How Obama Is Transforming America Through Immigration Mark Krikorian, 2011-02-09 President Obama and his allies have made no secret about their immigration goals easy amnesty loose enforcement and ever higher levels of legal immigration One prominent labor leader has boasted that continued mass immigration will solidify and expand the progressive coalition for the future In this penetrating Broadside Mark Krikorian lays out the details of Obama's open borders approach to immigration and its political consequences Krikorian one of the leading critics of current immigration policy examines the Administration's record of weakening enforcement and describes how legislation crafted by the president's supporters in Congress would ensure new waves of illegal immigration Krikorian also explains how continued high levels of immigration regardless of legal status would progressively move the United States in the direction of more government and less liberty

Communist China's War Inside America Brian T. Kennedy, 2020-06-16 The People's Republic of China and the United States are today at war It is being fought with the use of information politics and finance The Chinese believe that as in all war it would be better to win without engaging the enemy on the battlefield or having to resort to the likes of nuclear weapons if it can be avoided To achieve this China has engaged in a decades long campaign to manipulate and corrupt America's ruling elite This Broadside describes the degree to which Chinese influence has penetrated American society and what will be required to prevent Communist China from winning the struggle in which we find ourselves today

Obama's Education Takeover Lance Izumi, 2011-12-20 President Obama has laid the groundwork for an unprecedented centralization of education policy under the guise of promoting educational innovation accountability and improved student achievement In reality Obama's new national standards curricula and testing in addition to huge spending commitments by the federal government shift the policymaking power from individuals and communities to the federal bureaucracy In this Broadside Lance Izumi examines Obama's education policies and shows us why Americans must protect and promote the power of individuals especially parents to control children's education We should look to the revolutionary school choice and parental empowerment laws passed by key states and other nations such as Canada While

Obama is pushing American education in the wrong direction we can steer it back to local control **How China's Communist Party Made the World Sick** Bill Gertz,2020-04-28 The outbreak of a deadly new form of pneumonia that began in Wuhan China in December 2019 has shown the world that the regime in Beijing poses the most serious threat to world peace and freedom since the Soviet Union Early missteps by China s ruling Communist Party repressing doctors who sought to alert China and the world to the dangers of the novel coronavirus and permitting millions to travel out of Wuhan for a holiday caused the global pandemic now devastating populations and economies around the world In this important essay Bill Gertz shows how China s lies and obfuscations imperiled the world *Getting America Back to Work* Andrew F. Puzder,2020-04-21 Over the last two months the COVID 19 pandemic has thrown a robust American economy into disarray completely shutting down major business sectors and putting millions of people out of work overnight With so much at stake and with all options seemingly on the table it is crucial that we commit ourselves to the long term goal of restoring the sorts of free market policies that led to the Trump Economic Boom prior to the China Virus crisis Although massive government interventions that Barack Obama pursued following the Great Recession might presently appear beneficial or even essential a return to Obama s new normal of stagnant growth would lead to disastrous and persisting economic damage We must instead return as soon as is safely possible to the Trump model of economic prosperity that produced the strongest labor market in modern history [The Inequality Hoax](#) James Piereson,2014-08-05 The controversy over inequality has gathered steam with the publication of Thomas Piketty s new book *Capital in the Twenty First Century* a dense work of economic history that documents the rise of income inequality in recent decades and sets forth an agenda of taxation to deal with it Piketty s treatise has turned into a rallying point for those favoring income redistribution and higher taxes on the rich In this Broadside James Piereson explains how Piketty s book is flawed and advances a narrow understanding of the market system While misjudging the era in which we are living and misunderstanding the sources of inequality Piketty s book proposes solutions that will make matters worse for everyone the wealthy the middle class and the poor alike *What's So Bad About Cronyism?* Jay Cost,2015-10-06 Cronyism is a serious problem in the United States but unfortunately it is still not very well understood In this new essay Jay Cost explains what it is and why we should be so worried about it By mingling private and public interests cronyism costs us hundreds of billions of dollars per year and threatens to transform our republic into an oligarchy where the rich dominate the middle class Worse modern cronyism has become embedded into the laws themselves so politicians in Washington assume that such corruption is just the way things should be To confront the dangers of cronyism reformers need to think outside the box paying special attention to how the political process functions **The Growth Deficit** James Piereson,2022-11-01 During the 1980s and 1990s European economies went through a period of slowing economic growth and high unemployment what some economists described as secular decline On the other side of the Atlantic the United States enjoyed a robust recovery during those years by reducing taxes eliminating regulations on

business and tightening monetary policy Now after two decades of subpar growth the question is whether or not the American economy has entered into its own era of secular decline This Broadside examines this troubling development recognizing that there are no easy solutions to the problem Lacking workable solutions Americans will have to adjust to a future of slow economic growth with all that implies for inter generational progress American strength abroad and political conflict at home

