Christianity and Rabbinic Judaism Jonas E. Alexis, 2013 Our way must be never knowingly support lies Having understood where the lies begin step back from that gangrenous edge Let us not glue back the flaking scale of the Ideology not gather back its crumbling bones nor patch together its decomposing garb and we will be amazed how swiftly and helplessly the lies will fall away and that which is destined to be naked will be exposed as such to the world Alexander Solzhenitsyn Enlightenment writer Voltaire was amazed that twelve fishermen some of them unlettered from an obscure place in the world called Galilee challenged an empire through self denial and patience and eventually established Christianity He seriously thought that twelve philosophers or intellectuals himself included would do the opposite and crush Christianity Voltaire's self appointed cheerleaders such as Diderot Helvitius d Holbach D Alembert Lametrie and Baron Cloots among others tried to do just that and wrote volumes of work trying to tear down the basis of Christianity and erect an edifice of their own Diderot in particular declared I would sacrifice myself perhaps if I could annihilate forever the notion of God Cloots wrote We shall see the heavenly royalty condemned by the revolutionary tribunal of victorious Reason Lametrie produced Man A Machine and an entire French encyclopedia was written between 1751 and 1772 by those philosophers because Christianity to a large degree had to go Voltaire would send letters to his disciples and friends saying crasez l inf me Rousseau of course was a disciple of Voltaire and declared that Voltaire's work inspired me The French Revolution failed Yet like all significant revolutions before and after that period the French Revolution indirectly had a theological root which was then a categorical and metaphysical rejection of Logos That theological substratum has jumped from one era to the next and had and still has historical political economic and spiritual ramifications This book is about the historical and theological struggle of that conflict which had its inception at the foot of the cross The Holy Roman Empire in Prophecy Brad The Modern World Sarolta Takacs, Mounir Farah, 2015-03-04 Designed to meet Macdonald, Philadelphia Church of God,

Davison John A. Davison, 2010 How Can You Still Be Catholic? Christopher Sparks, Christopher Sparks asked Facebook friends to finish the question How can you still be Catholic when The replies came swiftly and forcefully With that Sparks went to work Here is the result In this book he addresses the biggest issues people grapple with when they think about the Catholic Church the Inquisition the Crusades the Church's role in a state homosexuality the role of women in the Church and many others For skeptics and non Catholics this book is an invitation to understanding the faith a way for outsiders to hear one contemporary Catholic s worldview and to see through Catholic eyes even if they remain unconvinced For Catholics this book is an introduction to an array of answers and resources for delving more deeply into and defending the faith **Foundations of International Relations** William Bain, 2016-07-15 The purpose of this volume is to explore the medieval inheritance of modern international relations Recent years have seen a flourishing of work on the history of international political thought but the bulk of this has focused on the early modern and modern periods leaving continuities with the medieval world largely ignored. The medieval is often used as a synonym for the barbaric and obsolete yet this picture does not match that found in relevant work in the history of political thought The book thus offers a chance to correct this misconception of the evolution of Western international thought highlighting that the history of international thought should be regarded as an important dimension of thinking about the international and one that should not be consigned to history departments Questions addressed include what is the medieval influence on modern conception of rights law and community how have medieval ideas shaped modern conceptions of self determination consent and legitimacy are there medieval answers to modern questions is the modern world still working its way through the Middle Ages to what extent is the modern outlook genuinely secular is there a theology of international relations what are the implications of continuity for predominant historical narrative of the emergence and expansion of international society Medieval and modern are certainly different however this collection of essays proceeds from the conviction that the modern world was not built on a new plot with new building materials Instead it was constructed out of the rubble that is the raw materials of the Middle Ages This will be of great interest to students and scholars of IR IR theory and political theory Atheist Persona John J.

Pasquini,2014-04-15 In the past as in the present science has explored the reasons for belief In recent years with the rise of categorical practical and militant atheism the scientific and philosophical community has begun studying the worldview of atheism The Atheist Persona Causes and Consequences is a summary of the most recent research by the best of scholars on the subject of atheism In an effort to create a more courteous dialogue between theists and atheists this book acknowledges that while there are reasons for believing in God there are also reasons for not believing in God Atheist Persona showcases how the worldview we choose to accept determines how we live our lives and how we influence those around us

