to such questions thus initiating an open dialogue about the legitimacy of this critical category With contributions by Dario Donetti Marco De Michelis Oliver Elser Dominique Rouillard Marco Biraghi Marie Theres Stauffer Maddalena Scimemi Simon Sadler Massimiliano Savorra and Anthony Vidler

**Frank Furness** George E. Thomas, 2018-02-27 Frank Furness 1839 1912 has remained a curiosity to architectural historians and critics somewhere between an icon and an enigma whose importance and impact have yet to be properly evaluated or appreciated To some his work pushed pattern and proportion to extremes undermining or forcing together the historic styles he referenced in such eclectic buildings as the Pennsylvania Academy of the Fine Arts and the University of Pennsylvania Library To others he was merely a regional mannerist creating an eccentric personal style that had little resonance and modest influence on the future of architecture By placing Furness in the industrial culture that supported his work George Thomas finds a cutting edge revolutionary who launched the beginnings of modern design played a key part in its evolution and whose strategies continue to affect the built world In his sweeping reassessment of Furness as an architect of the machine age Thomas grounds him in Philadelphia a city led by engineers industrialists and businessmen who commissioned the buildings that extended modern design to Chicago Glasgow and Berlin Thomas examines the multiple facets of Victorian Philadelphia s modernity looking to its eager embrace

of innovations in engineering transportation technology and building and argues that Furness working for a particular cohort of clients played a central role in shaping this context His analyses of the innovative planning formal and structural qualities of Furness's major buildings identifies their designs as initiators of a narrative that leads to such more obviously modern figures as Louis Sullivan William Price Frank Lloyd Wright and eventually the architects of the Bauhaus Misunderstood and reviled in the traditional architectural centers of New York and Boston Furness's projects commissioned by the progressive industrialists of the new machine age intentionally broke with the historical styles of the past to work in a modern way from utilizing principles based on logistical planning to incorporating the new materials of the industrial age Lavishly illustrated the book includes more than eighty black and white and thirty color photographs that highlight the richness of his work and the originality of his design spanning more than forty years

*Master of the Midcentury* Catherine Cody, Jo Lauria, Don Choi, 2021-09-14 Master of the Midcentury The Architecture of William F Cody is the first long overdue book on this key Palm Springs architect abundantly illustrated and detailed Of the architects who made Palm Springs a crucible of midcentury American modernism William F Cody 1916-1978 was one of the most prolific diverse and iconic Directing a practice ranging from residences to commercial centers and industrial complexes to master plans Cody's designs are so recognizable that they provide visual shorthand for what is widely hailed as Desert Modern While his

architecture was disciplined and technically innovative. Cody did not practice an austere modernism; he imbued in his projects a love for social spaces rich with patterns, texture, color, and art. Though the majority of Cody's built work was concentrated in California and Arizona, he had commissions in other western states: Hawaii, Mexico, Honduras, and Cuba. From icons like the Del Marcos Hotel (1946) to inventive country clubs like the Eldorado (1957) to houses for celebrities (Frank Sinatra, Bing Crosby, Walt Disney), Cody's projects defined the emerging West Coast lifestyle that combined luxury, leisure, and experimental design. Cody also pushed the boundaries of engineering with beams and roof slabs so thin that his buildings seemed to defy gravity.

*Master of the Midcentury* is the first monograph devoted to Cody, authored by the team that curated the acclaimed exhibition *Fast Forward: The Architecture of William F. Cody* at the Architecture and Design Museum in Los Angeles: his daughter, Cathy Cody, design historian Jo Lauria, and architectural historian Don Choi. Replete with photographs of extant and now lost structures, as well as masterful color renderings and drawings for architectural commissions and plans for vanguard building systems, *Master of the Midcentury* is the authoritative resource on Cody.
