Merrill, Jan Elen, M. J. Bishop, 2013-07-03 The 4th edition of the Handbook of Research on Educational Communications and

Technology expands upon the previous 3 versions providing a comprehensive update on research pertaining to new and emerging educational technologies. Chapters that are no longer pertinent have been eliminated in this edition with most chapters being completely rewritten, expanded and updated. Additionally, new chapters pertaining to research methodologies in educational technology have been added due to expressed reader interest. Each chapter now contains an extensive literature review documenting and explaining the most recent outstanding research, including major findings and methodologies employed. The Handbook authors continue to be international leaders in their respective fields; the list is cross-disciplinary by design and great effort was taken to invite authors outside of the traditional instructional design and technology community.

International Review for Business Education, 1986 **Handbook of Research on Teaching the English Language Arts** Diane Lapp, Douglas Fisher, 2011-01-18

Now in its third edition, the Handbook of Research on Teaching the English Language Arts, sponsored by the International Reading Association and the National Council of Teachers of English, offers an integrated perspective on the teaching of the English language arts and a comprehensive overview of research in the field. Prominent scholars, researchers, and professional leaders provide historical and theoretical perspectives about teaching the language arts, focus on bodies of research that influence decision making within the teaching of the language arts, explore the environments for language arts teaching, reflect on methods and materials for instruction, and reflect on important recent developments in the field. The Third Edition is restructured, updated, and includes many new contributors. More emphasis is given in this edition to the learner, multiple texts, learning and sharing one's knowledge. A Companion Website new for this edition provides PowerPoint slides highlighting the main points of each chapter.

Practical Spreadsheet Modeling Using @Risk Dale Lehman, Huybert Groenendaal, 2019-11-11

Practical Spreadsheet Modeling Using Risk provides a guide of how to construct applied decision analysis models in spreadsheets. The focus is on the use of Monte Carlo simulation to provide quantitative assessment of uncertainties and key risk drivers. The book presents numerous examples based on real data and relevant practical decisions in a variety of settings, including health care, transportation, finance, natural resources, technology, manufacturing, retail, and sports and entertainment. All examples involve decision problems where uncertainties make simulation modeling useful to obtain decision insights and explore alternative choices. Good spreadsheet modeling practices are highlighted. The book is suitable for graduate students or advanced undergraduates in business, public policy, health care administration, or any field amenable to simulation modeling of decision problems. The book is also useful for applied practitioners seeking to build or enhance their spreadsheet modeling skills. Features: Step by step examples of spreadsheet modeling and risk analysis in a variety of fields; Description of probabilistic methods, their theoretical foundations, and their practical application in a spreadsheet environment; Extensive