Exploring the Belief in the Real Presence David J. Keys, PhD,2015-03-12 The Eucharistic celebration is an ancient ritual originating almost 2000 years ago It took place during the last Passover supper Jesus had with his apostles on the day before he died At that time Jesus took bread blessed it broke it and gave it to the apostles saying This is my body Subsequently Jesus took the wine gave thanks and gave it to the apostles saying This is my blood Jesus commanded the apostles to Do this in memory of me Currently the religions of more than three fourths of the worlds Christians believe that when these same words are said during their faiths Eucharistic liturgy the bread and wine turn into the real presence of Jesus Christ that is into the body blood soul and divinity of Jesus Christ In addition many individuals belonging to those religions which believe in the real presence have little understanding of the basis for this ancient belief In Exploring the Belief in the Real Presence author Dr David J Keys provides an understanding of the real presence in the Eucharist for both newcomers to the principle and for those who wish to extend their belief to a deeper level Through scripture and documentation Keys shares the beauty and richness of this ancient teaching concerning the real presence of Jesus in the Eucharist <u>Jesus: A New Understanding of God's Son Joseph F. Girzone</u>, The Catholic Church Through the Ages John Vidmar, 2014 **Zionism Vs. the West** Jonas E. Alexis, 2018-04-03 A person can be brought into bondage in two different ways by force or by his own will Force is a crude way of bringing a person into submission but using the persons own free will can be done sophistically and covertly Under the banner of democracy and freedom America has been under the bondage of what E Michael Jones has aptly called sexual liberation and political control for over fifty years In the first two volumes of the trilogy Alexis explored these ideological themes In this last volume he expands on some of those pernicious ideas emphasizing how Zionism for over sixty years has shaken the moral philosophical and intellectual foundation of much of Western culture The Iraq War alone will cost America at least six trillion dollars and as if to prove that America is still in bondage the oppressors continue to use sophisticated means to seduce Americans so that perpetual wars will never cease to exist in the Middle East and in much of the world This book will seek to address these and related issues and in the process tell us something about the fundamental nature of reality and how to approach this cosmic conflict which has dominated the A History of Orthodox, Islamic, and Western Christian Political Values Dennis J. West for over a thousand years Dunn, 2016-09-13 The book reveals the nexus between religion and politics today and shows that we live in an interdependent world where one global civilization is emerging and where the world's peoples are continuing to coalesce around a series of values that contain potent Western overtones Both Putin's Orthodox Russia and regions under the control of such Islamist groups like ISIS and Al Qaeda resent and attempt in a largely languishing effort to frustrate this series of values The book explains the current tension between the West and Russia and parts of the Muslim world and sheds light on the causes of such crises as the Syrian Civil War Russia's aggression against Ukraine and acts of terrorism such as 9 11 and the ISIS inspired massacres in Paris It shows that religion continues to affect global order and that knowledge of its effect on political identity and global governance should guide both government policy and scholarly analysis of contemporary history **Great Ideas of Religion and Freedom**, 2021-08-30 This volume tests a hypothesis philosophy and science are identical forms of behavioristic organizational psychology a psychological habit of wondering about causes of organizational existence formation and behaviour Focusing attention on two universal and culturally influential great ideas freedom and religion this volume s array of international scholars demonstrate that leading ancient and medieval philosophers did philosophy in this way Also well known philosophers scientists like Mortimer J Adler and John N Deely practiced philosophy this way Doing so is precisely what made these philosophers uniquely capable of generating great ideas as motivational principles that dramatically alter cultures In a nutshell this work offers significant support for its historically and philosophically ground breaking thesis Recuperation of Theological Principles against Ideo-logicist Incompetence A. J. Bueno, 2016-05-23 This Recuperation based on the epistemology of Book 1 confronts the logicist destruction in theology The preface enjoins Logicism is deleterious in all sciences We shall see how it can destroy Theology trying for example to replace reality with sacred texts that is with testimonies of Revelation The logicist sub epistemology certainly favors the identification of Revelation with Bible of faith with articles of faith of enuntiabilia and concepts with reality Writing his theological thesis on Bonaventure J Ratzinger was pleasantly surprised to discover that no one in the thirteenth century called the Bible the Revelation But this does not mean that logicism began afterward with Descartes for example reaching its apotheosis with the German idealism This book explains how a peculiar symbiosis of nominalism Ockham and logicism impairs the sincere and orthodox initial search of Luther who ends up developing a theology of the nomina logicist sort source of ravings Erasmus perceives it and tries to refute him but is a victim of similar epistemological blunders. The book s second part focuses on the issue of the integral education of young people and leads to the need of sacred theology Is it advisable to teach young people metaphysics and ethics in a strictly philosophical way in order to provide a fundamental view of reality a Weltanschauung perhaps The explicit answer of Aristotle and Thomas is a resounding no Aquinas advocates teaching metaphysics within theology **Politics for Christians** Francis J. Beckwith, 2012-05-20 Politics is concerned with citizenship and the administration of justice how communities are formed and governed The role of Christians in the political process is hotly contested but as citizens Francis Beckwith argues Christians have a rich heritage of sophisticated thought as well as a

genuine responsibility to contribute to the shaping of public policy In particular Beckwith addresses the contention that Christians or indeed religious citizens of any faith should set aside their beliefs before they enter the public square What role should religious citizens take in a liberal democracy What is the proper separation of church and state What place should be made for natural rights and the moral law within a secular state This cogent introduction to political thought surveys political science politics and government while making the case for how statecraft may genuinely contribute to soulcraft Politics for Christians is part of The Christian Worldview Integration Series
