This book and DVD package is the ideal resource for physical education teachers who want to incorporate inclusive sport skill instruction through sports traditionally identified with disability sport programs. The sports featured in this book are wheelchair basketball, wheelchair indoor soccer, sitting volleyball, wheelchair tennis, goalball, slalom, and boccia. The games are organized by skill so teachers can select games based on the skills they want to teach. The skills for each sport are task analyzed to help teachers address the needs of students with disabilities. Teachers will learn how to make psychomotor modifications to games to include students with and without disabilities; teachers will also learn how to involve all students in making decisions about the modifications. The book's ABC model guides readers through the stages of program planning, implementation, planning, teaching, assessment, and evaluating. Readers are also shown how to use IEPs and develop goals and objectives for lesson plans. In addition, *Teaching Disability Sport* provides instruction on wheelchair selection and fitting, equipment concerns, and Web addresses for adapted sports and activities. And an inclusion index makes selecting the right sports and games easy. The 200 games and activities are cross-referenced to functional profiles: low, medium, high, of students with disabilities. Management of Sport and Physical Activity Earle F. Zeigler Ph. D. D. Sc LLD Fnak, Earle F. Zeigler, 2012 Dr Zeigler the author of *Management of Sport and Physical Activity* The Case Method Approach is convinced that The Harvard Case Method should be used much more extensively and much more knowledgeably in sport and physical activity management in the 21st century Using this teaching technique students read analyzed and then discussed real life administrative problems like those they would have to face in their future careers The emphasis was on careful analysis and digging for facts The instructor was very important with this approach but he she did not dominate the discussion or seek a predetermined goal He she served as 1 a resource person 2 an evaluator of progress 3 an informed member of the group 4 a discussion chairperson and 5 a summarizer The student will find however that no new supply of knowledge is included one that must be learned Here instead is an approach to the learning of management that the prospective manager of sport and physical activity has not yet met satisfactorily to a truly significant degree This text can be used by itself at either undergraduate or graduate levels of instruction or it may be used as a laboratory manual in conjunction with a more traditional knowledge oriented text For example the author's *Management Theory and Practice in Physical Activity Education Including Athletics* was published in 2010 with this in mind also available at Trafford Publishing Bloomington IN a href [http www trafford com](http://www.trafford.com) Down through the years of the twentieth century the case method of instruction attracted favorable attention steadily and increasingly in business law educational administration and the social sciences Many who have managed programs and who have perhaps taught the management course in the professional program have felt the need for an improved approach to the subject at hand Try it yourself you and your students won't be disappointed
