Gaither,Alma E. Cavazos-Gaither,2008-01-08 Scientists and other keen observers of the natural world sometimes make or write a statement pertaining to scientific activity that is destined to live on beyond the brief period of time for which it was intended This book serves as a collection of these statements from great philosophers and thought influencers of science past and present It allows the reader quickly to find relevant quotations or citations Organized thematically and indexed alphabetically by author this work makes readily available an unprecedented collection of approximately 18 000 quotations related to a

broad range of scientific topics **Seeing Seeds** Teri Dunn Chace, 2015-09-26 Llewellyn's images reflect a depth of detail that until now only the best botanical illustrators could approach The Washington Post A centuries old saying goes Great oaks from little acorns grow But as this dazzling book reveals there is much more to a seed than the plant it will someday become seeds seedheads pods and fruits have their own astounding beauty that rivals and sometimes even surpasses the beauty of flowers Bitter melon seeds resemble a handful of rubies Poppy pods could be art nouveau salt shakers And butterfly vine seeds look exactly like those delicate insects captured in mid flight Seeds also come with fascinating stories Jewels of Opar got its name from a fabled city in Edgar Rice Burroughs's Tarzan stories Lotus seeds sent into orbit by Chinese scientists came back to earth mysteriously altered And fava beans beloved of foodies have a Jekyll and Hyde personality they can cause the debilitating condition known as favism in some individuals and at the same time combat the microorganism that causes malaria In these stunning pages you'll gain an understanding of how seeds are formed and dispersed why they look the way they do and how they fit into the environment Seeing Seeds will take you to strange and wonderful places When you return it's safe to say that you'll never look at a seed the same way again A Delicate Art Mary-Beth Laviolette, 2012 A Delicate Art highlights the paintings and photography of six artists in Alberta who with passion and long moments of observation have made an inspired contribution to wildflower art Covering a period of one hundred years to the present the story behind these creators Mary Schaffer Warren Mary Vaux Walcott William Copeland McCalla Annora Brown Robert Sinclair and Carole Harmon is also told A blend of biography botanical and regional art history and commentary by the artists themselves about their treasured subject A Delicate Art is intended for the lay reader and is accompanied by sumptuous reproductions of the artwork and an alluring overall design that will appeal to anyone interested in art mountain life and gardening After the Death of Nature Kenneth Worthy, Elizabeth Allison, Whitney Bauman, 2018-11-09 Carolyn Merchant's foundational 1980 book The Death of Nature Women Ecology and the Scientific Revolution established her as a pioneering researcher of human nature relations Her subsequent groundbreaking writing in a dozen books and over one hundred peer reviewed articles have only fortified her position as one of the most influential scholars of the environment This book examines and builds upon her decades long legacy of innovative environmental thought and her critical responses to modern mechanistic and patriarchal conceptions of nature and women as well as her systematic taxonomies of environmental thought and action Seventeen scholars and activists assess praise criticize and extend Merchant's work to arrive at a better and more complete understanding of the human place in nature today and the potential for healthier and more just relations with nature and among people in the future Their contributions offer personal observations of Merchant's influence on the teaching research and careers of other environmentalists **The Marvelous Clouds** John Durham Peters, 2015-06-19 An ambitious re writing a re synthesis even of concepts of media and culture It is nothing less than an attempt at a history of Being Los Angeles Review of Books When we speak of clouds these days it is as likely that we mean data clouds or network

clouds as cumulus or stratus In their sharing of the term both kinds of clouds reveal an essential truth that the natural world and the technological world are not so distinct In *The Marvelous Clouds* John Durham Peters argues that though we often think of media as environments the reverse is just as true environments are media Peters defines media expansively as elements that compose the human world Drawing from ideas implicit in media philosophy Peters argues that media are more than carriers of messages they are the very infrastructures combining nature and culture that allow human life to thrive Through an encyclopedic array of examples from the oceans to the skies *The Marvelous Clouds* reveals the long prehistory of so called new media Digital media Peters argues are an extension of early practices tied to the establishment of civilization such as mastering fire building calendars reading the stars creating language and establishing religions New media do not take us into uncharted waters but rather confront us with the deepest and oldest questions of society and ecology how to manage the relations people have with themselves others and the natural world A wide ranging meditation on the many means we have employed to cope with the struggles of existence from navigation to farming meteorology to Google *The Marvelous Clouds* shows how media lie at the very heart of our interactions with the world around us

Queer Ecologies Catriona Mortimer-Sandilands, Bruce Erickson, 2010-07-14 Treating such issues as animal sex species politics environmental justice lesbian space and gay ghettos AIDS literatures and queer nationalities this lively collection asks important questions at the intersections of sexuality and environmental studies Contributors from a wide range of disciplines present a focused engagement with the critical philosophical and political dimensions of sex and nature These discussions are particularly relevant to current debates in many disciplines including environmental studies queer theory critical race theory philosophy literary criticism and politics As a whole *Queer Ecologies* stands as a powerful corrective to views that equate natural with straight while queer is held to be against nature

Artifacts & Illuminations Tom Lynch, Susan Naramore Maher, 2012-04-01 Loren Eiseley 1907-77 is one of the most important American nature writers of the twentieth century and an admired practitioner of creative nonfiction A native of Lincoln Nebraska Eiseley was a professor of anthropology and a prolific writer and poet who worked to bring an understanding of science to the general public incorporating religion philosophy and science into his explorations of the human mind and the passage of time As a writer who bridged the sciences and the humanities Eiseley is a challenge for scholars locked into rigid disciplinary boundaries *Artifacts and Illuminations* the first full length collection of critical essays on the writing of Eiseley situates his work in the genres of creative nonfiction and nature writing The contributing scholars apply a variety of critical approaches including ecocriticism and place oriented studies ranging across prairie urban and international contexts Contributors explore such diverse topics as Eiseley's use of anthropomorphism and Jungian concepts and examine how his work was informed by synecdoche Long overdue this collection demonstrates Eiseley's continuing relevance as both a skilled literary craftsman and a profound thinker about the human place in the natural world

The Cottonwood Tree Kathleen Cain, 2007 And so poet and naturalist Kathleen Cain fell

in love with the cottonwood tree Regarded by many as a nuisance a trash tree the cottonwood not only has a fascinating history it has served noble purposes as well Ranging from Vermont to Arizona to Alaska this native North American tree in various sizes shapes and subspecies has been a sacred symbol a shelter providing relief from both heat and cold a signpost for the lost and weary and underneath its branches many dreams have been born In a magical blend of art and science the author looks not only at the cottonwood how it grows how it travels and what it says but at the roles it has played and continues to play in the art health and history of North America If you need the science you will find it here if you need the human heart you will find it here as well Champion means winner defender something outstanding a hero After reading *The Cottonwood Tree An American Champion* you will see why this remarkable tree stands so tall in the American landscape

Book jacket *Flower Confidential* Amy Stewart, 2008-03-18 A globe trotting behind the scenes look at the dazzling world of flowers and the fascinating industry it has created Award winning author Amy Stewart takes readers on an around the world behind the scenes look at the flower industry and how it has sought for better or worse to achieve perfection She tracks down the hybridizers geneticists farmers and florists working to invent manufacture and sell flowers that are bigger brighter and sturdier than anything nature can provide There s a scientist intent on developing the first genetically modified blue rose an eccentric horticultural legend who created the most popular lily a breeder of gerberas of every color imaginable and an Ecuadorean farmer growing exquisite roses the floral equivalent of a Tiffany diamond And at every turn she discovers the startling intersection of nature and technology of sentiment and commerce
