**The Plundering of NASA: an Exposé** R.D. Boozer, 2013-04-14 At last here is a book peering behind the veil of Congressional politics which force NASA to do the bidding of regional interests that cripple the nation's capabilities in both exploring outer space and exploiting its enormous economic potential Presenting the opinions of astronauts prominent rocket scientists and space policy analysts while also revealing unpublicized studies conducted by NASA industry and universities The Plundering of NASA An Expose combines into one book many of the facts the major media have either ignored or not discovered Expert sources explain modern and economically practical solutions that can allow NASA to exceed its former Apollo glory within its current budget In short the book relates how honest misconceptions greed and an outdated faction within NASA itself cause our nation to get less for its space agency tax dollars than it could and should

**The Value of the Moon** Paul D. Spudis, 2016-04-26 While the Moon was once thought to hold the key to space exploration in recent decades the U S has largely turned its sights toward Mars and other celestial bodies instead In The Value of the Moon lunar scientist Paul Spudis argues that the U S can and should return to the moon in order to remain a world leader in space utilization and development and a participant in and beneficiary of a new lunar economy Spudis explores three reasons for returning to the Moon it is close it is interesting and it is useful The proximity of the Moon not only allows for frequent launches but also control of any machinery we place there It is interesting because recorded deep on its surface and in its craters is the preserved history of the moon the sun and indeed the entire galaxy And finally the moon is useful because it is rich with materials and energy The moon Spudis argues is a logical base for further space exploration and even a possible future home for us all Throughout his work Spudis incorporates details about man's fascination with the moon and its place in our shared history He also explores its religious cultural and scientific resonance and assesses its role in the future of spaceflight and our national security and prosperity
