Death Rights Deanna P. Soul-Making Christina Becker, 2025-06-17 The phrase soul making comes from the poet John Keats who struggled

with the world's random and meaningless suffering and believed that tragedies were the crucible in which the soul is forged and refined. In *Soul Making: A Journey of Resilience and Spiritual Rediscovery*, Christina Becker shares how her own tragedy from a series of events between 2009-2011 broke her leading to her dependency on alcohol. It could have been seen as meaningless but was transformed into soul. Part memoir and part self-help book, this is the deeply personal story of one woman's soul-making journey framed around the ideas of Carl Gustav Jung and spiritual practices. Readers are invited to think about their own lives in a new way to be curious about the deeper threads that run through their existence and to embark on their own soul-making journey. This Jungian Analyst demonstrates how redemption is found through self-knowledge, the expansion of consciousness, and most importantly through the cultivation of the heart. [The Poetics of Palliation](#) Brittany Pladek, 2019-05-24. *The Poetics of Palliation* argues that Romanticism developed richer literary therapies than its contemporary reception remembers. By reading Romantic writers against Georgian medical ethics, Poetics recovers their models of literature as comfort and sustenance, challenging a health humanities tradition that sees literary therapy primarily as cure. **Integral Imaginings** Matthew David Segall, 2011-10-07. The essays compiled herein are written on behalf of earth, the ground upon which I walk and the soil into which I will one day return. They contain the thought-traces of a thinker in love with wisdom. **How to Make a Soul** Eric G. Wilson, 2015-11-30. In this innovative hybrid of biography, memoir, and criticism, Eric G. Wilson describes how John Keats gave him solace during a bout of mental illness in spring 2012. While on a tour of the principal sites in Keats's life, ranging from his London medical school to the small room in Rome where he died, Wilson discovered analogies between the poet's troubles and his own. He was most struck by Keats's enlivening vision of the soul: For Keats, we don't possess but rather make a soul. We do this by imaginatively transforming our suffering into empathy toward humans and nature alike. Tracking this idea in Keats's tumultuous yet exhilarating life and work, Wilson struggles to envision his depression anew, desperate to overcome the apathy alienating him from his family. *How to Make a Soul* offers fresh perspectives on Keats's pragmatism, irony, comedy, ethics, and aesthetics but is above all a lyrical celebration of those galvanizing instances when life springs into art. *Teaching Through the Ill Body* Marla Morris, 2008-01-01. This book raises questions around pedagogy and illness. Morris explores two large issues that run through the text: What does the ill body teach? What does the teacher do through the ill body? The body has something to teach while teaching through the ill body. This book is theoretically framed by connections between spirituality and aesthetics. As the great spiritual traditions teach, our responsibility as teachers is to help others, especially those who are marginalized. What is lacking in our educational discourse is a discussion of the responsibility we all have to help those who get sick and not marginalize them. More specifically, pedagogical and curricular questions are fleshed out through working in the area of curriculum studies, depth psychology, and the medical humanities. These three disciplines have something in common: autobiography. But in the field of curriculum studies, autobiographies, pathographies of sickness, are few and far between. This book is meant to fill that gap in

the educational literature This pathography is a study that explores the mysteries of suffering storytelling memory and poesis Compassion woundedness vulnerability testimony and authenticity are all issues Morris raises here Teachers scholars depth psychologists and medical educators might be particularly interested in this intensely felt narrative about what it is like for teachers to teach while suffering from chronic illness [A Philosophy for Education](#) Neil Bolton,2024-10-21 A Philosophy for Education A Study in Aesthetic Rationality supports an argument for the crucial role of the aesthetic in a humanist education It is structured around the philosophy of Giambattista Vico 1668 1744 who saw the poetic imagination as the first language through which humankind makes sense of its place within the world with myths and symbolic ritual This is the search for the truth of identity and ultimately requires a self that examines its own experiences That examination is the work of an aesthetic rationality that responds to life s contradictions through the use of metaphor An historical perspective ranging from the Renaissance through the Romantic Movement to Phenomenology identifies the major characteristics of an aesthetic rationality and concludes with recommendations for the school curriculum **Keats's Negative Capability** Brian Rejack,Michael Theune,Nicholas Roe,2019 Few critical terms coined by poets are more famous than negative capability Though Keats uses the mysterious term only once a consensus about its meaning has taken shape over the last two centuries Keats s Negative Capability New Origins and Afterlives offers alternative ways to approach and understand Keats s seductive term [The Life of John Middleton Murry](#) F.A. Merciful Law of Divine Synchronicity Orest Stocco, 2017-03-09 I was going on twenty four and living in Annecy France when it happened a soul moment so charged with energy that it changed the dynamic of my life The Chamber of Maiden Thought (Psychology Revivals) Meg Harris Williams, Margot Waddell, 2013-11-26 Literature is recognised as having significantly influenced the development of modern psychoanalytic thought In recent years psychoanalysis has drawn increasingly on the literary and artistic traditions of western culture and moved away from its original medical scientific context Originally published in 1991 The Chamber of Maiden Thought Keats's metaphor for the awakening of the thinking principle is an original and revealing exploration of the seminal role of literature in forming the modern psychoanalytic model of the mind The crux of the post Kleinian psychoanalytic view of personality development lies in the internal relations between the self and the mind's objects Meg Harris Williams and Margot Waddell show that these relations have their origins in the drama of identifications which we can see played out metaphorically and figuratively in literature which presents the self creative process in aesthetic terms They argue that psychoanalysis is a true child of literature rather than merely the interpreter or explainer of literature illustrating this with some examples from clinical experience but drawing above all on close scrutiny of the dynamic mental processes presented in the work of Shakespeare Milton the Romantic poets Emily Bronte and George Eliot The Chamber of Maiden Thought will encourage psychoanalytic workers to respond to the influence of literature in exploring symbolic mental processes By bringing psychoanalysis into creative conjunction with the arts it enables practitioners to tap a cultural potential whose insights into the human mind are of immense value **The Century**, 1884