Against the Obamanet Brian C. Anderson,2015-07-21 The Internet is a platform of ceaseless innovation that has transformed our lives in a remarkably short time And the United States has led that revolution of the 15 largest websites in the world 10 are American But all that is now under threat In February 2015 the Federal Communications Commission imposed extensive regulatory controls on this vibrant digital universe in an effort to mandate network neutrality In this Broadside Brian C Anderson explains how the FCC s power grab for neutrality could be devastating for the most dynamic sector of the U S economy Network neutrality is at odds with everything that made today s Internet the market cornucopia that it is and we must protect it from the encroach ments of Washington in order to foster its further growth

Moore vs. Krugman Stephen Moore,2016-05-03 What happens when a leading conservative economist goes mano a mano with today s most influential exponent of left liberal economics over free markets versus government interventionism Here are highlights of that showdown between Stephen Moore of the Heritage Foundation and Paul Krugman Nobel laureate Moore and Krugman sparred over eight major economic issues in our national debate from whether the policy response to the crisis of 2008 was successful to the outlook for Obamacare to the red state blue state divide The contest was cordial and spiced with wit Does air conditioning explain the migration from blue to red states Is Houston still uninhabitable This high powered matchup illuminates a clash of worldview that leads to opposing policy prescriptions More important it will help you draw conclusions about which economic policies work

Why Redistribution Fails James Piereson,2015-10-13 Democratic presidential candidates including Hillary Clinton and Bernie Sanders along with progressive economists like Thomas Piketty and Paul Krugman have made a case for redistributing income from the wealthy to the poor as a means of reducing inequalities in income and wealth Meanwhile public opinion polls show that voters reject programs of redistribution in favor of policies designed to promote overall economic growth and job creation While voters are concerned about inequality they are more skeptical of the capacity of the government to do anything about it without making matters worse for everyone In this Broadside James Piereson explains why the voters are right and the progressive politicians and economists are wrong As he demonstrates the progressive case is based upon a serious fallacy it assumes that the government is actually capable of redistributing income from the wealthy to the poor For reasons of policy tradition and constitutional design this is not the case The United States currently has one of the more progressive income tax systems in the industrial world but it does little to redistribute income from the wealthy to the poor One reason for this is that though the government spends vast sums on programs to aid the poor most of these funds flow to providers of services rather than to the poor themselves Thus whatever

one may think of inequality redistributive tax and spending policies are unlikely to do much to ameliorate it but will instead line the pockets of providers and advocates who wield great influence in Washington *Countdown to Socialism* Devin Nunes,2020-09-15 The Democratic Party has changed beyond recognition Once the party of anti communism and tax cutting under President Kennedy it is now dominated by a surging socialist movement and led by a presidential candidate who vows to transform America On a near daily basis the Democrats are issuing radical proposals to socialize medicine industry and higher education So how can the Democrats win elections when their agenda is so far to the left of the American people That s easy it s because the means of public debate are being manipulated In *Countdown to Socialism* Congressman Devin Nunes exposes the nexus between the Democratic Party the mainstream media and the social media corporations These three entities cooperate to blast out the Democrats message and downplay their extremism while suppressing and censoring conservative points of view Tens of millions of Americans are only seeing one side of the debate The information they get from newspapers and social media is not news it s contrived content designed to help one political party and punish its opponents In the run up to the most consequential election of our lifetime read this book to learn how your information is being skewed and regulated to force America onto the path to socialism *It's Time to Let America Work Again* Andrew F. Puzder,2020-08-04 As we begin the process of reopening our economy it is critical that we get back to work The economic shutdown was intended to slow the spread of a lethal virus not to permanently sacrifice our freedoms and certainly not to expand government power and fundamentally transform America During the shutdown we ve learned what that transformed America would look like and it is ugly With millions of people out of work and dependent on government lacking the dignity of a job the security of a paycheck or the opportunity for a better future depression and despair are creating an epidemic within the pandemic of suicides and drug and alcohol addiction While there are risks if we follow safety protocols and protect the vulnerable we can safely reignite our economy as we undo the lockdown eliminate policies that discourage work and enact policies that encourage hiring and growth It s time to reject the transformation to permanent government dependence and return instead to individual freedom and prosperity *The Next Pandemic* Betsy McCaughey,2020-05-19 America is suffering from two public health crises One is caused by a virus The other a brutal economic shutdown is something we have brought on ourselves Both the virus and the shutdown are deadly But many more Americans will likely die from getting laid off than from the virus The shutdown wasn t caused by the virus It was a frantic response to America s unpreparedness For more than two decades a dozen official reports sounded the alarm The career pols and federal bureaucrats did nothing Message to Washington DC No more commissions and televised hearings It s time to act In this incendiary *Encounter Broadside* Betsy McCaughey shows how to battle the next pandemic without an economic shutdown including technologies to make workplaces healthier protections for hospital workers and severing dependence on China for medical supplies Despite the suffering there s reason for optimism America will be ready for the next pandemic *The Fracturing of the E.U.* Bruce

