In addition to the five main windows, SketchUp also includes several other windows, such as the Components window that's open in Figure 1-1. You can open and close these as needed by using the Window menu. With the tools in these windows, you'll apply color and shading to your models, select prebuilt components, add shadows and lighting effects, and export your project.

SketchUp's menu bar is styled with the most popular, such as File, Edit, Window, and Help. SketchUp's View menu is a little different from the ones in most programs (Figure 1-1). The View menu has items in the SketchUp window that you can show or hide, including things like the drawing guides, wire frame, measurement tools, and view different models. If you're looking for tools that change over time of the SketchUp window, such as a View or the tool, look under the View menu.
