussions drawn from existing frameworks as well as exploring normative standards for future international efforts Taken together these innovative and insightful contributions offer a timely investigation into the effects of hate crime offering an interdisciplinary approach to tackling what is now a global issue It will be of interest to scholars and students of criminology sociology and criminal justice as well as criminal justice practitioners police officers and policy makers Reader's Guide to the Social Sciences Jonathan Michie,2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense Social Work Practice with Adults Sally Lee,Louise Oliver,2023-04-19 This book will provide you with the initial developing knowledge and skills needed to practice ethically and effectively in diverse settings with a range of adults Written in collaboration with service users carers and practitioners its unique collaborative approach will enable you to learn from real lived experience Since launching in 2003 Transforming Social Work Practice has become the market leading series for social work students These books use activities and case studies to build critical thinking and reflection skills and will help social work students to develop good practice through learning These books are Affordable Written to the Professional Capabilities Framework Mapped to the social work curriculum Practical with clear links between theory and practice Punishment and Freedom Alan Brudner,2012-02-23 Presenting an original theory on the nature of criminal law this text provides an understanding of apparent contradictions and paradoxes within the field Bowker's Law Books and Serials in Print ,1998 The Journal of Criminal Law & Criminology ,1992 Case and Comment ,1928 **The Practice of Judicial Interaction in the Field of Fundamental Rights** Casarosa, Federica,Moraru, Madalina,2022-02-04 This insightful and timely book provides a comparative assessment of selected legal issues emerging from the EU legal context which impact profoundly on the national legal systems It argues that judicial interaction can answer complex legal questions relating to the implementation of the EU Charter The Oxford Handbook of Empirical Legal Research Peter Cane,Herbert Kritzer,2012-05-17 The empirical study of law legal systems and legal institutions is widely viewed as one of the most exciting and important intellectual developments in the modern history of legal research Motivated by a conviction that legal phenomena can and should be understood not only in normative terms but also as social practices of political economic and ethical significance empirical legal researchers have used quantitative and qualitative methods to illuminate many aspects of law s meaning operation and impact In the 43 chapters of The Oxford Handbook of Empirical Legal Research leading