S. Thornton, 2017-12-05 The long simmering crises challenging the European Union have worsened with the 2008 financial crisis the influx of Middle East refugees in 2015 several bloody terrorist attacks and England's departure from the E U in 2016 Yet these are all the wages of persistent flaws in the idea of the Union itself Excessive regulations welfare and taxes impede economic growth Centralization of power in Brussels has created a democracy deficit and lessened autonomy and freedom Populations are shrinking and unvetted and unassimilated migrants have increased crime and terrorist attacks All these problems reflect the lack of any unifying set of beliefs and principles that could unite 27 diverse cultures and peoples Europe is fractured and adrift its peoples unsure for what they should fight or die for **Khashoggi, Dynasties, and Double Standards** Joseph P. Duggan, 2019-04-30 As 2018 ended an orchestrated propaganda campaign paralyzed U S foreign policy The trigger was the killing in Istanbul of Jamal Khashoggi a member of Saudi Arabia's wealthy and politically powerful oligarchy Mainstream media and misguided melodramatic politicians hoodwinked millions by portraying Khashoggi as a martyr for press freedom and democracy The real Khashoggi was nothing of the sort President Trump's efforts to restore realism to foreign policy must contend not only with Democrats but also with naive Republicans who reject the national interest realism of Jeane Kirkpatrick author of *Dictatorships and Double Standards* **Operation Drain the Swamp** Adam Andrzejewski, 2018-05-22 President Donald J Trump said he wants to drain the swamp But is it a swamp or an ocean It's about time the American people had some hard facts regarding the federal bureaucracy In Operation Drain The Swamp we expose all of it We showcase who receives how much where they work and what they do Most importantly we reveal how much these bureaucrats cost the American taxpayer During the 2016 presidential election the supporters of Donald Trump on the right and even those supporting Bernie Sanders on the left felt that the system was rigged for insiders Now we highlight the facts and stories to prove it In Operation Drain The Swamp we offer a step by step guide to civil service reforms

Trump vs. the Media Mollie Ziegler Hemingway, 2017-04-25 How bad is the problem of media bias The answer can be summed up in a few words President Donald J Trump Whether you love him or hate him there's no question that Trump gained a huge amount of support for his willingness to criticize the media in harsh and unsparing terms The media seems baffled by the fact that it's lost the trust of the American people It has responded by being extraordinarily defensive and doubling down on histrionic attacks However the American system has always depended on a strong and trusted media to hold those in power accountable Journalist Mollie Hemingway looks at the impressive list of media failure that led us to this unique moment and asks Is it possible for the media to recover its credibility before it's too late *Islam and Free Speech* Andrew C McCarthy, 2015-04-14 In January 2015 Muslim terrorists massacred cartoonists and writers at the Paris offices of the satirical magazine Charlie Hebdo proclaiming to be avenging Islam's prophet The rampage which included the murders of hostages at a kosher market prompted global leaders and throngs of citizens to rally in support of free expression But was the support genuine In this Broadside Andrew C McCarthy explains how leading Islamists have sought to supplant free

expression with the blasphemy standards of Islamic law gaining the support of the U S and other Western governments But free speech is the lifeblood of a functioning democratic society essential to our capacity to understand protect ourselves from and ultimately defeat our enemies
